Finance: Boost Your Financial Literacy as All Schools Have Failed to Do Jerry L. Copley, 2023-06-13 As a former mathematics teacher and a master's degree recipient, I have witnessed a decline in basic mathematical abilities and financial literacy over the past twenty years. It is disheartening to witness the anxieties people struggle with in their everyday lives, especially when due to reliance on credit prompted me to do something. I decided to write a book to break down even complex financial concepts into understandable terms. Over the years, I have talked with business owners, bank mortgage lenders, sales professionals, finance managers, and college and high school students along with coworkers about the many financial topics individuals encounter throughout their lives. To be honest, I was somewhat surprised by the lack of understanding around basic financial concepts like budgeting, compensation, and remuneration, insurance, credit, investments, and even taxation. Education has always been an integral part of my life. I believe in the total education of the individual, not just subject matter expertise. An education that can last throughout a lifetime is complex yet simple, timeless yet timely, and most importantly, it builds a foundation that is needed for ultimate success. This book, **Real World Finance: Boost Your Financial Literacy as All Schools Have Failed to Do**, builds the financial education that seems to be missing from society today. It details financial concepts necessary to guide the individual through a lifetime of experiences and endeavors. The financial topics include budgets, credit, insurance, investments, retirement, and worker compensation with fringe benefits and taxes, all tailored to an individual's personal financial life. As a former tax associate, I have assisted hundreds with their tax returns. In too many cases, individuals did not know how to fill out complete and/or file their required tax return. Some didn't even know what their W-2 was. I have become determined to increase their financial literacy as I did with the thousands of students I taught. **Real World Finance: Boost Your Financial Literacy as All Schools Have Failed to Do** explains topics using real-world examples from employee compensation and lease versus purchase to loans, insurance, retirement, and the importance of investment to taxation. Employing this method breaks down any intimidation of mathematics encountered by many of my

former students and the general population while teaching necessary financial concepts and calculations needed for everyday living purchasing a car buying insurance setting up a budget comparing total compensation from various job opportunities retirement and investing filing tax returns comparing leasing renting versus ownership and more A Walmart employee I recently spoke with told me he had to learn many of these concepts for himself after suffering financial hardship He wished he would have been introduced to these concepts in school When I informed him I had taught many of the topics contained in Real World Finance Boost Your Financial Literacy as All Schools Have Failed to Do to my students he responded I wish I had you as a teacher I want to help more people like the Walmart employee and others I sincerely think they will not only benefit from the topics they will find them interesting and the narrative informative Thank you in advance for taking the time to look at Real World Finance Boost Your Financial Literacy as All Schools Have Failed to Do **Common Cents** Gerry Bailey, Felicia Law, 2006 This book looks at what exactly IS money and what are its functions **Joyful Wealth** Ryan Bondy, 2020-01-30 Is your life where you thought it would be by now Do you feel that there is more to life than just chasing paycheque after paycheque but simply haven't had time to figure out what It's time to make a change Grab your notepad a good pen and your favourite cup of joe and get ready to journey through the chapters of this book and to create the future of your greatest desires Designed as an interactive storytelling blueprint Joyful Wealth is a life changing read Learn how a kid from a small town in Canada was able to overcome extreme circumstances only to create a life that has been incredibly rewarding and amazingly joyful From personal battles to financial struggles from relationships to spirituality take a voyage with Ryan as he walks you through these pages and their accompanying exercises to expand your mind challenging the way you think and change your life Life is not fair If you let it it will wear you down and leave you feeling empty and lost Today is the perfect day for you to take control of your future You owe it to yourself to see how a small town boy created an empire of joyful wealth and how you can put more in your account as well The time is now do not delay The greatest opportunity for you to change your entire world is in your hands **Tell Me Something About Yourself** Mohanvel Jayachandran, 2022-04-04 MY CAREER IS MY CHOICE For a student to confidently admit my career is my choice takes a lot of collaborative effort from the parents teachers community and the student Many a times parents pray for their children to get into a good career in life ignoring the fact that it is a serious internal engineering and requires guidance Schools dole out loads of theory and provide less environment for experiential learning for the students to understand their real strengths and weaknesses That is why most students go back to parents and teachers and ask them what college degree they should pursue after completing 12 years of school life Many experts tell the students about the available courses in the market the available colleges in the region and a lot more details to help the students locate good courses and colleges Whether this helps the student or not depends upon the student's understanding of his/her career as a concept TELL ME SOMETHING ABOUT YOURSELF will trigger questions in the minds of the student and will trigger conversations in the family to discuss about the career of the

children It will help the students to understand various dimensions of and gain an idea regarding multiple concepts that they had not been able to grasp while in school college Ultimately it is an effort to facilitate students to build a concept for their careers
