Daniel Shaw, Tite Tienou, 2024-04-24 This book has served the missiological community for twenty five years as a resource for understanding human spirituality in any context Thousands of students have incorporated the principles of this book into ministry around the globe This twenty fifth anniversary edition seeks to enable those who now bring their passion for mission to contemporary contexts affected by globalization climate change and political perspectives unimagined when this book originally appeared Every community wherever it is on earth has its share of beliefs and values that manifest themselves in practices that reflect spiritual engagement Those engaged in mission need to appreciate how underlying beliefs and values are reflected in handling spiritual power worship and blessing and interaction with others Gospel communicators must

account for these elements as they seek to make God's intentions known to people who are searching for God. The models presented early in the book are essential for establishing what people consider spiritually critical. Applying these models in any religious environment will enable message bearers to engage with beliefs and practices that promote a gospel presentation that makes sense. To that end, we commend this book for effective missional engagement.

Alleluia Don Swenson, 2018-09-15. The Alleluia Community is a unique Christian community of over three hundred committed charismatic Christians in Augusta, Georgia, who live a covenant and ecumenical lifestyle. Emerging from the Charismatic Renewal Movement of the 1960s, members of Alleluia have maintained a lively charismatic dimension of the Christian tradition with a willingness to make a life-time covenant commitment to each other. Since 1973, this group of people has exhibited heroic virtue, self-sacrifice, humility, deference for one another, and service to others outside their boundaries. They claim to be guided by the Holy Spirit in their daily lives. Their leaders lead with a strong sense of service and Christian love and a willingness to lay down their own agendas. A major feature of these covenant makers is that they strive for daily Christian unity while being committed to one of the twelve plus various denominations and fellowships. Swenson had the opportunity of living among these people for twenty months. During this time, he used a mixed method approach involving over one hundred interviews and three hundred instruments to create both qualitative and quantitative measures of the lives of these people. To structure their story, he used the dilemmas of the institutionalization of religion from the scholarship of Thomas O. Dea and secularization theory. The data gathered give abundant evidence that these Alleluia faithful have substantively resisted the secular influence so common in Western culture.

"When on High the Heavens..." Giorgio Buccellati, 2023-09-22. This English translation of Giorgio Buccellati's ambitious work offers readers an insightful discussion of ancient Mesopotamian religion and spirituality in its relationship to the biblical ethos. Our understanding of ancient Mesopotamian religion, while shaped by a wealth of archaeological, artistic, and epigraphic evidence, remains limited with regard to a proper hermeneutic approach. In this volume, Buccellati sheds light on the spirituality of Mesopotamian polytheism by drawing comparisons with that of biblical monotheism. These comparisons are used to better understand the divine-human relationship in the Mesopotamian context as both individuals and members of a wider community. In addition, Buccellati provides detailed discussions on divination and

the central role of fate in ancient Mesopotamia Buccellati's understanding of Mesopotamian religion and spirituality as illuminated by biblical texts now available to an Anglophone audience offers much food for thought on this challenging subject When on High the Heavens Mesopotamian Religion and Spirituality with Reference to the Biblical World provides a wide ranging and thorough exploration of Mesopotamian religion for students scholars and researchers in Near Eastern archaeology and history biblical studies and the history of religion and spirituality

Placing Nature on the Borders of Religion, Philosophy and Ethics Dr Forrest Clingerman, Mr Mark H Dixon, 2013-06-28 The natural world has been humanized even areas thought to be wilderness bear the marks of human impact But this human impact is not simply physical At the emergence of the environmental movement the focus was on human effects on nature More recently however the complexity of the term nature has led to fruitful debates and the recognition of how human individuals and cultures interpret their environments This book furthers the dialogue on religion ethics and the environment by exploring three interrelated concepts to recreate to replace and to restore Through interdisciplinary dialogue the authors illuminate certain unique dimensions at the crossroads between finding value creating value and reflecting on one's place in the world Each of these terms has diverse religious ethical and scientific connotations Each converges on the ways in which humans both think about and act upon their surroundings And each radically questions the damaging conceptual divisions between nature and culture human and environment and scientific explanation and religious ethical understanding This book self consciously reflects on the intersections of environmental philosophy environmental theology and religion and ecology stressing the importance of how place interprets us and how we interpret place In addition to its contribution to environmental philosophy this work is a unique volume in its serious engagement with theology and religious studies on the issues of ecological restoration and the meaning of place
