Service Profession A Festschrift In Honor Of Charles D Patterson:

A Service Profession, a Service Commitment Charles D. Patterson, 1992 A tribute to the library profession this festschrift explores the various service roles of professional librarians Presented in three parts A Service Profession discusses the roles in support of scholarly communication examines library and information science organizations and suggests strategies for developing leadership within the profession Kathleen de la Pena McCook John M Budd and Dana Watson offer perspectives on the processes involved in scholarly publishing Opportunities for professional action through organizations are explored by Danny P Wallace Joseph Mika and Bert R Boyce Connie Van Fleet and Donald E Riggs underscore the importance of personal commitment in developing excellence in libraries today and in the future *The Changing Academic Library* John Budd, 2005 The Changing Academic Library is a revision of Budd's *The Academic Library Its Context Its Purpose and Its Operation* This book has been completely updated and revised to reflect the dynamic states of higher education and academic libraries It presents a critical examination of major issues facing colleges and universities and the unique challenges that their libraries must come to grips with Current practice is reviewed but it is examined in the broader context of educational needs scholarly communication politics and economics technology and the nature of complex organizations Publisher's description [Mentoring Programs in ARL Libraries](#) Association of Research Libraries. Systems and Procedures Exchange Center, 1999

Knowledge into Action Danny P. Wallace, Connie J. Van Fleet, 2012-06-12 The only book currently available that comprehensively integrates research and evaluation for evidence based library and information science practice Numerous books cover research and evaluation in general but not within the context of library and information science Many others cover the field of library and information science overall but with little focus on research Knowledge into Action Research and Evaluation in Library and Information Science offers in a single volume an expert introduction to these two distinct yet deeply interrelated phases of information gathering as they are practiced in the information sciences Knowledge into Action takes readers through the core principles working processes and practical tools for conducting and evaluating research in library and information science enhancing the presentation with examples informational graphics study questions and exercises directly relevant to this field It is a welcomed resource for students and scholars who want to use appropriate techniques for gathering and assessing research as well as information professionals looking to improve services at their libraries or information centers The book is also designed to educate practitioners as consumers of the research and evaluation literature and as active participants in professional conferences meetings and workshops

Knowledge Management Danny P. Wallace, 2007-12-30 Knowledge management KM is frequently presented as a recent development born entirely of the business world However the intellectual origins of knowledge management are both deeper and broader than have been posited in the literature to date Influences of philosophy economics education psychology information and communication theory and library and information studies have been almost completely

overlooked This book links current and historical works to the development of knowledge management across domains and disciplines to give students and scholars a deeper appreciation of the origins of KM and a better understanding of its intellectual origins its concepts and principles Through his thorough and critical examination of historical and more recent classic works Wallace demystifies this important emerging area of study An essential and fascinating read for LIS faculty students and practitioners required reading for courses in Knowledge Management *LLA Bulletin* Louisiana Library Association,1993 *College & Research Libraries News* ,1993 **Annual Report** Wayne State University. Library System,1992 **The Academic Library** John Budd,1998 Examining the academic library within a contextual framework of colleges universities and American society this work provides analysis of the institution s content and function Rather than concentrating on management issues this book emphasizes the structure organization decision making and operations of academic libraries *Bibliographic Index* ,1994
