**Lowell** Margaret Terrell Parker,1940      Lowell, Massachusetts Lowell Historic Canal District Commission,1977      **The Lower Merrimack River Valley** Peter M. Molloy,1976      *The Cotton Dust Papers* Charles Levenstein,Gregory Delaurier,Mary Lee Dunn,2018-02-06 The Cotton Dust Papers is the story of the 50 year struggle for recognition in the U S of this pernicious occupational disease The authors contend that byssinosis could have and should have been recognized much sooner as a great deal was known about the disease as early as the 1930s Using mostly primary sources the authors explore three instances from the 1930s to the 1960s in which evidence suggested the existence of brown lung in the mills yet nothing was done What the story of byssinosis makes clear is that the economic and political power of private owners and managers can hinder and shape the work of health investigators      Mill Power Paul Marion,2014-09-08 Mill Power documents the making of a national park that changed the concept of what a national historical park could be For a time in the 1800s Lowell was Massachusetts s cosmopolitan must see second city The city s industrial model was as high tech then as Silicon Valley is today It drew the attention of luminaries like Charles Dickens Congressmen Davy Crockett and Abraham Lincoln feminist sociologist Harriet Martineau and abolitionist Frederick Douglass This insider s account of the creative bold community driven process to establish the park explains why today Lowell National Historical Park is renowned as the partnership park The park s establishment was an integral piece of an urban revival strategy that has made Lowell the subject of scores of newspaper articles magazine profiles TV and radio reports scholarly papers and book chapters Historic Preservation magazine has hailed the park as the premier rehabilitation model for gritty cities worldwide The Lowell story has much to teach the mid sized cities of the nation and the world Mill Power frames the Lowell comeback in its historical context and brings together the people who dreamed wrote designed pushed and cheered a new national park into existence along with those who came after with the charges of shaping the ideas into material form The volume features 100 photos many of them showing the before and after story of this revitalization      **The Sea Captain's Wife: A True Story of Love, Race, and War in the Nineteenth Century** Martha Hodes,2011-02-07 A finalist for the Lincoln Prize The Sea Captain s Wife comes surprisingly and movingly alive Tina Jordan Entertainment Weekly Award winning historian Martha Hodes brings us into the extraordinary world of Eunice Connolly Born white and poor in New England Eunice moved from countryside to factory city worked in the mills then followed her husband to the Deep South When the Civil War came Eunice s brothers joined the Union army while her husband fought and died for the Confederacy Back in New England a widow and the mother of two Eunice barely got by as a washerwoman struggling with crushing depression Four years later she fell in love with a black sea captain married him and moved to his home in the West Indies Following every lead in a collection of 500 family letters Hodes traced Eunice s footsteps and met descendants along the way This story of misfortune and defiance takes up grand themes of American history opportunity and racism war and freedom and illuminates the lives of ordinary people in the past

A Library Journal Best Book of the Year and a selection of the Book of the Month Club Literary Guild and Quality Paperback Book Club     **The Irony of Victory** Marc S. Miller, 1988     **The Papers of Henry Clay** Henry Clay, The Papers of Henry Clay span the crucial first half of the nineteenth century in American history Few men in his time were so intimately concerned with the formation of national policy and few influenced so profoundly the growth of American political institutions The year 1837 found Henry Clay hard at work in a successful effort to organize and strengthen the new Whig party In his attempt to provide for it an ideological core he emphasized restoration of the Bank of the United States distribution of the treasury surplus to the states continued adherence to his Compromise Tariff Act of 1833 and federal funding of internal improvements The achievement of these goals Clay reasoned would mitigate the severe impact of the Depression of 1837 and sweep the Whigs into the White House in 1840 Soon after the election of 1836 Clay began running again for the presidency By 1838 it was clear to him that he would have to come to grips politically with the long muted slavery question This he did in February 1839 in a Senate speech that was so proslavery anti abolitionist and racially extremist that it cost him the Whig presidential nomination at the Harrisburg convention in December 1839 William Henry Harrison was nominated in his stead and won handily But one month after his inauguration Harrison died and Vice President John Tyler a states rights Democrat turned Whig was elevated to the presidency Senator Clay emerged from his disappointment at Harrisburg as the acknowledged leader of the Whig party and further unified it in a wide ranging assault on the Tyler administration s refusal to support Whig principles By the end of 1843 Tyler had been broken the Whig party was Clay s to lead and the Kentuckian was again in the presidential lists Confident that 1844 would surely be his year Clay unfortunately failed to see the formation and growth of the black cloud that was Texas annexation Publication of this book was assisted by a grant from the National Historical Publications and Records Commission     **The Sea Captain's Wife** Martha Elizabeth Hodes, 2006 What a terrific book I could hardly put it down A story of triumph over adversity James McPherson Award winning historian Hodes presents the true extraordinary story of Eunice Connolly a woman whose misfortune and defiance make up the grand themes of American history opportunity and racism war and freedom

*Blackstone River Corridor Study* United States. National Park Service, 1984     Desolate Angel Dennis McNally, 2020-03-24 A blockbuster of a biography absolutely magnificent San Francisco Chronicle Jack Kerouac King of the Beats unwitting catalyst for the 60s counterculture groundbreaking author was a complex and compelling man a star athlete with a literary bent a spontaneous writer vilified by the New Critics but adored by a large youthful readership a devout Catholic but aspiring Buddhist a lover of freedom plagued by crippling alcoholism Desolate Angel follows Kerouac from his childhood in the mill town of Lowell Massachusetts to his early years at Columbia where he met Allen Ginsberg William S Burroughs and Neal Cassady beginning a four way friendship that would become a sociointellectual legend In rich detail and with sensitivity Dennis McNally recounts Kerouac s frenetic cross country journeys his experiments with drugs and sexuality

his travels to Mexico and Tangier the sudden fame that followed the publication of *On the Road* the years of literary triumph and the final near decade of frustration and depression *Desolate Angel* is a harrowing compassionate portrait of a man and an artist set in an extraordinary social context The metamorphosis of America from the Great Depression to the Kennedy administration is not merely the backdrop for Kerouac's life but is revealed to be an essential element of his art for Kerouac was above all a witness to his exceptional times

**Empty Mills** Timothy J. Minchin, 2012-12-16 With the economy struggling there has been much discussion about the effects of deindustrialization on American manufacturing While the steel and auto industries have taken up most of the spotlight the textile and apparel industries have been profoundly affected In *Empty Mills* Timothy Minchin provides the first book length study of how both industries have suffered since WWII and the unwavering efforts of industry supporters to prevent that decline In 1985 the textile industry accounted for one in eight manufacturing jobs and unlike the steel and auto industries more than fifty percent of the workforce was women or minorities In the last four decades over two million jobs have been lost in the textile and apparel industries alone as more and more of the manufacturing moves overseas Impeccably well researched providing information on both the history and current trends *Empty Mills* will be of importance to anyone interested in economics labor the social historical as well as the economic significance of the decline of one of America's biggest industries [Hearings, Reports and Prints of the House Committee on Banking, Currency, and Housing](#) United States. *Construction, Chelmsford, Lowell and Dracut, Middlesex County*, 1976 [Industrial Archaeology](#) Eleanor Casella, James Symonds, 2007-01-04 Eleanor Conlin Casella and James Symonds The essays in this book are adapted from papers presented at the 24 Annual Conference of the Theoretical Archaeology Group held at the University of Manchester in December 2002 The conference session *An Industrial Revolution Future Directions for Industrial Archaeology* was jointly devised by the editors and sponsored by English Heritage with the intention of gathering together leading industrial and historical archaeologists from around the world Speakers were asked to consider aspects of contemporary theory and practice as well as possible future directions for the study of industrialisation and industrial societies It perhaps fitting that this meeting was convened in Manchester which has a rich industrial heritage and has recently been proclaimed as the archetype city of the industrial revolution McNeil and George 2002 However just as Manchester is being transformed by regeneration shaking off many of the negative connotations associated with factory based industrial production and remaking itself as a 21 century city then so too is the archaeological study of industrialisation being transformed In the most recent overview of industrial archaeology in the UK Sir Neil Cossons cautioned that industrial archaeology risked becoming a one generation subject that stood on the edge of oblivion alongside the mid 20 century pursuit of folklife studies Cossons 2000 13 It is to
