Freedman, 2006 One of a small group of feminist pioneers in the historical profession Estelle B Freedman teaches and writes about women's history with a passion informed by her feminist values Over the past thirty years she has produced a body of work in which scholars

Women's Human Rights Susan Deller Ross, 2013-10-09 According to Susan Deller Ross many human rights advocates still do not see women's rights as human rights Yet women in many countries suffer from laws practices customs and cultural and religious norms that consign them to a deeply inferior status Advocates might conceive of human rights as involving torture extrajudicial killings or cruel and degrading treatment all clearly in violation of international human rights and think those issues irrelevant to women Yet is female genital mutilation practiced on millions of young girls and even infants not a gross violation of human rights When a family decides to murder a daughter in the name of honor is that not an extrajudicial killing When a husband rapes or savagely beats his wife knowing the legal authorities will take no action on her behalf is that not cruel and degrading treatment Women's Human Rights is the first human rights casebook to focus specifically on women's human rights Rich with interdisciplinary material the book advances the study of the deprivation and violence women suffer due to discriminatory laws religions and customs that deny them their most fundamental freedoms It also provides present and future lawyers the legal tools for change demonstrating how human rights treaties can be used to obtain new laws and court decisions that protect women against discrimination with respect to employment land ownership inheritance subordination in marriage domestic violence female genital mutilation polygamy child marriage and the denial of reproductive rights Ross examines international and regional human rights treaties in depth including treaty language and the jurisprudence and general interpretive guidelines developed by human rights bodies By studying how international human rights law has been and can be implemented at the domestic level through local courts

and legislatures readers will understand how to call upon these newly articulated human rights to help bring about legislation court decisions and executive action that protect women from human rights violations

No Turning Back

Estelle Freedman, 2007-12-18 Repeatedly declared dead by the media the women's movement has never been as vibrant as it is today Indeed as Stanford professor and award winning author Estelle B Freedman argues in her compelling new book feminism has reached a critical momentum from which there is no turning back A truly global movement as vital and dynamic in the developing world as it is in the West feminism has helped women achieve authority in politics sports and business and has mobilized public concern for once taboo issues like rape domestic violence and breast cancer And yet much work remains before women attain real equality In this fascinating book Freedman examines the historical forces that have fueled the feminist movement over the past two hundred years and explores how women today are looking to feminism for new approaches to issues of work family sexuality and creativity Freedman begins with an incisive analysis of what feminism means and why it took root in western Europe and the United States at the end of the eighteenth century The rationalist humanistic philosophy of the Enlightenment which ignited the American Revolution also sparked feminist politics inspiring such pioneers as Mary Wollstonecraft and Susan B Anthony Race has always been as important as gender in defining feminism and Freedman traces the intricate ties between women's rights and abolitionism in the United States in the years before the Civil War and the long tradition of radical women of color stretching back to the impassioned rhetoric of Sojourner Truth As industrialism and democratic politics spread after World War II feminist politics gained momentum and sophistication throughout the world Their impact began to be felt in every aspect of society from the workplace to the chambers of government to relations between the sexes Because of feminism Freedman points out the line between the personal and the political has blurred or disappeared and issues once considered merely private abortion sexual violence homosexuality reproductive health beauty and body image have entered the public arena as subjects of fierce ongoing debate Freedman combines a scholar's meticulous research with a social critic's keen eye Sweeping in scope searching in its analysis global in its perspective No Turning Back will stand as a defining text in one of the most important social movements of all time
