Oradour Massacre And After:

The Hidden Histories of War Crimes Trials Kevin Heller, Gerry Simpson, 2013-10-31 This is an open access title available under the terms of a CC BY NC ND 3.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. Several instances of war crimes trials are familiar to all scholars but in order to advance understanding of the development of international criminal law it is important to provide a full range of evidence from less familiar trials. This book therefore provides an essential resource for a more comprehensive overview uncovering and exploring some of the lesser known war crimes trials that have taken place in a variety of contexts international and domestic northern and southern historic and contemporary. It analyses these trials with a view to recognising institutional innovations clarifying doctrinal debates and identifying their general relevance to contemporary international criminal law. At the same time the book recognises international criminal law's history of suppression or sublimation. What stories has the discipline refused to tell? What stories have been displaced by the ones it has told? Has international criminal law's framing or telling of these stories excluded other possibilities? And perhaps most important of all how can recovering the lost stories and imagining new narrative forms reconfigure the discipline? Many of the trials examined in this book have hardly ever before been discussed others have been examined only in the most cursory manner. Indeed until now no volume has been dedicated to telling the story of these trials that have yet to find a place in the international criminal law canon. Providing a detailed analysis of these trials which took place in Europe Africa South America and Australasia in both historical and contemporary contexts this book is essential reading for anyone concerned with the development of international criminal law.

Dark Tourism and Crime Derek Dalton, 2014-11-20 Dark tourism has become widespread and diverse. It has passed into popular culture vernacular deployed in guide books as a short hand descriptor for sites that are associated with death suffering and trauma. However whilst books have been devoted to dark tourism as a general topic no single text has sought to explore dark tourism in spaces where crime mass murder genocide State sanctioned torture and violence has occurred as an organising theme. *Dark Tourism and Crime* explores the socio cultural contours of this unique type of tourism and explains why spaces places where crime has occurred fascinate and attract tourists. The book is marked by an ethics of respect for the suffering a place has experienced and an imperative to learn something tangible about the history and legacy of that suffering. Based on empirical ethnographic research it takes the reader from the remnants of Auschwitz concentration camp to the tranquil Australian island of Tasmania to explore precisely what things a dark tourist might encounter architecture art installations gardens memorials physical traces of crime and how these things invoke and evoke past crimes. This volume furthers understanding of dark tourism and will be of interest to students researchers and academics of criminology tourism and cultural studies.
