Orringer, 2021 In *Uniting Music and Poetry in Twentieth Century Spain* Nelson R. Orringer uses both literary and musical analysis to study sung poems in twentieth century Spain In nine chapters each focusing on an individual sung poem song cycle or various poems set by the same composer Orringer enriches and deepens interpretations of the art songs by comparing the poet's vision to the composer's In examining composers such as Falla Turina Mompou Toldrà Rodrigo Montsalvatge and Rodolfo Halffter Orringer shows that Spanish art song is an exceptional product of Spain's Silver Age and reveals a new way to understand and appreciate poems set to music in twentieth century Spain **The Muse is Music** Meta DuEwa Jones, 2011 This wide ranging ambitiously interdisciplinary study traces jazz's influence on African American poetry from the Harlem Renaissance to contemporary spoken word poetry Examining established poets such as Langston Hughes Ntozake Shange and Nathaniel Mackey as well as a generation of up and coming contemporary writers and performers Meta DuEwa Jones highlights the intersections of race gender and sexuality within the jazz tradition and its representation in poetry Applying prosodic analysis to emphasize the musicality of African American poetic performance she examines the gendered meanings evident in collaborative performances and in the criticism images and sounds circulating within jazz cultures Jones also considers poets who participated in contemporary venues for black writing such as the Dark Room Collective and the Cave Canem Foundation including Harryette Mullen Elizabeth Alexander and Carl Phillips Incorporating a finely honed discussion of the Black Arts Movement the poetry jazz fusion of the late 1950s and slam and spoken word performance milieus such as Def Poetry Jam she focuses on jazz and hip hop influenced performance artists including Tracie Morris Saul Williams and Jessica Care Moore Through attention to cadence rhythm and structure *The Muse is Music* fills a gap in literary scholarship by attending to issues of gender in jazz and poetry and by analyzing recordings of poets both with and without musical accompaniment Applying the methodology of textual close reading to a critical close listening of American poetry's resonant soundscape Jones's analyses include exploring the formal innovation and queer performance of Langston Hughes's recorded collaboration with jazz musicians delineating the relationship between punctuation and performance in the post soul John Coltrane poem and closely examining jazz improvisation and hip hop stylization An elaborate articulation of the connections between jazz poetry and spoken word and gender *The Muse Is Music* offers valuable criticism of specific texts and performances and a convincing argument about the shape of jazz and African American poetic performance in the contemporary era The Music of what Happens Helen Vendler, 1988 This is a collection of previously published book reviews of modern poetry The poets discussed include John Ashbery Donald Davie Allen Ginsberg Seamus Heaney Ted Hughes Sylvia Plath Anne Sexton and Wallace Stevens **Music and Poetry** Lawrence Kramer, 1984 **Field Music** Alexandria Hall, 2020-10-06 A collection of poetry from the 2019 winner

Incisive and tender *Field Music* is a thoughtful and alert collection from a major emerging voice ***Sung Birds*** Elizabeth Eva Leach, 2007 Is birdsong music The most frequent answer to this question in the Middle Ages was resoundingly no In *Sung Birds* Elizabeth Eva Leach traces postmedieval uses of birdsong within Western musical culture She first explains why such melodious sound was not music for medieval thinkers and then goes on to consider the ontology of music the significance of comparisons between singers and birds and the relationship between art and nature as enacted by the musical performance of late medieval poetry If birdsong was not music how should we interpret the musical depiction of birdsong in human music making What does it tell us about the singers their listeners and the moral status of secular polyphony Why was it the fourteenth century that saw the beginnings of this practice continued to this day in the music of Messiaen and others Leach explores medieval arguments about song language and rationality whose basic terms survive undiminished into the present She considers not only lyrics that have their singers voice the songs or speech of birds but also those that represent other natural nonmusical sounds such as human cries or the barks of dogs The dangerous sweetness of birdsong was invoked in discussions of musical ethics which because of the potential slippage between irrational beast and less rational woman in comparisons with rational human masculinity depict women s singing as less than fully human Leach s argument comes full circle with the advent of sound recording This technological revolution like its medieval equivalent the invention of the music book once again made the relationship between music and nature an acute preoccupation of Western culture **Gulf Music**
