Magic And Perception The Art And Science Of Fooling The Senses:

Magic and Perception Bob Friedhoffer, 2019-06-05 An excerpt from CHAPTER ONE WHAT IS PERCEPTION When I first started doing magic tricks I thought it was awesome that I could fool people I could do things they couldn't do Not only couldn't they do them they couldn't figure out how to do them Being the nosy kind of guy I am I wanted to know how and why people get fooled If I knew that I thought maybe I'd become a better magician So I started studying different things both in school and out things such as acting stagecraft and the history of magic and science It dawned on me after a while that there are many scientific reasons for why magic fools people Some of them have to do with laws of physics which I've discussed at length in some of my other books Others are based on principles of chemistry and biology which I've touched on in other books But quite a few of the reasons have to do with the science of the mind better known as psychology and the science of the brain neurology These are the areas this book concentrates on

Magic and Perception Robert Friedhoffer, 1996 Presents step by step instructions for a variety of magic tricks explaining how the tricks work by affecting people's perceptions
