Narreme In The Medieval Romance Epic:

The Narreme in the Medieval Romance Epic Eugene Dorfman, 1969-12-15 In this study Professor Dorfman applies the methods of modern linguistics to literary analysis Literature may be described as the structured use of language the modern linguistic analyzes language in a search for the minimal units of sound and form phoneme and morpheme and determines the combinations by which they can communicate meaning The author here searches for a minimal structural unit in the literary narrative analogous to the phoneme and the morpheme in language structure Based on a detailed analysis of the Roland and the Cid and twelve additional Romance narratives Professor Dorfman s argument is that the structure of the medieval Romance epics may be analyzed into functional units which he calls narremes He divides a narrative into two types of structure the superstructure and the substructure A narrative by definition is a series of incidents All the incidents in the narrative taken as written form the superstructure Analysis however shows that many of the incidents may be abstracted from the narrative without deflecting the story line On the other hand other incidents reveal themselves as organically linked with each other so they cannot be omitted without destroying the story line These selected incidents are the narremes which make up the substructure of the narrative This method of analysis produces so interesting and surprising results results which make an important advance in research in linguistics and Romance literature Eugene Dorfman as an orthodox structuralist has focused strictly on the formal descriptions of the narratives but his analysis leads into the great traditional problems of literary history and in particular poses anew the problem of the origins of the epic **Rezension zu: Eugene**

Dorfman: The narreme in the medieval Romance epic: an introduction to narrative structures Francis Lee Utley, 1971 **The New Cambridge Bibliography of English Literature** George Watson, Ian Roy Willison, 1974

Crispin Ier A. Ross Curtis, 1972-12-15 Raymond Poisson a contemporary of Moli re was the leading comic actor with the troupe of the H tel de Bourgogne and later at the Com die Fran aise during the first five years of its existence He popularized one of the French stage s best loved stock characters the impudent servant Crispin while finding time to supply his troupe with short comedies in which he himself starred This study is thoroughly documented and reflects the author s detailed knowledge of and interest in the period It establishes Poisson s place in theatrical history and illuminates a whole tradition in French theatre in the seventeenth century **The Battle of Kulikovo Refought** Kati M.J. Parppei, 2017-01-05 The battle of Kulikovo fought between Muscovite and Tatar troops in 1380 has been considered as a crucial turning point in the national history of Russia In **The Battle of Kulikovo Refought** Kati Parppei examines the layers of contemporary meanings attached to the event from the Middle Ages to the present following the formation and establishment of the collective images and perceptions concerning the battle By utilizing a diverse set of sources she shows that the present image of the medieval battle was created in retrospect from the 15th century onwards by interpolating interpreting and simplifying The narrative themes emphasizing internal unity have been applicable to practically any political situation over the centuries especially to

ones involving external threat Cohesion in English M.A.K. Halliday, Ruqaiya Hasan, 2014-01-14 Cohesion in English is concerned with a relatively neglected part of the linguistic system its resources for text construction the range of meanings that are specifically associated with relating what is being spoken or written to its semantic environment A principal component of these resources is cohesion This book studies the cohesion that arises from semantic relations between sentences Reference from one to the other repetition of word meanings the conjunctive force of but so then and the like are considered Further it describes a method for analysing and coding sentences which is applied to specimen texts *Bulletin bibliographique de la Société internationale arthurienne* International Arthurian Society, 1977 Linguistics in North America, 1 William Bright, 2019-04-15 No detailed description available for Linguistics in North America 1 *The Narrative Imagination* Armine Avakian Kotin, 2014-07-15 Philippe de Vigneulles 1471 1528 cloth merchant and hosier from the city of Metz wrote a collection of comic short stories which he called Cent Nouvelles ou contes joyeux The work constitutes an important step in the development of the nouvelle form in France In an extended explication Ms Kotin analyzes the tales for the modern reader historically generically structurally and in terms of their human significance Inscribed in a tradition of short narrative forms in late medieval and early Renaissance France these tales remake or recast traditional narrative patterns into new forms Philippe de Vigneulles's tales constitute a recit of human life supported by the sympathetic presence of the author and his beloved city of Metz Shakespeare's Grammatical Style Dolores M. Burton, 2014-11-06 Shakespeare's Grammatical Style is the first full scale systematic study using an examination of Shakespeare's syntax as a key to the interpretation of his work Dolores M Burton presents information on the application of linguistic and statistical techniques to the description and analysis of style and she has applied the insights and techniques of the major schools of linguistic inquiry including those of London and Prague Just as studies of imagery and vocabulary have aided interpretations of the plays so an examination of the grammatical features of Shakespeare's language indicates that they too perform a poetic and dramatic function For example noun modifiers like possessives and definite articles yield insights into a speaker's point of view or subtly aid in defining the fictional world of the plays With respect to stylistic development Shakespeare's handling of word order moved from a concentration of dislocated sentences and clause constituents to greater emphasis on varied and frequent permutations in nominal and verbal phrases A computer generated concordance of function words facilitated the study of syntactic features which included an examination of formal aspects of diction nominal group structure the function and frequency of relative clauses and the classification of sentences by mood and type Several problems associated with quantitative and linguistic studies of a full length literary work are discussed and exemplified Style itself is defined mathematically as a propositional function $S \rightarrow A$ and from this definition stylistic parameters are derived by correlating critical notions like fictional world point of view and characterization with differences in the syntax of the two plays **Pragmatic Markers in English** Laurel J. Brinton, 2010-12-14 The future of English linguistics as envisaged by the editors of Topics in

English Linguistics lies in empirical studies which integrate work in English linguistics into general and theoretical linguistics on the one hand and comparative linguistics on the other The TiEL series features volumes that present interesting new data and analyses and above all fresh approaches that contribute to the overall aim of the series which is to further outstanding research in English linguistics

From Paragraphs to Plots Matthew Clark,2024-09-25 The novel has often been characterized as the art form without a form Although there may not be any rules for how to write a novel as Matthew Clark shows in his new work of practical analysis a good novel is as carefully formed as a good poem From Paragraphs to Plots uncovers large compositional features of narrative construction thereby excavating elements that constitute the architecture of the novel Clark begins by discussing the segmentation of narratives from the paragraph level up to the whole novel with case studies of the composition of Jane Austen s Emma and Virginia Woolf s Mrs Dalloway The next chapter explores an important though often neglected feature of narrative architecture called ring composition a particular kind of repetition where the beginning and the end of a text are the same or similar From there Clark analyzes in detail two novels Ford Madox Ford s The Good Soldier and Joseph Heller s Catch 22 identifying the repetitions inversions links and fragmented narrations that comprise each narrative The book s second half focuses on simple and complex plot forms Examining iterations of simple forms plots that begin with a specific initiating event and proceed in an essentially regular chronological progression from beginning to middle to end Clark outlines several common beginnings Arrival Departure Meeting Need Birth Death and endings Departures Returns Marriages Need Satisfied Death along with a short account of less common ways to begin a novel Subsequent discussions examine devices used in complex plot forms such as Beginning with the Ending Second Chapter Retrospects Ghosts from the Past Multiple Retrospects One Day Novels One Year Novels Mirror Plots Simultaneous Narration Unnatural Chronology and Non Narrative Elements The final chapter draws together the preceding discussions with a detailed case study of a recent novel Viet Thanh Nguyen s Pulitzer Prize winning The Sympathizer By analyzing common practices of narrative construction From Paragraphs to Plots identifies sources of beauty and meaning in literature approaching the aesthetic and the thematic as simultaneous and inextricable [Viator](#) University of California, Los Angeles. Living on the Western Front Chris Ward,2013-04-11 Living on the Western Front provides a highly original history of the settler experience in Befland B ritish E xpeditionary F orce land during the First World War Using an unusual representational form that involves the stitching together of over a hundred extracts from primary sources which can then in

turn be read either chronologically or thematically Chris Ward brilliantly depicts a sense of settlers lives in Great War Belgium Northern France and Germany Simultaneously an annal and an anthology of stories this book tells us about landscapes sounds smells food journeys memory and morale in the way that the Befland settlers actually lived and experienced them The book also challenges popular conceptions of what history writing can or should be It drags us away from the reassuringly commanding authorial voice of the conventional historical narrative towards an approach that brings a degree of uncertainty and encourages us to experiment with History and its relationship with the past in an exciting and rewarding way

Menander to Marivaux: The History of a Comic Structure E.J.H. Greene,1977 The author examines comedies based on a structure first used by Menander in the fourth century B C and brought to its precise formulations and brilliance by Marivaux in the eighteenth century A D *Universal language schemes in England and France 1600-1800*

James Knowlson,1975-12-15 For centuries Latin served as an international language for scholars in Europe Yet as early as the first half of the seventeenth century scholars philosophers and scientists were beginning to turn their attention to the possibility of formulating a totally new universal language This wide ranging book focuses upon the role that it was thought an ideal universal constructed language would play in the advancement of learning The first section examines seventeenth century attempts to establish a universal common writing or as Bishop Wilkins called it a real character and philosophical language This movement involved or interested scientists and philosophers as distinguished as Descartes Mersenne Comenius Newton Hooke and Leibniz The second part of the book follows the same theme through to the final years of the eighteenth century where the implications of language building for the progress of knowledge are presented as part of the wider question which so interested French philosophers that of the influence of signs on thought The author also includes a chapter tracing the frequent appearance of ideal languages in French and English imaginary voyages and an appendix on the idea that gestural signs might supply a universal language This work is intended as a contribution to the history of ideas rather than of linguistics proper and because it straddles several disciplines will interest a wide variety of reader It treats comprehensively a subject that has not previously been adequately dealt with and should become the standard work in its field

Paul Claudel's 'Le Soulier de satin' Joan S. Freilich,1973-12-15 Claudel s most important work Le Soulier de satin has confused and puzzled readers since it first appeared Joan S Freilich s intensive examination of Claudel s imagery combined stylistic structuralist and psychoanalytic analyses These are new methods that have been developed over the past two decades and are based on an examination of the text from the reader s point of view This is a radical break with conventional literary studies which examine literature biographically or comparatively i e focusing on the relationship of the text to other works written by the same or different authors to the author s life and historical setting or to various linguistic norms Recent stylistic studies have as their point of departure the reader s perception of certain elements of style as unpredictable and thus marked in an otherwise unmarked context such studies seek to determine which of these stylistic

devices are present within a given text and what their effect is on the reader's response to the work. Structuralist analyses involve the identification and description of the basic system of concepts around which the literary text is constructed. This fundamental system or structure is the source of the reader's sense that the text is a coherent whole but it is itself an abstraction and can be perceived only through one or more of the variants through which it is actualized in the text. Finally, the psychoanalytic interpretation of a literary work attempts to elucidate the most fundamental effective concepts conveyed through the text concepts which evoke corresponding emotional responses in the reader and which although often unrecognized are thus responsible for much of his interest in and appreciation of the work. Stylistic and structuralist methods have been used together in recent years but this study of the *Soulier de satin* represents the first time that psychoanalytic interpretation has been included as part of a stylistic and structuralist analysis in which the focus throughout is on the relationship of the text to the reader and the point of departure is the reader's response to the work. Furthermore, most Claudelian criticism has been vague and general in nature but this work is specific and represents an unusual and unique contribution.
