Serving To Learn Learning To Serve Civics And Service From A To Z:

Serving to Learn, Learning to Serve Cynthia Parsons, 1995-10 A major theme of education reform in the United States is that schools should prepare students to live in a democratic society To this end service learning is designed to encourage young people to become responsible caring citizens At present however service learning tends to be restricted to assigning students to community service projects In this book Cynthia Parsons argues that service learning should be regarded as part of not additional to school requirements She offers a range of alternative curriculum based examples of service learning to broaden the understanding and scope of this reform principle *Service Sociology and Academic Engagement in Social Problems* A. Javier Treviño, Karen M. McCormack, 2016-04-01 This book challenges sociologists and sociology students to think beyond the construction of social problems to tackle a central question What do sociologists do with the analytic tools and academic skills afforded by their discipline to respond to social problems Service Sociology posits that a central role of sociology is not simply to analyse and interpret social problems but to act in the world in an informed manner to ameliorate suffering and address the structural causes of these problems This volume provides a unique contribution to this approach to sociology exploring the intersection between its role as an academic discipline and its practice in the service of communities and people With both contemporary and historical analyses the book traces the legacy characteristics contours and goals of the sociology of service shedding light on its roots in early American sociology and its deep connections to activism before examining the social context that underlies the call for volunteerism community involvement and non profit organisations as well as the strategies that have promise in remedying contemporary social problems Presenting examples of concrete social problems from around the world including issues of democratic participation poverty and unemployment student involvement in microlending disaster mitigation the organization and leadership of social movements homelessness activism around HIV AIDS and service spring breaks *Service Sociology and Academic Engagement in Social Problems* explores the utility of public teaching participatory action research and service learning in the classroom as a contribution to the community **Creative**
