Reflections And Perspectives Essays In Philosophy:

Reflections and perspectives Elmer Daniel Klemke, 2019-01-29 No detailed description available for Reflections and perspectives □□□□□□□□□□□□, 1994 **Reflections and Perspectives** E. D. Klemke, 1974-11 **Philosophy and Engineering: Reflections on Practice, Principles and Process** Diane P Michelfelder, Natasha McCarthy, David E. Goldberg, 2014-01-13 Building on the breakthrough text *Philosophy and Engineering An Emerging Agenda* this book offers 30 chapters covering conceptual and substantive developments in the philosophy of engineering along with a series of critical reflections by engineering practitioners The volume demonstrates how reflective engineering can contribute to a better understanding of engineering identity and explores how integrating engineering and philosophy could lead to innovation in engineering methods design and education The volume is divided into reflections on practice principles and process each of which challenges prevalent assumptions and commitments within engineering and philosophy The volume explores the ontological and epistemological dimensions of engineering and exposes the falsity of the commonly held belief that the field is simply the application of science knowledge to problem solving Above all the perspectives collected here demonstrate the value of a constructive dialogue between engineering and philosophy and show how collaboration between the disciplines casts light on longstanding problems from both sides The chapters in this volume are from a diverse and international body of authors including philosophers and engineers and represent a highly select group of papers originally presented in three different conferences These are the 2008 Workshop on Philosophy and Engineering WPE 2008 held at the Royal Academy of Engineering the 2009 meeting of the Society for Philosophy and Technology SPT 2009 at the University of Twente in the Netherlands and the Forum on Philosophy Engineering and Technology fPET 2010 held in Golden Colorado at the Colorado School of Mines **Subjectivity** João Biehl, Byron J. Good, Arthur Kleinman, 2007-04-11 This innovative volume is an extended intellectual conversation about the ways personal lives are being undone and remade today Examining the ethnography of the modern subject this preeminent group of scholars probes the continuity and diversity of modes of personhood across a range of Western and non Western societies Contributors consider what happens to individual subjectivity when stable or imagined environments such as nations and communities are transformed or displaced by free trade economics terrorism and war how new information and medical technologies reshape the relation one has to oneself and which forms of subjectivity and life possibilities are produced against a world in pieces The transdisciplinary conversation includes anthropologists historians of science psychologists a literary critic a philosopher physicians and an economist The authors touch on how we think and write about contingency human agency and ethics today **Rationality and Reflection** Jonathan L. Kvanvig, 2014 This book sets out a theory of rationality a theory about how to determine what to think which defends a significant degree of optionality in the story of what is reasonable for people to think and thereby provides a framework for explaining what kinds of rational disagreement are possible Publisher s description **Values of**

Love and Ethical Reflection Edmund Husserl, 2024-12-20 This first volume of Husserlian Legacies Themes for the 21st Century focuses on hitherto underexamined dimensions of Husserl's philosophical thinking and in particular values and love. Texts in this series draw from the variety of Husserl's rich original works; they are selected and arranged with the support of the Husserl Archives, Leuven. The texts are made available in English and are primarily targeted to advanced undergraduates, graduate students and scholars. This volume helps the reader both to investigate the themes of value and love and to gauge their role in Husserl's reflections on related topics: his analysis of philosophy, the sciences as vocational tasks, the emotions and the community of love, as well as his personalistic reformulation of the categorical imperative. The texts gathered, edited and translated in this volume have far-reaching implications ranging from axiology and individual and social ethics to the philosophy of emotions, action theory and the philosophy of science.

Contemporary Reflections on Business Ethics Ronald Duska, 2022-05-16 Over 30 years Ronald F. Duska has established himself as one of the leading scholars in business ethics. This book presents Duska's articles: the years on ethics, business ethics, teaching ethics, agency theory, postmodernism, employee rights and ethics in accounting and the financial services industry. These reflect his underlying philosophical concerns and their application to real-world challenges: a method that might be called an Aristotelian common-sense approach to ethical decision-making.

Reflections and Replies Tyler Burge, 2003 Essays by various philosophers on the work of Tyler Burge and Burge's extensive responses.

Meta-Philosophical Reflection on Feminist Philosophies of Science Maria Cristina Amoretti, Nicola Vassallo, 2015-12-21 This volume offers a meta-philosophical reflection on feminist philosophies of science. It emphasizes and discusses both the connections and differences between traditional philosophies of science and feminist philosophies of science. The collection systematically analyses feminist contributions to the various philosophies of specific sciences. Each chapter is devoted to a specific area of philosophy of science: general philosophy of science, philosophy of biology, philosophy of climate sciences, philosophy of cognitive sciences and neurosciences, philosophy of economics, philosophy of history and archaeology, philosophy of logic and mathematics, philosophy of medicine, philosophy of psychology, philosophy of physics and philosophy of social sciences. Since some of these areas have so far rarely been addressed by feminist philosophers, this new collection provides new angles and stimulates the debate on pivotal issues that are part and parcel of both traditional philosophies of science and feminist philosophies of science. Using a range of different methodologies and styles, the essays all show great clarity in both arguments and contents.

Tourism and Culture in Philosophical Perspective Marie-Élise Zovko, John Dillon, 2023-11-10 This book offers a philosophical approach to tourism as a permanent factor in the lifestyle economy and culture of the contemporary global community. Travel to well-known destinations and pursuit of an ever-increasing range of leisure activities are an aspiration of most humans today. Those not themselves engaged in tourist activities are quite often involved in providing the goods and services which make tourism

possible Yet the ill effects of mass tourism and overtourism on sensitive ecosystems resources and community life have begun to outweigh economic gains threatening to destroy destinations cultural heritage and livelihoods The editors and contributors of this collection reflect on the nature and meaning of tourism its history elements and forms the roles of tourist and host the limits of hospitality tendencies to excess and the reasons why we engage in such forms of behaviour and the place of tourism in human culture as a whole By shedding light on these questions more efficacious solutions to the urgent problems raised by the practice of tourism can be found This work is a must read for scholars teachers and students engaged in study and research on philosophy of culture philosophical anthropology tourist and destination management human factors engineering and sustainability

Fictional Worlds and Philosophical Reflection Garry Hagberg, 2022-01-31 This edited collection investigates the kinds of philosophical reflection we can undertake in the imaginative worlds of literature Opening with a look into the relations between philosophical thought and literary interpretation the volume proceeds through absorbing discussions of the ways we can see life through the lens of literature the relations between philosophical saying and literary showing and some ways we can see the literary past philosophically and assess its significance for the present Taken as a whole the volume shows how imagined contexts can be a source of knowledge a source of conceptual clarification and a source of insight and understanding And because philosophical thinking is undertaken after all in words a heightened sensitivity to the precise employments of our words particularly philosophically central words such as truth reality perception knowledge selfhood illusion understanding falsehood can bring a clarity and a refreshed sense of the life that our words take on in fully described contexts of usage And in these imagined contexts we can also see more acutely and deeply into the meaning of words about words metaphor and figurative tropes verbal coherence intelligibility implication sense and indeed the word meaning itself Moving from a philosophical issue into a literary world in which the central concepts of that issue are in play can thus enrich our comprehension of those concepts and in the strongest cases substantively change the way we see them With a combination of conceptual acuity and literary sensitivity this volume maps out some of the territory that philosophical reflection and literary engagement share

Feminist Reflections on the History of Philosophy Lilli Alanen, Charlotte Witt, 2006-01-17 Feminist work in the history of philosophy has come of age as an innovative field in the history of philosophy This volume marks that accomplishment with original essays by leading feminist scholars who ask basic questions What is distinctive of feminist work in the history of philosophy Is there a method that is distinctive of feminist historical work How can women philosophers be meaningfully included in the history of the discipline Who counts as a philosopher This collection is a unique collaboration among philosophers from North America and the Nordic Countries including papers written from both analytic and continental philosophical perspectives and discussing both ancient and modern philosophers Feminist Reflections on the History of Philosophy will be of interest to historians of philosophy feminist theorists women s studies faculty and students and humanists interested in canon formation and transformation

Essays

on *Philosophy and Economic Methodology* Daniel M. Hausman, 1992-11-27 This collection brings together the essays of one of the foremost American philosophers of economics Cumulatively they offer fresh perspectives on foundational questions such as what sort of science is economics and how successful can economists be in acquiring knowledge of their subject matter

The Philosophical Reflection of Man in Literature Anna-Teresa Tymieniecka, 2012-12-06 Reason, Truth, and Theology in Pragmatist Perspective Paul D. Murray, 2004 In this work Paul Murray explores which style of rationality is most appropriate to Christian theology in the contemporary pluralist postfoundationalist postmodern context At its heart is a fresh consideration of the American pragmatist tradition focussing on the writings of Richard Rorty and Nicholas Rescher Where Rorty correctly diagnoses the failures of foundationalist objectivism Rescher's pragmatic idealism is presented as healing the ills in Rorty's own neo pragmatism The significant resonance between Rescher's view of rationality and Christian understanding of the trinity is explored In turn Donald MacKinnon's influential writings are presented as exemplifying just such an approach to theology Murray both articulates an enriched form of Christian postliberalism committed to receiving and learning from other traditions of thought and practice and probes the claim that the dynamics of human rationality can be expected to reflect the Trinitarian dynamics of God's being Paul Murray presents us here with an exhaustive and insightful study of recent pragmatic theory in which he sets up rhythms of healing and completion as well as interrogation particularly remarkable is his exploration of Christianity as the deep and in some sense final interlocutor of pragmatic tradition I strongly recommend this book Olivier Davis Professor of Christian Doctrine King's College London This is a mature wide ranging work that by uniting the intellectual and the practical carries both rational and ethical conviction It does equal justice to the classic teachings of Christianity and to the challenges to rethink them in dialogue with modern and postmodern approaches The result is a conception of Christianity both generously orthodox and deeply engaged with contemporary life and thought It is especially good to see the profound contribution of Donald MacKinnon understood and developed with such perception and relevance David F Ford Regius Professor of Divinity University of Cambridge Paul Murray is currently Lecturer in Systematic Theology within the Department of Theology at the University of Durham England He has previously held posts at St Cuthbert's Seminary Ushaw College Durham and Newman College of Higher Education Birmingham Essays of his exploring issues in philosophical theology science and theology and contemporary Roman Catholic theology have appeared in leading journals and edited collections This is his first monograph

Wilfrid Sellars Willem A. DeVries, 2014-12-18 Wilfrid Sellars 1912-89 has been called the most profound and systematic epistemological thinker of the twentieth century Robert Brandom He was in many respects ahead of his time and many of his innovations have become widely acknowledged for example his attack on the myth of the given his functionalist treatment of intentional states his proposal that psychological concepts are like theoretical concepts and his suggestion that attributions of knowledge locate the knower in the logical space of reasons However while many philosophers have begun to acknowledge Sellars's

inspiration in their work their interpretation of his thought has not always been the most accurate His writings are difficult Individually his essays are complex and sometimes rely on doctrines and arguments he put forward elsewhere Each of his articles is deepened and strengthened by seeing it in its systematic context but he never wrote a unified exposition of his system which therefore has to be pieced together from numerous disparate sources Willem deVries addresses these difficulties specifically and provides a careful reading and remarkable overview of Sellars s systematic philosophy that will become the standard point of reference for all philosophers seeking to understand Sellars s hugely significant body of work

Reflections on Naturalism José Ignacio Galparsoro,Alberto Cordero,2013-09-04 To naturalists there is no such thing as complete justification for any claim and so requiring complete warrant for naturalist proposals is an unreasonable request The proper guideline for naturalist proposals seems thus clear develop it using the methods of science if this leads to a fruitful stance then explicate and reassess The resulting offer will exhibit virtuous circularity if its explanatory feedback loop involves critical reassessment as the explanations it encompasses play out So viewed naturalism is a philosophical perspective that seeks to unite in a virtuous circle the natural sciences and non foundationalist broadly based empiricism Other common lines of antinaturalist complaint are that naturalization efforts seem fruitful only in some areas also that several endeavors outside the sciences serve as sources of knowledge into human life and the human condition especially in areas where science does not reach terribly far as yet It seems hard not to grant some truth to many allegories from literature art and some religions Naturalism has room for knowledge gathered outside science provided the imported claims satisfy also by naturalistic methods Naturalism and the debate about its scope and limits thrive on discrepancy We hope that collectively the selected essays that follow will give a fair view of the vitality and tribulations of naturalism as a variegated contemporary philosophical perspective Kant on Reflection and Virtue Melissa Merritt,2018-04-26 A new approach to Kant s conception of virtue which grounds it in his innovative account of reflection and cognitive agency
