Holy Monsters, Sacred Grotesques Michael E. Heyes, 2018-08-10 Holy Monsters Sacred Grotesques examines the intersection of religion and monstrosity in a variety of different time periods in the hopes of addressing two gaps in scholarship within the field of monster studies The first part of the volume running from the medieval to the Early Modern period focuses upon the view of the monster through non majority voices and accounts from those who were themselves branded as monsters Overlapping partially with the Early Modern and proceeding to the present day the contributions of the second part of the volume attempt to problematize the dichotomy of secular religious through a close look at the monsters this period has wrought

All Around Monstrous: Monster Media in Their Historical Contexts Verena Bernardi, Frank Jacob, 2019-10-31 We know all kinds of monsters Vampires who suck human blood werewolves who harass tourists in London or Paris zombies who long to feast on our brains or Godzilla who is famous in and outside of Japan for destroying whole cities at once Regardless of their monstrosity all of these creatures are figments of the human mind and as real as they may seem monsters are and always have been constructed by human beings In other words they are imagined How they are imagined however depends on many different aspects and changes throughout history The

present volume provides an insight into the construction of monstrosity in different kinds of media including literature film and TV series It will show how and by whom monsters are really created how time changes the perception of monsters and what characterizes specific monstrosities in their specific historical contexts The book will provide valuable insights for scholars in different fields whose interest focuses on either media studies or history Monster Jokes Joe King, 2023-08-01

Heyes, 2019-12-06 St Margaret of Antioch was one of the most popular saints in medieval England and throughout the Middle Ages the various Lives of St Margaret functioned as a blueprint for a virginal life and supernatural assistance to pregnant women during the dangerous process of labor In her narrative Margaret is accosted by various demons and having defeated each monster in turn she is taken to the place of her martyrdom where she prays for supernatural boons for her adherents This book argues that Margaret's monsters are a key element in understanding Margaret's importance to her adherents specifically how the sexual identities of her adherents were constructed and maintained More broadly this study offers three major contributions to the field of medieval studies first it argues for the utility of a diachronic analysis of Saints Lives literature in a field dominated by synchronic analyses second this diachronic analysis is important to interpreting the intertext of Saints Lives not only between different Lives but also different versions of the same Life and third the approach further suggests that the most valuable socio cultural information in hagiographic literature is found in the auxiliary

characters and not in the figure of the saint him herself **Monster in the Park** Amanda Huneke,2013-01-01 Muddy prints trail down the soccer field and over the tennis court They re stamped down the sidewalk and circle around the park So great is the mess So large are the marks I fear there must be a monster in the park Aligned to Common Core Standards and correlated to state standards Looking Glass Library is an imprint of Magic Wagon a division of ABDO *Field Guide to Lake Monsters, Sea Serpents, and Other Mystery Denizens of the Deep* Loren Coleman,2003-10-27 From the serpentine Champie of Lake Champlain to the venerable Nessie of Loch Ness extraordinary and un explained creatures of the deep have been reported in sightings throughout the twentieth century Now two of the world s leading cryptozoological investigators provide a globetrotting field guide to when where and what kind of mysterious aquatic beasts have gripped the public and sometimes the scientific imagination Filled with comprehensive drawings classifications and maps their book offers an invaluable and unusual resource for the intrepidly curious to investigate these sightings firsthand or to simply enjoy the fascinating accounts that others have given **Make a Pet Monster Your Way!** Elsie Olson,2020-08-01 If you could construct a pet monster what would it be A dog with two heads A rabbit with spider legs With Make a Pet Monster Your Way young makers will use the makerspace tools to learn how to get inspired problem solve and collaborate with others as they create their pet monster Colorful images and engaging sidebars along with guiding prompts and advice will help Super Sandcastle is an imprint of Abdo Publishing a division of ABDO Maps and Monsters in Medieval England Asa Simon Mittman,2013-09-13 This study centers on issues of marginality and monstrosity in medieval England In the middle ages geography was viewed as divinely ordered so Britain s location at the periphery of the inhabitable world caused anxiety among its inhabitants Far from the world s holy center the geographic margins were considered monstrous Medieval geography for centuries scorned as crude is now the subject of several careful studies Monsters have likewise been the subject of recent attention in the growing field of monster studies though few works situate these creatures firmly in their specific historical contexts This book sits at the crossroads of these two discourses geography and monstrosity treated separately in the established scholarship but inseparable in the minds of medieval authors and artists *The Metaphor of the Monster* Keith Moser,Karina Zelaya,2020-10-15 The Metaphor of the Monster offers fresh perspectives and a variety of disciplinary approaches to the ever broadening field of monster studies The eclectic group of contributors to this volume represents areas of study not generally considered under the purview of monster studies including world literature classical studies philosophy ecocriticism animal ethics and gender studies Combining historical overviews with contemporary and global outlooks this volume recontextualizes the monstrous entities that have always haunted the human imagination in the age of the Anthropocene It also invites reflection on new forms of monstrosity in an era epitomized by an unprecedented deluge of mis information Uniting researchers from varied academic backgrounds in a common effort to challenge the monstrous labels that have historically been imposed upon the Other this book endeavors above all to bring the monster out of the shadows and into the

light of moral consideration
