Wachowski is a development of cyberpunk On the one hand The Matrix shares many basic ideas typical features and motifs with cyberpunk as we know it from the works of William Gibson Bruce Sterling and other cyberpunk writers of the 1980s But on the other hand The Matrix s cyberpunk also differs very much from other cyberpunk works It not only differs in many cases The Matrix pushes ideas and motifs of cyberpunk further taking them to another level In this paper I will analyze themes topics and motifs of cyberpunk in The Matrix the way they are used and most important the purpose behind cyberpunk in the film I will look at how and for what effect cyberpunk is used in The Matrix In the introduction to his cyberpunk anthology Mirrorshades Bruce Sterling writes that central themes of cyberpunk are the theme of body invasion prosthetic limbs implanted circuitry cosmetic surgery generic alteration and the theme of mind invasion brain computer interfaces artificial intelligence 1 Sterling writes about literature but it makes sense to use his characteristics of cyberpunk in this paper because The Matrix is a work of literature 2 has careful attention to symbolic detail throughout the movie and the script went through seventeen rewrites 3 The themes topics and motifs I will examine in the film are cyber system and punk computer brain interface the use of mirrors and mirrorshades and rain I will look at the film s dystopian setting and analyze the topic of technophobia which is one of the effects of the technological dystopia Writing about cyberpunk it is useful to have a look at the term itself so the following two quotations should provide a definition or at least an explanation of the concept of cyberpunk 1 Bruce Sterling Preface Mirrorshades The Cyberpunk Anthology Bruce Sterling ed Paladin Grafton Books 1986 repr Glasgow 1990 p xi 2 Mark Crosby Reflections Upon The Matrix Film Philosophy 3 31 1999 24 February 2003 <http://www.filmphilosophy.com/vol3/1999/n31crosby> 3 Steve Kellmeyer The New Gnostic Gospel 24 February 2003 [http://www.envoymagazine.com/backissues/4\\_5/coverstory.html](http://www.envoymagazine.com/backissues/4_5/coverstory.html) 4 5 *Routledge Encyclopedia of Narrative Theory* David Herman, Manfred Jahn, Marie-Laure Ryan, 2010-06-10 The past several decades have seen an explosion of interest in narrative with this multifaceted object of inquiry becoming a central concern in a wide range of disciplinary fields and research contexts As accounts of what happened to particular people in particular circumstances and with specific consequences stories have come to be viewed as a basic human strategy for coming to terms with time process and change However the very predominance of narrative as a focus of interest across multiple disciplines makes it imperative for scholars teachers and students to have access to a comprehensive reference resource 5 *Science Fiction Literature through History* Gary Westfahl, 2021-07-19 This book provides students and other interested readers with a comprehensive survey of science fiction history and numerous essays addressing major science fiction topics authors works and subgenres written by a distinguished scholar This encyclopedia deals with written science fiction in all of its forms not only novels and short stories but also mediums often ignored in other reference books such as plays poems comic books and graphic novels Some science fiction films television programs and video games are also mentioned particularly when they are relevant to written texts Its focus is on science fiction in the English language though due attention is given to international authors whose works have been
