Sick At Heart:

Grammar and Cognition Alexander Haselow, Gunther Kaltenböck, 2020-11-15 This volume brings together linguistic psychological and neurological research in a discussion of the Cognitive Dualism Hypothesis whose central idea is that human cognitive activity in general and linguistic cognition in particular cannot reasonably be reduced to a single monolithic system of mental processing but that they have a dualistic organization Drawing on a wide range of methodological approaches and theoretical frameworks that account for how language users mentally represent process and produce linguistic discourse the studies in this volume provide a critical examination of dualistic approaches to language and cognition and their impact on a number of fields The topics range from formulaic language the study of reasoning and linguistic discourse and the lexicon grammar distinction to studies of specific linguistic expressions and structures such as pragmatic markers and particles comment adverbs extra clausal elements in spoken discourse and the processing of syntactic groups
