as I stepped out of daily production and transitioned into teaching at culinary schools and writing books I started gaining more weight and quickly The accumulated effects of tasting glorious white flour breads of all types along with access to the handiwork of fabulous chefs and restaurants to which I lost all ability to say no caused my weight to balloon to over 200 pounds Searching for the perfect pizza as I researched my book *American Pie* didn't help either but I sure was having fun Fortunately I never stopped working out so even though I was to put it bluntly fat it was firm fat marbled with muscle Nonetheless it was cause for concern especially that most pernicious of fats belly fat So recently with Susan's encouragement I decided it was time to get serious about losing weight I had already met Denene Wallace a few years earlier at a private tasting of some of her gluten free products and was impressed with how good they were Gluten sensitivity is a subject I had been tracking since 1991 shortly after my first book *Brother Juniper's Bread Book* came out Around that time Loree Starr Brown who had been a regular customer at Brother Juniper's Bakery came in one day with a box of homemade breads and muffins based on the recipes in my book but all made with rice flour instead of wheat flour They were delicious Loree proceeded to educate me about celiac disease a medical condition that nearly killed her before it was finally diagnosed and treated by removing all traces of gluten from her diet

Including One Month of Kid Friendly Meal Plans and Detailed Shopping Lists to Make Life Easier. As the rate of chronic illness skyrockets more and more parents are faced with the sobering reality of restrictive diets. And because everyone is busy many families come to rely on store bought healthy products to make life simpler but many of these are loaded with sugar and hidden toxins. When faced with her own family health crisis mother and health coach Leah Webb realized that in order to consistently provide high quality food for her family nearly 100 percent of their meals would need to be homemade. But when she looked for a resource to guide her most cookbooks that offered recipes free of allergenic foods were also high in processed starches, flours and sugar. Webb like so many parents was looking for a cookbook that offered deeply nutritious kid friendly whole foods recipes that were also easy but there wasn't one so she wrote it herself. The Grain Free Sugar Free Dairy Free Family Cookbook offers a new system to preparing food and approaching the kitchen that gets kids involved in cooking which encourages excitement around food, a major challenge with restrictive diets. The recipes are rich in healthy fats, nutrient dense vegetables, ferments and grass fed meats and include snacks, school lunches and delicious sweet treats that rival the flavors of sugar dense desserts. By following Leah's meal plans parents will be sure to please everyone in the family and make cooking on a restrictive diet enjoyable and doable over a long period of time. Families that know they would like to rid themselves of grain, sugar and dairy but are intimidated by starting will find Webb's advice and troubleshooting invaluable. The cookbook outlines family tested methods that make for effective and efficient preparation including everyday basic recipes that will become part of a cook's intuitive process over time. The best part is that although Leah prepares nearly every single one of her family's breakfasts, lunches, dinners and snacks using whole food ingredients she only spends four to six hours on food preparation per week. Through stocking her freezer, prepping the kitchen, shopping and cooking in bulk and consistently planning meals this diet plan is not only possible it is manageable and fulfilling. Prepare for this cookbook to radically change your life. *The Healthy Halogen Cookbook* Sarah Flower, 2013-08-22.
