Rediscovering Values Coming To Terms With Postmodernism:

Rediscovering Values Hugh Mercer Curtler, 1997 Now that we have rejected the set of values inherited from our imperialist past Curtler says we must distil from the common social world a new set that can command our approval regardless of cultural and personal tastes He mounts an attack on proponents of relativity as any cost and argues for the objectivity of values in ethics literature and art His treatment is accessible to lay readers Annotation copyrighted by Book News Inc Portland OR

Rediscovering Values Hugh Mercer Curtler, 2016-06-16 The author's primary purpose in this short book is to clearly define the nature of value and restore it to a central place in discussions of ethical and aesthetic problems He begins the book with a broad cultural perspective on the issue of postmodernism in general then takes a closer look at recent attempts to reduce values to evaluation to deny their objectivity The central chapter focuses on the question What Is Value after which Curtler discusses values in the fine arts and literature concluding with the question of values in education

A Philosophy of Music Education Bennett Reimer, 2022-11-01 Bennett Reimer's *A Philosophy of Music Education* asserts that the nature and value of music education are determined primarily by the nature and value of music Originally published in 1970 with the third edition originally published in 2003 this text relates findings in the field of aesthetics to their implications for the practice of music education thus emphasizing practical applications that students and future educators can employ in their teaching and learning It addresses an increasingly diverse world in which music is viewed not as a singular practice but as a multitude of related practices Reimer believes that music has characteristics that make it recognizably and distinctively

a practice or an art that these characteristics can be identified to a reasonable and useful degree but no doubt never definitively that music is of value to humans and their communities in a variety of ways related to these characteristics and that the primary mission of music education is to make musical values widely and deeply available Each chapter includes case studies Riffs and questions for discussion exploration Etudes that enhance student learning This reprint edition includes a new introduction by Peter R Webster that sets Reimer s work in the context of the development of music education pedagogy and illuminates why this remains an important text for today s students An excellent introductory text for undergraduate or more advanced music education students A Philosophy of Music Education remains the best single introduction to this important and growing field

Library Journal ,1998 Book Review Digest ,1999 **Proceedings and Addresses of the American Philosophical Association** American Philosophical Association,1998 List of members in v 1 Spirituality in Higher Education Sherry L. Hoppe,Bruce W. Speck,2005 This issue looks at spirituality in higher education through a number of lenses examining what many view as trend towards incorporating spirituality back into the lives of students faculty and administrators Questions about meaning and purpose are as old as humans and in the earliest days of higher education the search for truth was the ultimate journey of the student Over the decades though the academy has often shunned the

spiritual aspect of a student's education. Whether that is to avoid controversy or to protect from acknowledging that all is not known, there is a predisposition to avoid talking about spirituality in the academy. Regardless, the result is the creation of what T. S. Eliot called hollow men who live in this world but do not know why they are here and thus do not know how to live their lives. This book is responding to a reawakening of desire to avoid such creatures. The issue's purpose, at least in a cursory way, is to look at spirituality in academe through a number of lenses. Composed of chapters from both faculty and administrators, this volume offers insight into the critical need for spirituality in educating the whole student while recognizing that how spirituality is viewed and taught and experienced is intensely personal. The goal is not to prescribe how spirituality should be integrated but to offer multiple options and perspectives. Not only will readers learn about the complex and vital role of spirituality; they will also be reminded that the quest for truth and meaning, not the destination, is what is vitally important in shaping discussions about spirituality. This is the 104th issue of the Jossey-Bass quarterly support series *New Directions for Teaching and Learning*.

Nueva sátira en la ficción postmodernista de las Américas Rosa María Díez Cobo, 2011-11-28. Aquest estudi es proposa recuperar la sàtira de la tradicional postergació a què s'ha vist sotmesa en els últims temps. En contrast amb les tendències crítiques que han proclamat la decadència del satíric dins de la narrativa contemporània, es pot afirmar que la sàtira ha experimentat un ressorgiment ja que s'ha trobat mai una manera inestable i alliberada d'anys prescripcions teòriques. A fi de demostrar aquest plantejament, aquest estudi enfoca la qüestió des d'una perspectiva comparatista que aborda l'anàlisi del rellevant paper exercit pel satíric en narratives postmodernistes de diferents procedències dins del marc cultural de les Amèriques. D'aquesta manera s'endinsa necessàriament en temes referents a la complexitat de les relacions Nord i Sud en l'àmbit de la teoria literària dins de l'espai americà.

Recalling Education Hugh Mercer Curtler, 2001. In this searching and relentlessly logical critique, a distinguished professor of philosophy argues that the purpose of education, enabling students to achieve intellectual autonomy, has been largely forgotten. Hugh Mercer Curtler challenges prevailing myths about education and indoctrination, explains the significance of a proper understanding of education in a democracy, and offers recommendations to reverse current trends.

Postmodern Perception of Ethics in Contemporary American Science Fiction Novel Firuze Güzel, *John Barth and Postmodernism* Berndt Clavier, 2007. John Barth's eminence as a postmodernist is indisputable. However, much of the criticism dealing with his work is prompted by his own theories of exhaustion and subsequent replenishment, leaving his writing relatively untouched by theories of postmodernism in general. This book changes that by focusing on the relationship between Barth's aesthetic and the ideology critique of the historical avant-gardes, which were the first to mobilize art against itself and its institutional practices and demands. Examining Barth's metafictional parodies in the light of theories of space and subjectivity, Clavier engages the question of ideology critique in postmodernism by offering the montage as a possible model for understanding Barth's fiction. In such a light, postmodernism may well be perceived as a mimesis of reality, particularly a recognition of the collective nature

of self and the world
