International Handbook of Educational Policy Nina

Bascia, Alister Cumming, Amanda Datnow, Kenneth Leithwood, David Livingstone, 2008-05-14 Nina Bascia Alister Cumming Amanda Datnow Kenneth Leithwood and David Livingstone This Handbook presents contemporary and emergent trends in educational policy research in over fifty chapters written by nearly ninety leading researchers from a number of countries It is organized into five broad sections which capture many of the current dominant educational policy foci and at the same time situate current understandings historically in terms of both how they are conceptualized and in terms of past policy practice The chapters themselves are empirically grounded providing illustrations of the conceptual implications contained within them as well as allowing for comparisons across them The serendipity within chapters with respect to jurisdictional particularities and contexts allows readers to consider not only a range of approaches to policy analysis but also the ways in which policies and policy ideas play out in different times and places The sections move from a focus on prevailing policy tendencies through increasingly critical and outsider perspectives on policy They address in turn the contemporary strategic emphasis on large scale reform substantive emphases at several levels on leadership and governance improving teacher quality and conceptualizing learning in various domains around the notion of literacies and concluding finally with a contrasting topic workplace learning which has had less policy attention and thus allows readers to consider both the advantages and disadvantages of learning and teaching under the bright gaze of policy

Toward an Ethic of Citizenship William K. Dustin, 2000-01-11 The idea for this book arose out of a little known political scandal known as phonegate that occurred in Minnesota in the early 1990 s in which a number of legislators were found to have been abusing their phone privileges The hubris of the legislature in response to the discovery of this abuse not only made me rather angry but since I had been called for jury duty the year before gave me the idea that service in the legislature ought to be a duty of citizenship like jury duty Although the idea of the citizen legislature goes back to Aristotle serious consideration of it raises the question of what is meant by citizenship and representation This book addresses that question It is an attempt to develop a model of citizenship in which representation is simultaneously a fundamental right and the highest obligation After developing these ideas at a rather high level of abstraction the book concludes with a proposed constitutional amendment for the State of Minnesota to illustrate how the model will work in practice
