Foreword by Edmund S. Phelps

Privatization In Eastern Europe A Critical Approach

Robert R. Redfield

Privatization In Eastern Europe A Critical Approach:

Privatization in Eastern Europe Iván Major, 1993 The task of turning the state owned assets of the Eastern European countries over to private ownership is one of the most challenging of our time both intellectually and in practical terms Ivan Major s in depth critique of the plans and programmes of the East European governments addresses the core issues of privatization from the perspective of both potential winners and losers After discussing the analytical framework he offers an assessment of the legacy of the command economy and includes individual country studies of Czechoslovakia the former GDR Hungary Poland and the former Soviet Union The following chapters look at the theoretical political and economic underpinning as well as assessments of the initial results of East European privatizations Dr Major argues that the whole network of political regulation must be dismantled if an efficient market economy is to emerge Privatization in Eastern Europe offers a critical analysis of the movement towards privatization in Eastern Europe as well as an authoritative assessment of the existing literature This book will be welcomed by scholars and policymakers as an important source of analysis argument and information

The American Bibliography of Slavic and East European Studies Patricia Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology

International Handbook on Privatization David Parker, David S. Saal, 2003-01-01 Privatization has dominated industrial restructuring programs since the 1980s and continues to do so This authoritative and accessible Handbook considers all aspects of this key issue including the theory of privatization privatization in transition developed and developing economies as well the economic regulation of privatized industries

The East European Economy in Context David Turnock, 2003-09-02 Since 1989 the former communist countries of Eastern Europe have witnessed a profound and dramatic upheaval The economic coherence of this region formerly maintained through the adoption of the Soviet system of government has fractured In The East European Economy in Context Communism and Transition David Turnock examines the transition from communist to free market economies both within and between the states of Eastern Europe As well as containing an informative survey of the impact of communism The East European Economy in Context provides Political profiles of individual countries A clear study of the contrasts between northern and balkan groups Summaries of regional variations in the transition process An exploration of the new state structures and resources Discussion of political stability inter ethnic tensions and progress in economic change

IBSS: Economics: 1993 Vol 42, 1994 This bibliography lists the most important works published in economics in 1993 Renowned for its international coverage and rigorous selection procedures the IBSS provides researchers and librarians with the most comprehensive and scholarly bibliographic service available in the social sciences The IBSS is compiled by the British Library of Political and Economic Science at the London School of Economics one of the world s leading social science

institutions Published annually the IBSS is available in four subject areas anthropology economics political science and sociology

Development Economics: A Policy Analysis Approach Eckhard Siggel, 2016-12-05 This innovative textbook focuses upon economic policy in the context of developing countries The aim is to show how economic theory can be applied to the real and urgent challenges facing the developing world To achieve its unique policy focus the text includes seventeen country case studies in the form of assigned questions as well as comprehensive theoretical coverage The topics covered by the book are those most relevant to the developing world such as how to accelerate economic growth ways in which foreign savings can be used to promote development and the choice of policies to successfully stabilize inflationary and debt burdened economies The country case studies featured are those most closely illustrative of the theory Solutions for nine of the cases are provided in the text solutions for the other eight are made available to instructors *Development Economics A Policy Analysis Approach* is ideal for undergraduate and introductory graduate courses It provides a hands on guide to making and assessing economic policy decisions in the developing world

Privatization and Economic Performance in Central and Eastern Europe European Association for Comparative Economic Studies, 1999 This important book provides a comprehensive analysis of the impact of privatization on the economic performance of companies in Central and Eastern Europe It sheds new light on the achievements and shortcomings of the privatization process and draws out lessons for the future After considering the theoretical issues surrounding privatization the authors provide an in depth examination of corporate governance and company performance in advanced market economies as well as transition economies They begin with a description of the main principles techniques and results of privatization in Bulgaria Estonia Hungary and Poland A statistical and econometric analysis of extensive company level data and interviews from a large number of firms between 1990 and 1997 is then conducted to discover the main factors in changing economic performance Using this information the authors compare the transformation of the company sectors in the four countries and in addition assess company restructuring from the perspective of West European privatizations *Privatization and Economic Performance in Central Eastern Europe* will be of interest to policymakers in governments and international organizations and those working in the fields of microeconomics industrial organization and transition studies

Populating No Man's Land János Mátyás Kovács, 2018-09-15 This edited volume opening the new series *Revisiting Communism* *Collectivist Economic Thought in Historical Perspective* focuses on the concepts of ownership the cornerstone of political economy in Soviet type societies The authors main objective is to contribute to the still unwritten chapter on collectivism in the history books of modern economic thought They trace the lengthy evolution of economic ideas of property reform under communism leading from the doctrine of blanket nationalization to projects of moderate privatization in eight countries of Eastern Europe and China The comparative analysis sheds light upon the tireless attempts of reform minded economists in communist countries to populate the no man s land of social property with quasi private economic actors such as bodies of workers self management and

managers of state owned companies For a long time these were expected to crowd out the communist nomenklatura from its actual ownership position without challenging the primacy of collective property rights The fact that even the most radical reformers came to the conclusion that such surrogate owners would not be able to break the power of the ruling elite only on the eve of the 1989 revolutions demonstrates the immense strength of collectivist ideas The authors coin the term trap of collectivism to warn those demanding nationalization or other forms of non private ownership today it is rather easy even with the best intentions to walk into this trap but it may take long decades to break out from it

Legal Aspects of Privatisation Bulent Seven,2002 The main aims of this thesis are as follows a To present a comprehensive analysis of the concept of privatisation its origins and limits b To identify the legal and institutional framework for privatisation in different European countries from a comparative perspective c To define and analyse particularly legal issues which arise during the privatisation transactions e g labour law competition law etc d To evaluate which features of the successful legal and organisational framework of privatisation have been successful so as to provide guidelines for those individuals and organisations participating in the privatisation exercises This work found out that there is no simple internationally applicable recipe for privatisation various legal methods and techniques can be used to privatise state owned enterprises Because each country has different circumstances it is impossible to provide a unique model for privatisation each country needs to design its own model according to its circumstances Privatisation is an essential but insufficient element for structural economic reform in the economy and society Privatisation is not a panacea it is not the solution to every economic and administrative problem selling an enterprise to the private sector does not mean an end to all problems Also privatisation is not an overnight process or a magic touch it will be a lengthy process Furthermore a decision that something can be privatised does not mean that it should be privatised In that context privatisation is not good or bad it is an economic and social instrument If it is well designed it may bring substantial benefits to the economy and society In many countries many state owned enterprises particularly the ones which are financially weak have still not been privatised This finding revealed that the privatisation process will be in the political and economic agenda for at least few more decades

Privatizing Poland Elizabeth Cullen Dunn,2015-09-25 The transition from socialism in Eastern Europe is not an isolated event but part of a larger shift in world capitalism the transition from Fordism to flexible or neoliberal capitalism Using a blend of ethnography and economic geography Elizabeth C Dunn shows how management technologies like niche marketing accounting audit and standardization make up flexible capitalism s unique form of labor discipline This new form of management constitutes some workers as self auditing self regulating actors who are disembedded from a social context while defining others as too entwined in social relations and unable to self manage Privatizing Poland examines the effects privatization has on workers self concepts how changes in personhood relate to economic and political transitions and how globalization and foreign capital investment affect Eastern Europe s integration into the world economy Dunn investigates these topics through a

study of workers and changing management techniques at the Alima Gerber factory in Rzesz w Poland formerly a state owned enterprise which was privatized by the Gerber Products Company of Fremont Michigan Alima Gerber instituted rigid quality control job evaluation and training methods and developed sophisticated distribution techniques The core principle underlying these goals and strategies the author finds is the belief that in order to produce goods for a capitalist market workers for a capitalist enterprise must also be produced Working side by side with Alima Gerber employees Dunn saw firsthand how the new techniques attempted to change not only the organization of production but also the workers identities Her seamless engaging narrative shows how the employees resisted redefined and negotiated work processes for themselves

The Legacies of Totalitarianism Aviezer Tucker,2015-10-15 This book provides the first political theory of post Communist Europe discussing liberty rights transitional justice property privatization and rule of law **Making Capitalism Without Capitalists** Gil Eyal,Ivan Szelenyi,Eleanor R. Townsley,2000 Explores class formation and elite struggles in post communist Central Europe **Local Democracy And The Processes Of Transformation In East-central Europe** Harald Baldersheim,2019-04-10 This book focuses on one particular aspect of the post communist transformations in the East Central European countries In studying the local government reforms it evaluates achievements with the traditional yardsticks for local government performance democracy efficiency and autonomy Economic Reform and Employment Relations in Vietnam Ngan Thuy Collins,2009-09-10 This book surveys Vietnam s economic reforms since the start of the transition from socialist planning to market economy and in particular their impact on employment relations the transformation of which has been a key part of reforms and a necessary pre condition to Vietnam s entry to the WTO in 2006 Russia's Road to Democracy Victor Sergeyeu,1993-01-01 Russian democracy in the post totalitarian era is intimately bound up with the fate of its representative institutions In Russia s Road to Democracy Victor Sergeyeu and Nikolai Biryukov assess why the Congress of People s Deputies and the other newly elected institutions founded under perestroika not only failed to prevent but also seemed to speed up and provoke the disintegration of the Soviet Union By studying the early history of the Congress the book seeks insights on the prospects for democracy in Russia Following an inquiry into the roots of Soviet political culture and the implications for future representative institutions the book then examines the genesis of the Congress of People s Deputies and attempts a hermeneutical reconstruction of the deputies models of social reality as expressed in the texts of their parliamentary debates The authors argue that the adoption of the concept of sobornost a belief in society s organic unity as the basic model for this institution proved utterly inadequate to the challenges the country faced Including substantial new source material which is being made available in English for the first time Russia s Road to Democracy presents an in depth analysis with conclusions that contradict the hitherto prevailing theoretical assumptions **Multi-faced Transformations** Elena Danilova,Alina Zubkovych,2015-10-19 Multi faced Social Transformations Challenges and Studies brings together the proceedings of the 7th Slovenian Social Science Conference The

Challenges of Social Transformations held in September 2014 It was organized by the School of Advanced Social Studies SASS the Slovenian National Committee of the Management of Social Transformations programme MOST and the Slovenian National Commission for UNESCO The multidisciplinary contributions presented here analyse various aspects of the economic social and cultural transformations that accompany the contemporary globalized world The book consists of four sections dealing with particular areas of transformations These include a range of political economic and cultural dimensions that are observed from the macro level in social systems and structural changes to the micro level in aspects of individuals lives The book will be of interest for academics in the field of social sciences as well as for civil society activists and policy makers The frames of the transformations are not limited to the European space and provide a more global perspective

Markets in the Name of Socialism Johanna Bockman, 2011-07-26 Challenging conventional accounts *Markets in the Name of Socialism* chronicles a transnational dialogue among economists on both sides of the Iron Curtain about democracy socialism and markets These exchanges led to the transformations of 1989 and unintentionally the rise of neoliberalism

Post-Soviet Affairs ,1999 **Chances for Democracy in Europe** Mária Bordás, 2023-10-24 At the turn of Twenty First Century no one could have believed that by a decade later the prime minister of Hungary would roughly declare his political and government system as an illiberal democracy *Chances for Democracy in Europe The New Wave of Illiberalism in Post Communist Countries* explores the scenarios of building illiberal democracy as followed by Putin in Russia then how it spread in the post Communist Europe It will be showing how a full born illiberal democracy has unfolded in Hungary since 2010 during the last four Orb n governments and the similarities it shares with the Russian illiberal state If the Treaty of Maastricht that laid down democratic principles of the European Union has the sufficient political and legal tools to enforce them when they are not respected by the member states While the EU failed in this effort with Hungary it seems to be successful of a sort in Poland and Slovenia The author analyses why developed Western European countries with long traditions of democratic traditions and values have been resistant to illiberalism and remained strong liberal democracies but what about the countries without long traditions of democratic values **Current Politics and Economics of Russia, Eastern and Central Europe** ,2003

Eventually, you will enormously discover a other experience and expertise by spending more cash. nevertheless when? attain you put up with that you require to acquire those every needs as soon as having significantly cash?
