Organists And Organ Playing In Nineteenth Century France And Belgium:

Organists and Organ Playing in Nineteenth-Century France and Belgium Orpha Ochse, 2000-08-22 The art of the organist in nineteenth century France and Belgium is a rags to riches story full of extraordinary problems and changes Devastated by the French Revolution the organ profession rose from desperate circumstances to a period of remarkable brilliance By the end of the nineteenth century organ playing was enthusiastically applauded and had been thoroughly integrated in the musical life of Paris This account is not just a record of stellar events and famous names it includes failures all but forgotten musicians and unexpected encounters In a carefully documented study that is both scholarly and engaging Orpha Ochse traces three major aspects of the organist's art the development of the secular recital the organist as church musician and the education of organists In addition to presenting a comprehensive view of the organ profession in France and Belgium throughout the period she offers a new perspective on nineteenth century music in general **The Organ** Douglas

Bush, Richard Kassel, 2004-06 The Encyclopedia of Organ includes articles on the organ family of instruments including famous players composers instrument builders the construction of the instruments and related terminology It is the first complete A Z reference on this important family of keyboard instruments The contributors include major scholars of music and musical instrument history from around the world **Selected organ works** Dudley Buck, 2008-01-01 One of Victorian America's most beloved and respected composers Dudley Buck played a crucial role in the coming of age of American music following the Civil War This volume of his most popular organ works is the first scholarly edition of these pieces A conductor organist and teacher Buck was the first American to write professional accessible and popular organ music as well as a wealth of choral music including anthems cantatas and partsongs See also MU 14 for a selection of these works N Lee Orr's careful authoritative edition presents Buck's two organ sonatas and four concert variations introduced by an informative essay on Buck's life and the development of American organs and organ music **French Music Since Berlioz** Richard

Langham Smith, Caroline Potter, 2017-07-05 French Music Since Berlioz explores key developments in French classical music during the nineteenth and twentieth centuries This volume draws on the expertise of a range of French music scholars who provide their own perspectives on particular aspects of the subject D dre Donnellon's introduction discusses important issues and debates in French classical music of the period highlights key figures and institutions and provides a context for the chapters that follow The first two of these are concerned with opera in the nineteenth and twentieth centuries respectively addressed by Thomas Cooper for the nineteenth century and Richard Langham Smith for the twentieth Timothy Jones's chapter follows which assesses the French contribution to those most Germanic of genres nineteenth century chamber music and symphonies The quintessentially French tradition of the nineteenth century salon is the subject of James Ross's chapter while the more sacred setting of Paris's most musically significant churches and the contribution of their organists is the focus of Nigel Simeone's essay The transition from the nineteenth to the twentieth century is explored by Roy Howat through

a detailed look at four leading figures of this time Faur Chabrier Debussy and Ravel Robert Orledge follows with a later group of composers Satie Les Six and examines the role of the media in promoting French music The 1930s and in particular the composers associated with Jeune France are discussed by Deborah Mawer while Caroline Potter investigates Parisian musical life during the Second World War The book closes with two chapters that bring us to the present day Peter O Hagan surveys the enormous contribution to French music of Pierre Boulez and Caroline Potter examines trends since 1945 Aimed at teachers and students of French music history as well as performers and the inquisitive concert and opera goer French Music Since Berlioz is an essential companion for an

Maurice Duruflé James E. Frazier, 2007 Drawing on the accounts of those who knew Durufl personally as well as on Frazier's own detailed research this new biography offers a broad sketch of this modest and elusive man widely recognized today for having created some of the greatest works in the organ repertoire and the masterful Requiem Frazier also examines the career and contributions of Durufl's wife the formidable organist Marie Madeleine Durufl Chevalier

American Victorian Choral Music Dudley Buck, 2005-01-01 This MUSA volume makes an important contribution to American music studies by presenting a scholarly edition of selected choral works by Dudley Buck 1839-1909 Buck was arguably the finest composer of choral music among the group of musicians who had come of age by the end of the Civil War The works chosen for this volume some of which became icons of American Victorian culture represent the three most popular choral genres during the Guilded Age the anthem the sacred and secular cantata and the partsong All of the works included here found immediate publication and stayed in print well into the twentieth century Buck's works became the standards not only by their intrinsic merit but owing to their widespread performance throughout the country His services canticles anthems and hymns musically engaging well crafted and often genuinely moving were considerably more professional than the homegrown music in use when he began his work Included here are three works a hymn anthem Rock of Ages a liturgical text Festival Te Deum No 7 in E flat and a late through composed work Grant to Us Thy Grace Buck's sacred and secular cantatas along with his partsongs also enjoyed widespread success among the growing number of church choirs and community choral groups The two partsongs come from his earliest and latest periods In Absence represents the early Victorian partsong and the second The Signal Resounds from Afar is both Buck's longest partsong and the one showing the greatest contrapuntal complexity Both The Centennial Meditation of Columbia written for the 1876 Centennial Exhibition and the Forty Sixth Psalm from 1872 are in full score and typify some of the finest cantata writing in Victorian America

J.S. Bach's Great Eighteen Organ Chorales Russell Stinson, 2001-02-15 On the 250th anniversary of the composer's death this volume offers an in depth look at the Great Eighteen organ chorales among the most celebrated works for organ and a milestone in the history of the chorale Addressed to organists scholars and general listeners alike this lucid and engaging book examines the music from a wide spectrum of historical and analytical perspectives Stinson examines the models used by Bach in conceiving the original pieces his subsequent compilation of these works into a collection and his

compositional process as preserved by the autograph manuscript Himself an accomplished organist Stinson also considers various issues of performance practice and concludes with a discussion of the music's reception its dissemination in manuscript and printed form its performance history and its influence on later composers Completely up to date and presenting a wealth of new material much of it translated into English for the first time this study will open up fresh perspectives on some of the composer's greatest creations **Gabriel Faure** Edward R. Phillips, 2011-04-14 First published in 2011 this research study includes a biography section as well as the works of Gabriel Urbain Faur born on 12 May 1845 Much of Faur's music especially the late pieces remain little played and little known as a result his reputation as a salon composer of pleasant music continues even among educated musicians The author suggests that it is more likely that the difficulty of much of Faur's music for the listener and the demands it places upon him or her are the principal reasons for its omission from concert programs and for a misunderstanding of Faur's place in the history of French music Distributed Creativity Eric F. Clarke, Mark Doffman, 2017-12-13 Creative practice in music takes place in a distributed and interactive manner embracing the activities of composers performers and improvisers The thirteen chapters and twelve shorter Interventions of Distributed Creativity explore the ways in which collaboration and improvisation enable and constrain creative processes in contemporary music *Stories of Tonality in the Age of François-Joseph Fétis* Thomas Christensen, 2019-05-27 Stories of Tonality in the Age of François Joseph Fétis explores the concept of musical tonality through the writings of the Belgian musicologist François Joseph Fétis 1784-1867 who was singularly responsible for theorizing and popularizing the term in the nineteenth century Thomas Christensen weaves a rich story in which tonality emerges as a theoretical construct born of anxiety and alterity for Europeans during this time as they learned more about other musics and alternative tonal systems Tonality became a central vortex in which French musicians thought and argued about a variety of musical repertoires be they contemporary European musics of the stage concert hall or church folk songs from the provinces microtonal scale systems of Arabic and Indian music or the medieval and Renaissance music whose notational traces were just beginning to be deciphered by scholars Fétis's influential writings offer insight into how tonality ingrained itself within nineteenth century music discourse and why it has continued to resonate with uncanny prescience throughout the musical upheavals of the twentieth and twenty first centuries The Organ Douglas Earl Bush, Richard Kassel, 2006 Organ Volume 3 of the Encyclopedia of Keyboard Instruments includes articles on the organ family of instruments including famous players composers instrument builders the construction of the instruments and related terminology It is the first complete reference on this important family of keyboard instruments that predated the piano The contributors include major scholars of music and musical instruments from around the world *Camille Saint-Saëns and His World* Jann Pasler, 2021-07-13 A revealing look at French composer and virtuoso Camille Saint-Saëns Camille Saint-Saëns perhaps the foremost French musical figure of the late nineteenth century and a composer who wrote in nearly every musical

genre from opera and the symphony to film music is now being rediscovered after a century of modernism overshadowed his earlier importance In a wide ranging and trenchant series of essays articles and documents Camille Saint Sa ns and His World deconstructs the multiple realities behind the man and his music Topics range from intimate glimpses of the private and playful Saint Sa ns to the composer s interest in astronomy and republican politics his performances of Mozart and Rameau over eight decades and his extensive travels around the world This collection also analyzes the role he played in various musical societies and his complicated relationship with such composers as Liszt Massenet Wagner and Ravel Featuring the best contemporary scholarship on this crucial formative period in French music Camille Saint Sa ns and His World restores the composer to his vital role as innovator and curator of Western music The contributors are Byron Adams Leon Botstein Jean Christophe Branger Michel Duchesneau Katharine Ellis Annegret Fauser Yves G rard Dana Gooley Carolyn Guzski Carol Hess D Kern Holoman L o Houziaux Florence Launay St phane Leteur Martin Marks Mitchell Morris Jann Pasler William Peterson Michael Puri Sabina Teller Ratner Laure Schnapper Marie Gabrielle Soret Michael Stegemann and Michael Strasser

Playing the Organ Works of César Franck Rollin Smith,1997 A companion to the author s *Toward and Authentic Interpretation of the Organ Works of C sar Franck* this title applies the sources discussed in that volume in its practical approach to performance Each of Franck s twelve major organ works is discussed in detail the manuscript the work s history and association with Franck and his circle published editions corrections to the 1959 Durand edition and recorded performances Technical problems are discussed and solutions provided A glossary of terms found in Franck s organ works is provided with English translation Franck s often confusing registration indications are translated and explained performance of each work is discussed in light of the information provided by Franck s own pupils their students and contemporaries A bibliography of Franck literature published from 1983 to 1996 is also included

Mendelssohn and the Organ Wm. A. Little,2010-07-01 Mendelssohn and the Organ is the first comprehensive historical critical study in any language to examine the role of the organ in Mendelssohn s personal and professional career It examines his entire oeuvre for the instrument including the Berlin Krakow manuscripts and presents for the first time Mendelssohn s complete correspondence with his English publisher Charles Coventry

French Masters of the Organ Michael Murray,1998-01-01 This study draws portraits of the French romantic organist composers including Aristide Cavaille Coll Cesar Franck Charles Marie Widor Louis Vierne Marcel Dupre Jean Langlais and Olivier Messiaen The author details the lives times styles and techniques of these composers

Joseph Jongen and His Organ Music John Scott Whiteley,1997 Joseph Jongen was Director of the Brussels Conservatoire from 1925 to 1939 He was first and foremost a composer and yet his career as an organist and composer of organ music was remarkable His Sonata Ero ca has become one of the enduring works of the repertory and the Symphonie Concertante commissioned by Rodman Wanamaker for the organ of the Philadelphia store has been considered the finest of all twentieth century organ concertos This is the first book ever to appear about Joseph Jongen in any language It is based on

twenty years of research by its author John Scott Whiteley Part I traces Jongen's life and achievements as an organist from his earliest training in Franck's birthplace Liège to his exile in England and his final years in Brussels during which time he headed the team that designed the organ for Belgian Radio Part II is a guide to the organ music from the points of view of both performer and musicologist Appendices provide a catalogue of works a numbering system for his works without opus numbers specifications of the organs he played and lists of variant readings in his manuscripts This book is indispensable for serious students of the organ the Romantic organ repertoire and European music of the early twentieth century

Chasing Chopin Annik LaFarge, 2021-08-10 The Frédéric Chopin Annik LaFarge presents here is not the melancholy sickly romantic figure so often portrayed The artist she discovered is instead a purely independent spirit an innovator who created a new musical language an autodidact who became a spiritually generous trailblazing teacher a stalwart patriot during a time of revolution and exile In *Chasing Chopin* she follows in his footsteps during the three years 1837-1840 when he composed his iconic Funeral March dum dum da dum using its composition story to illuminate the key themes of his life a deep attachment to his Polish homeland his complex relationship with writer George Sand their harrowing but consequential sojourn on Majorca the rapidly developing technology of the piano which enabled his unique tone and voice social and political revolution in 1830s Paris friendship with other artists from the famous Eugène Delacroix to the lesser known yet notorious in his time Marquis de Custine Each of these threads musical political social personal is woven through the Funeral March in Chopin's Opus 35 sonata a melody so famous it's known around the world even to people who know nothing about classical music But it is not as LaFarge discovered the piece of music we think we know As part of her research into Chopin's world then and now LaFarge visited piano makers monuments churches and archives she talked to scholars jazz musicians video game makers software developers music teachers theater directors and of course dozens of pianists The result is extraordinary an engrossing page turning work of musical discovery and an artful portrayal of a man whose work and life continue to inspire artists and cultural innovators in astonishing ways

J. S. Bach at His Royal Instrument Russell Stinson, 2012 In *J. S. Bach at His Royal Instrument* author Russell Stinson delves into various unexplored aspects of the organ works of Johann Sebastian Bach Drawing on previous research and new archival sources he sheds light on many of the most mysterious aspects of these masterpieces and their reception and shows how they have remained a fixture of Western culture for nearly three hundred years

César Franck R. J. Stove, 2012 César Franck 1822-1890 was one of the most remarkable composers of the 19th century and yet 38 years have elapsed since a biography of him last appeared in English Now with *César Franck His Life and Times* R. J. Stove fills this critical gap in the history of late 19th c

Women, Science and Sound in Nineteenth-century France Ingrid Sykes, 2007 This book deals with the substantial role performed by women in the sophisticated scientific and technological environment of nineteenth century France In a period marked by both radical experimentation and rich spiritual sensibility women interacted with the latest acoustical technologies to produce a striking

language of sonority that reached a wide popular audience The author shows that a variety of sonorous spaces containing newly invented organ models the teacher training institution the convent and the salon became significant acoustic laboratories in which women were able to formulate and express their creativity in sound Rather than inhibiting their freedom of expression such spaces allowed women to negotiate social convention and mark their own unique contribution to acoustical science
