Red Virgin Soil Soviet Literature In The 1920s:

Red Virgin Soil Robert A. Maguire, 2000 *Red Virgin Soil* is a detailed study of the eponymous journal that was the most significant Soviet literary journal of the 1920s. The journal published belles lettres, theory and criticism and represented the first serious attempt in Russia in nearly half a century to shape an entire generation of writers, readers and critics through the energy and authority of such a forum. Maguire's work is also a survey of Soviet literary culture in that critical period between the end of the Civil War and the onslaught of the Stalinist era, a period when writers could still engage in public debate about literature's role in the building of a revolutionary culture. Soviet literature in the 1920's Robert Alan Maguire, [Henry Poulaille and Proletarian Literature \(1920-1939\)](#) Rosemary Chapman, 2024-09-02 **Revolutionary Dreams** Richard Stites, 1991-11-14 In this study, historian Richard Stites offers a

vivid portrayal of revolutionary life and the cultural factors—myth, ritual, cult and symbol—that sustained it and describes the principal forms of utopian thinking and experimental impulse. Analyzing the inevitable clash between the authoritarian elements in the Bolshevik's vision and the libertarian behavior and aspirations of large segments of the population, Stites interprets the pathos of utopian fantasy as the key to the emotional force of the Bolshevik revolution, which gave way in the early 1930s to bureaucratic state centralism and a theology of Stalinism. Terras, 1985-01-01 Profiles the careers of Russian authors, scholars and critics and discusses the history of the Russian treatment of literary genres such as drama, fiction and essays. **Nihilist Order** Professor David Ohana, 2016-04-19 The explosive combination of nihilist leanings together with a craving for totalitarianism was an ideal of philosophers, cultural critics, political theorists, engineers, architects and aesthetes long before it materialised in flesh and blood, not only in technology but also in fascism, Nazism, Bolshevism and radical European political movements. The Nihilist Order originally published in three hardcover volumes and now published in a consolidated paperback edition with an encompassing new Introduction, inspired excellent review endorsements both amongst the academic and public spheres and has been heralded as a great achievement in European intellectual and cultural history. Tatiana Smorodinskaya, Karen Evans-Romaine, Helena Goscilo, 2013-10-28 This addition to the highly successful Contemporary Cultures series covers the period from 1953 with the death of Stalin to the present day. Both Russian and Culture are defined broadly. Russian refers to the Soviet Union until 1991 and the Russian Federation after 1991. Given the diversity of the Federation in its ethnic composition and regional characteristics, questions of national, regional and ethnic identity are given special attention. There is also coverage of Russian-speaking immigrant communities. Culture embraces all aspects of culture and lifestyle: high and popular, artistic and material, art, fashion, literature, music, cooking, transport, politics and economics, film, crime, and much else are covered in order to give a full picture of the Russian way of life and experience throughout the extraordinary changes undergone since the middle of the twentieth century. The Encyclopedia of

Contemporary Russian Culture is an unbeatable resource on recent and contemporary Russian culture and history for students teachers and researchers across the disciplines Apart from academic libraries the book will also be a valuable acquisition for public libraries Entries include cross references and the larger ones carry short bibliographies There is a full index

The Russian Revolutionary Novel Richard Freeborn, 1985-02-28 Professor Freeborn's book is an attempt to identify and define the evolution of a particular kind of novel in Russian and Soviet literature the revolutionary novel This genre is a uniquely Russian phenomenon and one that is of central importance in Russian literature The study begins with a consideration of Turgenev's masterpiece *Fathers and Children* and traces the evolution of the revolutionary novel through to its most important development a century later in Pasternak's *Doctor Zhivago* and the emergence of a dissident literature in the Soviet Union Professor Freeborn examines the particular phases of the genre's development and in particular the development after 1917 the early fiction which explored the relationship between revolution and instinct such as Pilnyak's *The Naked Year* the first attempts at mythmaking in Leonov's *The Badgers* and Furmanov's *Chapayev* the next phase in which novelists turned to the investigation of ideas exemplified most notably by Zamyatin's *We* the resumption of the classical approach in such works as Olesha's *Envy* which explore the interaction between the individual and society and finally the appearance of the revolutionary epic in Gorky's *The Life of Klim Samgin* Sholokhov's *Quiet Flows the Don* and Alexey Tolstoy's *The Road to Calvary* Professor Freeborn also examines the way this kind of novel has undergone change in response to revolutionary change and he shows how an important feature of this process has been the implicit assumption that the revolutionary novel is distinguished by its right to pass an objective independent judgement on revolution and the revolutionary image of man This is a comprehensive and challenging study of a uniquely Russian tradition of writing which draws on a great range of novels many of them little known in the West As with other titles in this series all quotations have been translated

Russian Literary Politics and the Pushkin Celebration of 1880 Marcus C. Levitt, 2018-09-05 In an event acknowledged to be a watershed in modern Russian cultural history the elite of Russian intellectual life gathered in Moscow in 1880 to celebrate the dedication of a monument to the poet Alexander Pushkin who had died nearly half a century earlier Private and government forces joined to celebrate a literary figure in a country in which monuments were usually dedicated to military or political heroes In this richly detailed narrative history of the Pushkin Celebration and the developments that led up to it Marcus C Levitt explores the unique role of literature in nineteenth century Russian intellectual life and puts Russian literary criticism and Pushkin's posthumous reputation into fresh perspective Drawing on Soviet archival materials not readily available in the West Levitt describes the preparations for the monument and the unfolding of the celebration His sustained discussions of Turgenev's role and of Dostoevsky's famous Pushkin Speech shed new light on what was for both a culminating moment in their careers In Levitt's view the Pushkin Celebration represented the articulation of liberal post Emancipation hopes for an independent Russian intelligentsia and culture His analysis of the

A Coat of Many Colors Gregory Freidin, 1987 Friedin writes just the kind of criticism Mandelstam wrote and which he would have loved grounded in careful reading but never timid quirky but never merely eccentric the product of a mind and sensibility keenly alive to the times both historical and critical Nothing I have read on Mandelstam has so provoked my own thinking as has Freidin's work It is stimulating in every sense of the word and will move the study of Mandelstam off the point at which it has been stuck for far too long John E. welcome and significant addition to the body of scholarship bearing on one of our century's finest poets Victor Erlich Yale University *The Crisis of the Old Order in Russia* Roberta Thompson Manning, 2019-01-29 Focusing on the role of the landowning gentry in the First Russian Revolution of 1905-1907 Roberta Manning explores the complex relationship between this traditional social and political elite and the imperial Russian government in the period between the abolition of serfdom and the February Revolution of 1917 In contrast to the commonly accepted view that the 1905 Revolution significantly expanded the circle of people involved in government Professor Manning argues that the gentry became Russia's dominant political force after the 1907 coup d'état Overwhelmed after Emancipation by economic crisis and a devastating erosion of their role in government service the gentry utilized the revitalized assemblies of the nobility and the newly founded zemstvos first to agitate for and then to dominate the representative institutions created by the 1905 Revolution Through a vast array of primary sources Professor Manning considers the acquisitions and consequences of the gentry's augmented political role and presents an updated account of the peasant rebellions of 1905-1907 and their impact on the gentry Included is a brilliant portrayal of P. A. Stolypin the period's most gifted gentry statesman and of the defeat accomplished with the aid of gentry pressure groups of his reform program the last comprehensive effort to restructure the political order of Imperial Russia Studies of this period of Russian history have generally focused on the dramatic confrontation between the Old Regime and its revolutionary adversaries Here Professor Manning illuminates the equally fateful conflicts within the Russian upper classes Roberta Thompson Manning is Associate Professor at Boston College Studies of the Russian Institute Columbia University Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Reforming Rural Russia Francis William Wcislo, 2014-07-14 As he examines administrative reform of Russian rural local government between the abolition of serfdom and World War I Francis William Wcislo takes as his theme the repeated attempts of tsarist statesmen to restructure the most critical mediating link between the autocratic state and a rapidly modernizing agrarian society His broader objective however is to use the issue of autocratic politics to probe the character and evolution of bureaucratic mentality in this period Wcislo links the social psychological ideological and institutional nexus of the bureaucracy with its social underpinnings in rural society and lays bare the connections of the bureaucratic world with its traditional social base among the service nobility and the peasantry Placing the conflicting views of officials within the context of the two political cultures of old regime society he shows how bureaucratic reformers anxious to promote civic culture were undermined by defenders of traditional autocracy and the society of service estates *soslovie* with which that autocracy had coexisted This defense of

tradition and the resulting failure of reformist initiatives were fundamental to the crisis of Russia in the early twentieth century Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Leo Tolstoy Richard F. Gustafson,2014-07-14 Much of what was central to Tolstoy seems embarrassing to Western and Soviet critics points out Richard Gustafson in his absorbing argument for the predominance of Tolstoy's religious viewpoint in all his writings Received opinion says that there are two Tolstoys the pre conversion artist and the post conversion religious thinker and prophet but Professor Gustafson argues convincingly that the man is not two but one Originally published in 1986 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Revolution and Culture Zenovia A. Sochor,2018-09-05 Zenovia A Sochor here assesses one of the most important debates within the Bolshevik leadership during the early years of Soviet power that between A A Bogdanov and V I Lenin Once comrades in arms Bogdanov and Lenin became political rivals prior to the October Revolution Their disagreements over political and cultural issues led to a split in the Bolshevik Party with Bogdanov spearheading the party's left wing faction and attracting a following of notable intellectuals Before Lenin died in 1924 however he had succeeded in shaping Soviet society according to his own vision and today Bolshevism is commonly identified with Leninism while Bogdanovism is little known Sochor provides the first full exposition in English of Bogdanov's views which she asserts must be understood to appreciate the choices available and the paths not taken during the formative years of the Soviet regime

Peasant Metropolis David L. Hoffmann,2018-08-06 During the 1930's 23 million peasants left their villages and moved to Soviet cities where they comprised almost half the urban population and more than half the nation's industrial workers Drawing on previously inaccessible archival materials David L Hoffmann shows how this massive migration to the cities an influx unprecedented in world history had major consequences for the nature of the Soviet system and the character of Russian society even today Hoffmann focuses on events in Moscow between the launching of the industrialization drive in

1929 and the outbreak of war in 1941 He reconstructs the attempts of Party leaders to reshape the social identity and behavior of the millions of newly urbanized workers who appeared to offer a broad base of support for the socialist regime The former peasants however had brought with them their own forms of cultural expression social organization work habits and attitudes toward authority Hoffmann demonstrates that Moscow s new inhabitants established social identities and understandings of the world very different from those prescribed by Soviet authorities Their refusal to conform to the authorities model of a loyal proletariat thwarted Party efforts to construct a social and political order consistent with Bolshevik ideology The conservative and coercive policies that Party leaders adopted in response he argues contributed to the Soviet Union s emergence as an authoritarian welfare state
