Perspectives on Plagiarism and Intellectual Property in a Postmodern World Lise Buranen,Alice M.

Roy,1999-04-23 This book offers a wealth of thinking about the complex and often contradictory definitions surrounding the concepts of plagiarism and intellectual property The authors show that plagiarism is not nearly as simple and clear cut a phenomenon as we may think Contributors offer many definitions and facets of plagiarism and intellectual property demonstrating that if defining a supposedly simple concept is difficult then applying multiple definitions is even harder creating practical problems in many realms This volume exposes the range and breadth of these overlapping and complex issues reflecting a postmodern sensibility of fragmentation and clarifies some of the confusion not by reducing plagiarism to ever simpler definitions and providing new or better rules to apply but by complicating the issue examining what plagiarism and intellectual property are and are not in our more or less postmodern world This book offers and explains various definitions of plagiarism Issues covered include copyright law and plagiarism imitation and originality in classical rhetoric sociohistorical perspectives and late nineteenth and early twentieth century notions of authorship in student publications and textbooks The authors also offer different applications of these plagiarism definitions in specific arenas including university writing centers administrative settings peer writing groups textbook publishing and the wider marketplace **A Reader's**

Guide to Contemporary Literature William Swan Sonnenschein, 1896 **Teaching and Researching Writing** Ken Hyland, 2021-09-23 The new edition of Ken Hyland's text provides an authoritative guide to writing theory research and teaching. Emphasising the dynamic relationship between scholarship and pedagogy, it shows how research feeds into teaching practice. *Teaching and Researching Writing* introduces readers to key conceptual issues in the field today and reinforces their understanding with detailed cases, then offers tools for further investigating areas of interest. This is the essential resource for students of applied linguistics and language education to acquire and operationalise writing research theories, methods, findings and practices, as well as for scholars and practitioners looking to learn more about writing and literacy. New to the fourth edition: Added or expanded coverage of important topics such as translingualism, digital literacies and technologies, multimodal and social media writing, action research, teacher reflection, curriculum design, teaching young learners and discipline-specific and profession-specific writing. Updated throughout, including revision to case studies and classroom practices and discussion of Rhetorical Genre Studies, intercultural rhetoric and expertise. Reorganised References and Resources section for ease of use for students, researchers and teachers. Books in Print, 1991 *The Bedford Guide for College Writers with Reader, Research Manual, and Handbook with 2009 MLA and 2010 APA Updates* X. J. Kennedy, Dorothy M. Kennedy, Marcia F. Muth, 2010-04 When it was first published twenty years ago, *The Bedford Guide for College Writers* brought a lively and innovative new approach to the teaching of writing. Since that time, authors X. J. and Dorothy M. Kennedy have won praise for their friendly tone and their view apparent on every page of the text: that writing is the usually surprising, often rewarding art of thinking while working with language. More recently, experienced teacher and writer Marcia F. Muth joined the author team, adding more practical advice to help all students, even those underprepared for college work, become successful academic writers. While retaining the highly praised Kennedy touch, *The Bedford Guide* continues to evolve to meet classroom needs. The new edition does even more to build essential academic writing skills with expanded coverage of audience analysis, source-based writing, argumentation and reasoning, and more. **Perceptions of Discourse: The Revolution in Assumptions** Dorothy Naor, 2014-12-12 This book was ready to go except for the final editing, nearly 14 years ago, when suddenly other events entered my life that took all my energy and time. Apparently, no one else in the interim has touched on the subject. Because I was loathe to let 15 or so years of research go to waste and because I think that the history might be interesting and perhaps also useful to others, and also because I suddenly realized that I am now in my 80s and would not be around forever, I have finally taken time off to publish. As for my sources, which extend from about the 16th century till the late 1980s, I have decided against updating them. Those included in these pages serve the purpose of this study, which is about a revolution in assumptions about discourse that began in the USA in the 1920s and became the institution in the 1980s in schools, universities and in our perceptions of discourse in general. The tale in these pages also covers the more important consequences of the revolution. Research in Basic Writing Martin Jacobi, Michael G.

Moran,1990-02-15 This reference handbook surveys research on the central issue associated with the teaching of unprepared writers Though basic writing has only been recognized as a distinct area of teaching and research since 1975 the existing bibliographic texts already seem limited due to their age or lack of annotation This volume provides current and extensive bibliographic essays and will help to define this new field of study for teachers and researchers Following an introduction that summarizes the origins and significant texts in basic writing the book is divided into three sections Social Science Perspectives Linguistic Perspectives and Pedagogical Perspectives The first section which contains three essays views the field through the lens of social psychological and political issues The second section also containing three essays examines contributions made from studies of grammar dialects and second language acquisition The third section in its four essays focuses on the design development administration and evaluation of basic writing courses the use of computers in basic writing classrooms the role of the writing lab and the preparation of basic writing teachers An appendix that reviews current textbooks for basic writing courses is also included as well as an index This book will be a valuable resource for teachers of basic writing in education courses and workshops that train teachers and tutors and in fields such as linguistics technical writing and Teaching English as a Second Language It will also be an important addition to public and university libraries and many education programs *Recording for the Blind & Dyslexic, ...
