Making Michelle C. Wang,2017-12-18 The first scholarly monograph on Buddhist ma alas in China this book examines the Ma ala of Eight Great Bodhisattvas This iconographic template in which a central Buddha is flanked by eight attendants flourished during the Tibetan 786 848 and post Tibetan Guiyijun 848 1036 periods at Dunhuang A rare motif that appears in only four cave shrines at the Mogao and Yulin sites the ma ala bore associations with political authority and received patronage from local rulers Attending to the historical and cultural contexts surrounding this iconography this book demonstrates that transcultural communication over the Silk Routes during this period and the religious dialogue between the Chinese and Tibetan communities were defining characteristics of the visual language of Buddhist ma alas at Dunhuang

Meeting the Buddhas Vessantara,1993 An introduction the most well known and important Buddhas deities and other sacred figures of Buddhism Each is imaginatively brought to life for the reader presenting their major characteristics along with illustrations visualizations symbols mantras and myths *Tantric Buddhism and Altered States of Consciousness* Dr Louise Child,2013-05-28 This book explores the role of altered states of consciousness in the communication of social and emotional energies both on a societal level and between individual persons Drawing from an original reading of Durkheimian social theorists including Mauss Hertz and Hubert and Jungian psychology Louise Child applies this analysis to tantric Buddhist ritual and biographical material She suggests ways in which dreams and visionary experiences including those related to the subtle body play an important and previously under explored role in tantric understandings of the consort relationship *The Symbolism of the Stupa* Adrian Snodgrass,2018-05-31 A close analysis of the architecture of the stupa a

Buddhist symbolic form that is found throughout South Southeast and East Asia The author who trained as an architect examines both the physical and metaphysical levels of these buildings which derive their meaning and significance from Buddhist and Brahmanist influences **A Buddhist Theory of Semiotics** Fabio Rambelli,2013-05-16 One of the first attempts ever to present in a systematic way a non western semiotic system This book looks at Japanese esoteric Buddhism and is based around original texts informed by explicit and rigorous semiotic categories It is a unique introduction to

important aspects of the thought and rituals of the Japanese Shingon tradition Semiotic concerns are deeply ingrained in the Buddhist intellectual and religious discourse beginning with the idea that the world is not what it appears to be which calls for a more accurate understanding of the self and reality This in turn results in sustained discussions on the status of language and representations and on the possibility and methods to know reality beyond delusion such peculiar knowledge is explicitly defined as enlightenment Thus for Buddhism semiotics is directly relevant to salvation this is a key point that is often ignored even by Buddhologists This book discusses in depth the main elements of Buddhist semiotics as based primarily on original Japanese pre modern sources It is a crucial publication in the fields of semiotics and religious studies

The Tantric Path of Indestructible Wakefulness Chögyam Trungpa, 2013-04-08 Ch gyam Trungpa explores the the vajrayana teachings of the tantric path in this final volume of his masterpiece on Tibetan Buddhism This three volume collection presents in lively relevant language the comprehensive teachings of the Tibetan Buddhist path of the hinayana mahayana and vajrayana Considered Ch gyam Trungpa s magnum opus The Profound Treasury of the Ocean of Dharma will resonate with new and senior students of Buddhism In this third and final volume Ch gyam Trungpa s examines the vajrayana teachings of the tantric path The vajrayana or diamond vehicle also referred to as tantra draws upon and extends the teachings of the hinayana and mahayana As with the hinayana and the mahayana the formal acceptance into the vajrayana is marked by a vow in this case the samaya vow There is an emphasis at this stage on the student teacher relationship and on the quality of devotion Generally students must complete preliminary practices called ng ndro to prepare themselves for initiation into the vajrayana path before going further Having done so they then receive the appropriate empowerments to begin tantric practices There are empowerment ceremonies of many kinds called abhishekas The vajrayana includes both form practices such as visualizations and sadhanas ritual liturgies and formless practices based on allowing the mind to rest naturally in its inherent clarity and emptiness Although on the surface there is much greater complexity in tantric practices the principles of mindfulness and awareness and the cultivation of compassion and skillful action continue to be of central importance The tantric path requires complete engagement and fierce dedication It is said to be a more rapid path but it is also more dangerous There is a quality of directness abruptness and wholeheartedness Tantrikas or vajrayana practitioners recognize that the most challenging aspects of life the energies and play of confused emotions and frightening obstacles can be worked with as gateways to freedom and realization Other topics covered in detail in this volume include the four reminders the mandala principle mahamudra atiyoga and more

Chinese Esoteric Buddhism Geoffrey C. Goble, 2019-10-08 Chinese Esoteric Buddhism is generally held to have been established as a distinct and institutionalized Buddhist school in eighth century China by the Three Great Masters of Kaiyuan ubh karasi ha Vajrabodhi and Amoghavajra Geoffrey C Goble provides an innovative account of the tradition s emergence that sheds new light on the structures and traditions that shaped its institutionalization Goble focuses on Amoghavajra 704 774 contending that he was the central figure in Esoteric Buddhism s rapid rise in Tang dynasty China and the other two patriarchs are known primarily through Amoghavajra s teachings and writings He presents the scriptural mythological and practical aspects of Chinese Esoteric Buddhism in the eighth century and places them in the historical contexts within which Amoghavajra operated By telling the story of Amoghavajra s rise to prominence and of Esoteric Buddhism s corresponding institutionalization in China Goble makes the case that the evolution of this tradition was predicated on Indic scriptures and practical norms rather than being the product of conscious adaptation to a Chinese cultural environment He demonstrates that Esoteric Buddhism was employed by Chinese rulers to defeat military and political rivals Based on close readings of a broad range of textual sources previously untapped by English language scholarship this book overturns many assumptions about the origins of Chinese Esoteric Buddhism

Wong, 2022-10-10 This volume examines the various patterns of trans regional exchanges in Buddhist art within East Asia China Korea and Japan in the medieval period from the fifth to the thirteenth centuries A traditional approach to the study of East Asian Buddhist art revolves around the notion of an artistic relay India was regarded as the source of inspiration for China and China in turn influenced artistic production in the Korean peninsula and Japan While this narrative holds some truth it has the implicit baggage of assuming that art in the host country is only derivative and obscures a deep understanding of the complexity of transnational exchanges The essays in this volume aim to go beyond the conventional query of tracing origins and mapping exchanges in order to investigate the agency of the receivers with contextual case studies that can expand our understanding of artistic

Golden Key Thinley Norbu,1993-10-12 In The Small Golden Key Thinley Norbu Rinpoche explains in simple concise language the important ideas and practices of Buddhism with special attention to the Vajrayana teachings of Tibetan Buddhism He discusses the origins of Buddhism in India and its spread to Tibet the important lineages of Tibetan Buddhism with emphasis on the Nyingma school the differences between the Hinayana Mahayana and Vajrayana teachings the outstanding features of the Mahayana and some of the special qualities and practices of the Vajrayana *Building a Sacred Mountain* Wei-Cheng Lin,2014-05-01 By the tenth century CE Mount Wutai had become a major pilgrimage site within the emerging culture of a distinctively Chinese Buddhism Famous as the abode of the bodhisattva Ma ju r known for his habit of riding around the mountain on a lion the site in northeastern China s Shanxi Province was transformed from a wild area long believed by Daoists to be sacred into an elaborate complex of Buddhist monasteries In Building a Sacred Mountain Wei Cheng Lin traces the confluence of factors that produced this transformation and argues that monastic architecture more than texts icons relics or pilgrimages was the key to Mount Wutai s emergence as a sacred site Departing from traditional architectural scholarship Lin s interdisciplinary approach goes beyond the analysis of forms and structures to show how the built environment can work in tandem with practices and discourses to provide a space for encountering the divine Art History Publication Initiative For more information visit <http://arthistorypi.org/books/building-a-sacred-mountain> *Buddhism and Medicine in Japan* Katja Triplet,2019-11-18 This book demonstrates the close link between medicine and Buddhism in early and medieval Japan It may seem difficult to think of Japanese Buddhism as being linked to the realm of medical practices since religious healing is usually thought to be restricted to prayers for divine intervention There is a surprising lack of scholarship regarding medicinal practices in Japanese Buddhism although an overwhelming amount of primary sources proves otherwise A careful re reading of well known materials from a study of religions perspective together with in some cases a first time exploration of manuscripts and prints opens new views on an understudied field The book presents a topical survey and comprises chapters on treating sight related diseases women s health plant based materia medica and medicinal gardens and finally horse medicine to include veterinary knowledge Terminological problems faced in working on this material such as religious or magical healing as opposed to secular medicine are assessed The book suggests focusing more on the plural nature of the Japanese healing system as encountered in the primary sources and reconsidering the use of categories from the European intellectual tradition **Studies in the Buddhistic Culture of India During the 7th and 8th Centuries A.D.** Lal Mani Joshi,1977-01-01 It is a pioneer attempt of its kind to study Indian Buddhism in its entirety as a system of rational philosophy profound faith and as a historical matrix of creative human culture and civilized institution during the 7th and 8th centuries the brilliant epoch of the University of Nalanda the mere name of which spells the great wonder that was Buddhism in Ancient India A chapter on the contribution of Buddhism to Indian Civilization has also been added The treatment of the subject is critical and integral though not traditional **Function and Meaning in Buddhist**

Art ,2023-08-07 What was the function of Buddhist art at the time Buddhism was a major religion in large areas of South East and South East Asia Can we establish what these sculptures and paintings meant to Buddhist believers living at a time when this art fulfilled important religious needs These questions are discussed not answered in a volume about Function and Meaning of Buddhist Art which contains the papers of a workshop on this theme held at Leiden University in 1991 While dealing with a variety of themes and subject matter sometimes in great detail sixteen specialists focus on ritual and semantic aspects of Buddhist works of art from countries such as India China Japan Tibet Thailand and Indonesia Recent non western art historical publications show an increasing tendency to work with methodological frameworks developed by specialists on western art Moreover there are more similarities between Buddhist and other religious art than literally meet the eye For this reason two comparative studies are included in which parallels and universals are brought forward Two main lines emerge in the results offered in this book the one indicating a tendency to focus on intended meanings the other concentrating on more than one level of reception of Buddhist art in a liturgical context
