A Trauma-Informed Understanding of Online Offending Glyn Hudson-Allez, 2023-11-09 This book examines the contemporary one size fits all model of treatment for sexual offenders and challenges the confrontational approach to working with this group. In recent years the incidence of people predominantly men getting arrested for inappropriate online usage has increased exponentially. This book attempts to understand why this is the case and what can be done to help these individuals and in turn reduce the risk of them re-offending. A stand alone follow up text from Hudson-Allez's popular *Infant Losses*. *Adult Searches* this book carries forward the compelling case study of Gordon from the previous text. Throughout his journey from arrest to rehabilitation the chapters provide insight into the relationship between internet offending and dysfunctional attachments and neurodiversity. Our current understandings of childhood trauma, transgenerational transmission and diagnoses of autism spectrum disorder and ADHD are all investigated in relation to cases of online offenders and practical therapeutic models are presented. This book is relevant to psychologists, psychotherapists, counsellors and therapists working with forensic clients and probation officers, social workers and police officers working within child protection agencies.

A Practitioner's Guide to Working with Sexual Offenders, Families, and Victims Glyn Hudson-Allez, 2025-05-23 This unique text aims to cover the many variations of presentations that a mental health professional needs to address in order to conduct effective work with sex offenders and alleged offenders, their victims as well as their families and children. The book is divided into three sections. It commences with an overview of the criminal justice process and its ramifications not just for the alleged offender but also for the wider family and friends who may feel totally out of control over what is happening in their lives as well as for the victim. It also covers the secondary victimisation of the children of alleged offenders. The next section is designed to take some of the fear out of working with these clients, looking at unexpected specific issues that may be presented with these clients, how to address the client's trauma history and how to support them on their journey through the criminal justice system. Chapters include working with non-offending partners within minority groups like those within the neurodivergent or LGBTQIA communities, with women who commit offences as well as with children and adolescents. Section three covers some of the therapeutic ethical dilemmas within this work including supervision, confidentiality, safeguarding and disclosure. Each chapter in the book is written by an experienced hands-on therapist giving voice and humanity to their clients. This book is designed for all the mental health workers who find the ubiquitous issue of sexual abuse in all its forms coming through their office door.
