believable characterization or narratives Pullen not only helps us appreciate what talented actresses these five women actually were but also reveals how they sought to express themselves and maintain agency even while meeting the demands of their directors studios families and fans to perform certain feminine roles Drawing from a rich collection of classic films publicity materials and studio archives Like a Natural Woman lets us take a new look at both Hollywood acting techniques and the performance of femininity itself

Branding Brazil Leslie L. Marsh,2021-05-14 *Branding Brazil* examines a panorama of contemporary cultural productions including film television photography and alternative media to explore the transformation of citizenship in Brazil from 2003 to 2014 A utopian impulse drove the reproduction of Brazilian cultural identity for local and global consumption cultural production sought social and economic profits especially greater inclusion of previously marginalized people and places Marsh asserts that three communicative strategies from branding promising progress cultivating buy in and resolving contradictions are the most salient and recurrent practices of nation branding during this historic period More recent political crises can be understood partly in terms of backlash against marked social and political changes introduced during the branding period *Branding Brazil* takes a multi faceted approach weaving media studies with politics and cinema studies to reveal that more than a marketing term or project emanating from the state branding was a cultural phenomenon
