Weekly World News ,1993-06-08 Rooted in the creative success of over 30 years of supermarket tabloid publishing the Weekly World News has been the world's only reliable news source since 1979 The online hub www.weeklyworldnews.com is a leading entertainment news site *Protecting Your Child from Predators* Beth EdD Robinson, Latayne C. PhD Scott, 2019-08-06 Even good parents often underestimate the dangers their children face Research indicates that one in four females and one in six males are sexually abused before age 18 In most cases the enemy is not a faceless stranger it's someone you know and trust a neighbor a coach or even a family member This book provides practical steps to ensure you're doing all you can to reduce the risks of abuse But since you cannot be with your children 24/7 it goes beyond what you can do as a parent to teach you how to increase your child's own awareness and strategies in the face of potential dangers without making them fearful Dr Robinson whose decades long practice focuses on abused and endangered children calls on her own case studies to show age appropriate conversation starters for parents teaching them how to ask the right questions and provide the right boundaries This book will help you move from fear to confidence on this heavy topic that is just too important to ignore *Staying Safe at School* Chester L. Quarles, Tammy F. Quarles, 2017-08-25 This is a practical and comprehensive guide to all aspects of writing about science and technology including both how to write and the practical and commercial aspects of publishing as they affect an author Special features of technical writing are discussed in detail It also gives special attention to problems facing writers of instructional material *Woman's Home Companion* ,1919 *Protecting Our Kids?* Emily Horowitz, 2015-04-21 This thought provoking work raises important questions about sex offender laws drawing from personal stories research and data to prove the policies promote fear destroy lives and fail to protect children Do sex offender laws protect children or are they inherently unfair practices that at their worst promote vigilante justice The latter this book argues By analyzing the social political historical and cultural context surrounding the emergence of current sex offender policies and laws the work shows how sex offenders have come to loom as greater than life monsters when in many cases that is not true at all Looking at its subject from a fresh viewpoint the book shares research and new analyses of data and qualitative evidence to show how sex offender laws are not only ineffective but engender destructive fear and anxiety To help readers understand the impact of these laws the author presents interviews with sex offenders and their families as they describe the day to day reality of living on the sex offender registry Citing research and statistics the book challenges the idea that sex offenders must be continually monitored and publicly identified because they are incurably predatory Most important the study shows that undue sex offender panic is preventing policymakers from addressing the true threats to
