Hans Hofmann 1880 1966 describes the arc of artistic modernism from pre World War I Munich and Paris to mid twentieth
century Greenwich Village His career also traces the transatlantic engagement of modern painting with the materials of its
own making a relationship that is perhaps still not completely understood In these interrelated narratives Hofmann is a
central protagonist providing a vital link between nineteenth and twentieth century art practice and between European and
American modernism The remarkable vitality of his later work affords insight not only into the style but also the literal
substance of this formative period of artistic and material innovation This richly illustrated book the fourth in the Getty
Conservation Institute's Artist's Materials series presents a thorough examination of Hofmann's late career materials Initial
chapters present an informative overview of Hofmann's life and work in Europe and America and discuss his crucial role in
the development of Abstract Expressionism Subsequent chapters present a detailed analysis of Hofmann's materials and
techniques and explore the relationship of the artist's mature palette to shifts in the style and aging characteristics of his
paintings The book concludes with lessons for the conservation of modernist paintings generally and particularly those that
incorporate both traditional and modern paint media This book will be of value to conservators art historians conservation

restores Wilfred to the art historical canon Lumia presents a long overdue reevaluation of the groundbreaking artist Thomas
Wilfred 1889 1968 whose unprecedented works prefigured light art in America As early as 1919 many years before the
advent of consumer television and video technology Wilfred began experimenting with light as his primary artistic medium
developing the means to control and project unique compositions of colorful undulating light forms which he referred to
collectively as lumia Manifested as both live performances on a cinematic scale and self contained structures Wilfred's
innovative displays captivated audiences and influenced generations of artists to come This publication the first dedicated to
Wilfred in over forty years draws on the artist's personal archives and includes a number of insightful essays that trace the
development of his work and its relation to his cultural milieu Featuring a foreword by the celebrated artist James Turrell
