**The Waterloo Armies** Philip Haythornthwaite, 2007-10-18 German troops formed the majority of Wellington's forces present at the Battle of Waterloo including those of Nassau Brunswick Hanover and the King's German Legion and they have left a large number of first hand accounts of their role in the battle The actions of the King's German Legion an integral part of the British Army and partly officered by British soldiers has been published in English but to a limited degree Herbert Siborne published letters written to his father Ompteda and Wheatley have had their memoirs published and History of the King's German Legion included a small number of letters including the oft misquoted account of the defence of La Haye Sainte by Major Baring This forms a tiny proportion of the German material available Therefore it is not surprising that early British histories of the battle have largely sidelined the achievements of the German troops and this has been regurgitated by most that have followed This situation did not change until the 1990s when Peter Hofschroer published his two volume version of the campaign from the German perspective which included snippets of German documents published in English for the first time But even this proved not totally satisfactory as it did not provide the whole document to allow full interpretation There is a great need to provide an English version of much of the original German source material to redress the imbalance this volume is intended to remedy that situation by publishing sixty of these reports and letters fully translated into English for the first time giving a clearer insight into the significant role these troops played Gareth Glover is a historian specialising in the Waterloo campaign and the Peninsular War He left school at eighteen to join the Royal Navy as a Seaman Officer and completed his extensive training course at Dartmouth College He has published articles in The Waterloo Journal and the Journal of the Royal Artillery and a novel about Waterloo Voices of Thunder Christmas Selection 2010 Napoleon.org website

**Wellington's Waterloo Allies** Andrew W. Field, 2022-05-05 A fresh look at how Wellington triumphed over Napoleon and a valuable contribution to the Waterloo historiography Journal of Military History For almost two centuries the British perception of the Battle of Waterloo was that it was a great British victory gained over the French tyrant Napoleon achieved in spite of rather than because of the allied contingents in the Duke of Wellington's army Eyewitness accounts by British soldiers encouraged by the doubts expressed in Wellington's dispatches denigrated and vilified the courage and prowess of these allies But in the past twenty years modern historians with better access to the accounts and archives of the allied nations have tried to put the

record straight and their efforts have been rewarded by changing attitudes and a greater understanding of the significant part the allies played Andrew Field in the latest of his series of pioneering books on Waterloo makes a powerful contribution to this continuing debate by analyzing in forensic detail the records of these allied forces throughout the campaign In his balanced nonpartisan reassessment he describes the makeup of these forces their training and experience and their military capability Included are graphic accounts of their actions and performance on the battlefield His work is essential reading for all students of the Waterloo campaign Includes maps Artillery of the Napoleonic Wars, 1792-1815 Kevin F.

Kiley,2004-01-06 An extensive look at the large caliber guns of the Napoleonic period the battles in which they were used and the important figures in those conflicts In this heavily researched study Kevin Kiley examines Napoleon s own artillery as well as that employed by his enemies and he evaluates the gunners contribution to warfare in the period By looking at particular battles in detail Kevin Kiley shows just how the effective employment of artillery could tip the scales of victory Artillery of the Napoleonic Wars reveals much of the technical aspects of gunnery during the period how guns were placed their range what calibers were preferred how artillery operates It examines French artillery including that of the Imperial Guard and compares it to that of Britain Russia and Austria it also looks at many of the personalities involved and the difference between good gunnery and mediocre artillery Illustrated with beautiful line drawings and rare contemporary plates this unique book reveals a whole new dimension to the Napoleonic period Based on years of research into regulations of the period eyewitness accounts of artillerymen and material culled from official reports this is a definitive account This must undoubtedly become the standard work for anyone interested in the artillery of the period Waterloo Journal

Glover, 2024-01-30 Transcribed for the first time from Commissary General Tupper Carey's handwritten journals this is the first of two volumes which cover the lively career of a Commissary who served throughout the Peninsular war and Waterloo campaign. Written with vivid detail these journals offer a truly unique window into the life of a Commissary and the campaigns in which he served. Although a civilian and greatly discouraged from putting himself in mortal danger Tupper was often to be found watching the fighting from some nearby vantage point and often describes the actions he witnessed particularly where it affected his own charge whether a battalion a brigade or even later an entire division. Interspersed with these primary roles he was often seconded to form supply bases in the rear of the army or to hastily remove or destroy stores when threatened by enemy advances. He also talks freely about fellow officers and being a private journal written simply for the eyes of his immediate family he is not shy in giving his honest opinions of both his subordinates or indeed his superiors. This first volume covers Tupper's early life joining as a clerk and his early years as a Commissary up until the spring of 1813 just before the Duke of Wellington launched his troops on that memorable campaign designed to drive the French back out of Spain across the Pyrenees. Also detailed are Tupper's role in the Corunna campaign The Border War Battle of Salamanca and the Siege of Burgos. The rest of Tupper's incredible career will be covered in the second volume *Picton's Division at Waterloo* Philip Haythornthwaite, 2016-03-30

In the two hundred years since the Battle of Waterloo countless studies examining almost every aspect of this momentous event have been published narratives of the campaign graphic accounts of key stages in the fighting or of the role played by a regiment or by an individual who was there an eyewitness. But what has not been written is an in depth study of a division one of the larger formations that made up the armies on that decisive battlefield and that is exactly the purpose of Philip Haythornthwaite's original and highly readable new book. He concentrates on the famous Fifth Division commanded by Sir Thomas Picton which was a key element in Wellington's Reserve. The experiences of this division form a microcosm of those of the entire army. Vividly using a range of first hand accounts the author describes the actions of the officers and men throughout this short intense campaign in particular their involvement the fighting at Quatre Bras and at Waterloo itself. **Armies of the Napoleonic Wars** Gregory Fremont-Barnes, 2011-02-07

This authoritative military reference provides detailed analysis of the various armed forces that fought in the Napoleonic Wars. The Napoleonic Wars were some of the most devastating and consequential in modern European history. Yet for all the attention paid to these dramatic conflicts little focus is given to the composition organization and fighting efficiency of the armies who fought them. C. B. Rogers,1990-12-31 Many books have been written about Napoleon and his campaigns but very little about the soldiers of his armies and of the organization and conditions under which they lived and served In this classic study now reissued in paperback H C B Rogers examines Napoleon s army in terms of its staff systems its arms and its supporting

services as it existed and changed during the long period that separated the battles of Valmy and Waterloo This is not another history of Napoleon s campaigns Apart from the brief narrative of the opening chapter designed to serve as an aide memoire military operations are only cited to illustrate organization tactics equipment and administration The author seeks to show how as Lord Wavell put it Napoleon inspired a ragged mutinous half starved army and made it fight as it did
