Resources in Education ,2000-04 The Journal of Arizona History ,1988 The Federal Landscape Gerald D. Nash,1999-08 The vastness of the American West is apparent to anyone who travels through it but what may not be immediately obvious is the extent to which the landscape has been shaped by the U S government Water development projects military bases and Indian reservations may interrupt the wilderness vistas but these are only an indication of the extent to which the West has become a federal landscape Historian Gerald Nash has written the first account of the epic growth of the economy of the American West during the twentieth century showing how national interests shaped the West over the course of the past hundred years In a book written for a broad readership he tells the story of how America s hinterland became the most dynamic and rapidly growing part of the country The Federal Landscape relates how in the nineteenth century the West was largely developed by individual enterprise but how in the twentieth Washington D C became

the central player in shaping the region Nash traces the development of this process during the Progressive Era World War I the New Deal World War II the affluent postwar years and the cold war economy of the 1950s He analyzes the growth of western cities and the emergence of environmental issues in the 1960s the growth of a vibrant Mexican U S border economy and the impact of large scale immigration from Latin America and Asia at century s end Although specialists have studied many particular facets of western growth Nash has written the only book to provide a much needed overview of the subject By addressing subjects as diverse as public policy economic development environmental and urban issues and questions of race class and gender he puts the entire federal landscape in perspective and shows how the West was really won It was the federal government that determined the pattern of farms in the humid regions built the major roads and highways and fostered the growth of the principle cities in the West The federal government built the large dams and diverted important river systems throughtout the West determined the shape of the large military reservations and their environs and forced Native Americans to occupy the reservations on which they can be found today The government is largely responsible for the aerospace complexes and scientific research centers that became so important in the West during the second half of the twentieth century In short the federal government created a federal landscape in the West Gerald D Nash Course in Early American Literature Thomas Hallock, 2021-02-23 A Road Course in Early American Literature Travel and Teaching from Atzl n to Amherst explores a two part question what does travel teach us about literature and how can reading guide us to a deeper understanding of place and identity Thomas Hallock charts a teacher's journey to answering these questions framing personal experiences around the continued need for a survey course covering early American literature up to the mid nineteenth century Hallock approaches literary study from the overlapping perspectives of pedagogue scholar unrepentant tourist husband father friend and son Building on Ralph Waldo Emerson's premise that there is creative reading as well as creative writing Hallock turns to the vibrant and accessible tradition of American travel writing employing the form of biblio memoir to bridge the impasse between public and academic discourse and reintroduce the dynamic field of early American literature to wider audiences Hallock's own road course begins and ends at the Lowcountry of Georgia and South Carolina following a circular structure of reflection He weaves his journey through a wide swath of American literatures and authors from Native American and African American oral traditions to Wheatley and Equiano through Emerson Poe and Dickinson among others A series of longer place oriented narratives explore familiar and lesser known literary works from the sixteenth century invasion of Florida through the Mexican War of 1846 1848 and the American Civil War Shorter chapters bridge the book s central themes the mapping of cognitive and physical space our personal stake in reading the tensions that follow earlier acts of erasure and the impossibility of ever fully shutting out the past Exploring complex cultural histories and contemporary landscapes filled with ghosts and new voices this volume draws inspiration from a tradition of travel place oriented and literature based works ranging from William Carlos Williams s In the American Grain

and Jack Kerouac s On the Road to Alice Walker s In Search of Our Mother s Gardens Wendy Lesser s Why I Read The Serious Pleasure of Books and Rebecca Mead's My Life in Middlemarch An accompanying bibliographic essay is periodically updated and available at Hallock's website www roadcourse us A Diné History of Navajoland Klara Kelley, Harris Francis, 2019-10-22 For the first time a sweeping history of the Din that is foregrounded in oral tradition Authors Klara Kelley and Harris Francis share Din history from pre Columbian time to the present using ethnographic interviews in which Navajo people reveal their oral histories on key events such as Athabaskan migrations trading and trails Din clans the Long Walk of 1864 and the struggle to keep their culture alive under colonizers who brought the railroad coal mining trading posts and finally climate change The early chapters based on ceremonial origin stories tell about Din forebears Next come the histories of Din clans from late pre Columbian to early post Columbian times and the coming together of the Din as a sovereign people Later chapters are based on histories of families individuals and communities and tell how the Din have struggled to keep their bond with the land under settler encroachment relocation loss of land based self sufficiency through the trading post system energy resource extraction and climate change Archaeological and documentary information supplements the oral histories providing a comprehensive investigation of Navajo history and offering new insights into their twentieth century relationships with Hispanic and Anglo settlers For Din readers the book offers empowering histories and stories of Din cultural sovereignty In short the authors say it may help you to know how you came to be where and who you are
