Daniel Callahan

Setting Limits Medical Goals In An Aging Society:

Setting Limits Daniel Callahan,1988 The author reexamines our medical and social policies concerning the aged and makes several cogent recommendations *Setting Limits* Daniel Callahan,1995-03-01 A provocative call to rethink America's values in health care *Setting Limits* Daniel Callahan,1995 Sparking controversy in medical social and professional circles the nation's most respected medical ethicist strikes at the heart of America's growing health care crisis the care of the aged The New York Times Book Review calls *Setting Limits* A pivotal work the benchmark for future moral medical and policy discussions of aging **The Encyclopedia of Aging** Richard Schulz,2006 Print CourseSmart **Old Age and the Search for Security** Carole Haber,Brian Gratton,1993-12-22 Haber and Gratton lay to rest many conventional assumptions concerning the place of older persons in American history Choice Haber and Gratton's meaty little book does more than provide an intelligent synthesis of existing old age history its new interpretations insights and shifts of emphasis will provoke responses and help move historians work away from the now threadbare original disputes in the field toward new questions and approaches American Historical Review Indeed Haber and Gratton give us a refreshingly multidimensional history of the shift in old age security from work assets or children to government annuities Contemporary Sociology the history of old age has finally come of age The authors successfully synthesize the best of the earlier social and cultural studies with new empirical evidence and recent findings of economic historians Journal of Economic History A truly revisionary interpretation of the cultural and structural forces that shaped the elderly's lives from the colonial period to the present Lucid and controversial it is bound to be widely cited and hotly contested W Andrew Achenbaum This social history of the American elderly offers a provocative new view of aging in the United States It revises traditional assumptions about the economic status of the old and challenges the long held contention that industrialization destroyed family relationships **Health Care for an Aging Population** Chris Hackler,1994-07-28 This volume examines one of the most important policy issues to be faced as policymakers address both current and future health care needs the allocation of health care resources for an aging population The first part looks at the role of the aged in society what justice requires of the young toward the old and of the old toward the young the source of rising health care costs and the need to control medical spending The second part focuses on dramatic and controversial proposals by Daniel Callahan and others to control medical spending in the next century by rationing life prolonging treatment according to age Concluding chapters provide concrete proposals for a system that solves our immediate problems of cost and access while preparing for the extraordinary needs of an aging population This book explores proposed changes in the U S health care system to meet unprecedented demand expected early in the next century when the baby boom generation reaches retirement age and eligibility for Medicare A focal point is the possibility of withholding publicly funded life prolonging medical care from the very old **Ethics, Health Policy and (Anti-) Aging: Mixed Blessings** Maartje Schermer,Wim Pinxten,2014-07-08 This volume focuses on the ethical and

philosophical issues that arise in an aging society and the implications of these issues for healthcare and social policy After a brief overview of biomedicine s changing approach of ageing and longevity and of the new expectations that these changes generate various ethical social and policy issues that surround aging and longevity are discussed First the images and social meanings of aging and old age in our society are explored including their normative dimensions and implications for policy Next ethical issues in the care for frail elderly are discussed as well as notion of good care and end of life decisions Finally the ethical and social implications of emerging possibilities for anti aging and lifespan extension are considered The book concludes with an overview of the relevance of the issues discussed for policy making on professional national and international levels

Aging Harry R. Moody,2006-01-13 Welcome to the world s most unique and dynamic textbook on aging Widely praised and adopted in previous editions the Fifth Edition of Aging once again presents key issues in an engaging and accessible fashion Organized unlike any other traditional textbook author Harry R Moody presents basic concepts followed by controversies supported by carefully chosen adapted readings The result is the most captivating introduction to gerontology available today

Aging: Culture, Health, and Social Change David N. Weisstub,David C. Thomasma,S. Gauthier,G.F. Tomossy,2013-06-29 Culture Health and Social Change is the first of three volumes on Aging conceived for the International Library of Ethics Law and the New Medicine Leading scholars from a range of disciplines contest some of the predominant paradigms on aging and critically assess modern trends in social health policy How we approach and understand aging will have indelible effects on existing and future elder citizens Acknowledging the cultural variances that exist in the human experience of aging is therefore of vital importance in order to respond to individual needs in a manner that is not paternalistic discriminatory or exclusionary

Aging in Hong Kong Jean Woo,2012-09-06 With the longest life expectancy for men and the second longest for women Hong Kong typifies our planet s aging population The daily lives of its older adults closely match the advantages and disadvantages experienced by urban elders in other developed countries For these reasons Hong Kong s elderly serve as a salient guide to older people s social psychological and healthcare needs concerns of increasing importance as the world grows older Aging in Hong Kong examines this emblematic population as a case study specifically in comparison with their counterparts in the West shedding light on diverse interrelated currents in the aging experience Referencing numerous international studies the book contrasts different health service arrangements and social factors and relates them to a variety of health outcomes Its wide ranging coverage documents health and illness trends reviews age friendly policy initiatives relates health literacy to patients active role in their own care and discusses elders as an underserved group in the division of limited health funding and resources This multiple focus draws readers attention to policies that need revisiting or retooling as chapters analyze major life areas including Living environment Retirement and post retirement employment issues Financial asset management Health literacy regarding aging issues Elder positive service delivery models Ageism in the prioritization of healthcare End of life

issues By assembling such a wealth of data on its subject Aging in Hong Kong puts ongoing challenges into clear focus for gerontologists sociologists health and cross cultural psychologists public health policymakers and others involved in improving the quality of elders lives
