

CONTESTED RULES AND POLITICAL POSSIBILITIES

Problematic Sovereignty Contested Rules And Political Possibilities

Jiří Přibán

Problematic Sovereignty Contested Rules And Political Possibilities:

Problematic Sovereignty Stephen D. Krasner, 2001-02-22 Some of the most pressing issues in the contemporary international order revolve around a frequently invoked but highly contested concept sovereignty To what extent does the concept of sovereignty as it plays out in institutional arrangements rules and principles inhibit the solution of these issues Can the rules of sovereignty be bent Can they be ignored Do they represent an insurmountable barrier to stable solutions or can alternative arrangements be created Problematic Sovereignty attempts to answer these and other fundamental questions by taking account of the multiple sometimes contradictory components of the concept of sovereignty in cases ranging from the struggle for sovereignty between China and Taiwan to the compromised sovereignty of Bosnia under the Dayton Accord Countering the common view of sovereignty that treats it as one coherent set of principles the chapters of Problematic Sovereignty illustrate cases where the disaggregation of sovereignty has enabled political actors to create entities that are semiautonomous semi independent and or semilegal in order to solve specific problems stemming from competing claims to authority

New Thinking about the Taiwan Issue Jean-Marc F. Blanchard, Dennis V. Hickey, 2012-06-12 The Taiwan question has long been considered one of the most complicated and explosive issues in global politics In recent years however relations between Taiwan and the Chinese mainland have improved substantially to the surprise of many In this ground breaking collection distinguished contributors from the US Asia and Europe seek to go beyond the standard recitation of facts that often characterizes studies focusing on the Beijing Taipei dyad Rather they employ a variety of theories as well as both quantitative and qualitative methodologies to analyze the ebbs and flows of the Taiwan issue Their discussions clearly illuminate why there is a Taiwan Problem why conflict did not escalate to war between 2000 and 2008 and why cross Strait relations improved after 2008 The book further reveals the limits of realism as a device to gain traction into the Taiwan issue demonstrates the importance of taking into account domestic political variables and shows how theory can be used to advance the cause of better China Taiwan relations and to analyze the potential for future conflict over Taiwan New Thinking about the Taiwan Issue is essential reading not only for students scholars and practitioners with an interest in studying relations across the Taiwan Strait but also for any reader interested in economics international relations comparative politics or political theory

The Political Economy of WTO Implementation and China's Approach to Litigation in the WTO Yenkon Ngangjoh-Hodu, Zhang Qi, 2016-01-29 Why and how do states obey international law This engaging book tackles this very question head on via its examination of the conflicting and conciliating processes of the Chinese approach to litigation and the Western approach to legal orientation in the field of the WTO dispute settlement mechanism The authors examine the normative framework of WTO rule implementation in a globalised international economic order They further explore the notion of the rule of law in China's Confucian system and how it interacts with a rule based world trading system Topics discussed include theorising the WTO implementation regime the Chinese approach to law China and the WTO

dispute settlement system and Chinese Confucianism and compliance With its focus on international economic law and political science this book will be accessible to students policy makers practitioners and academics looking to understand China and the rule of law in a global context **Genocide and the Geographical Imagination** James A. Tyner, 2012-05-31 This groundbreaking book brings an important spatial perspective to our understanding of genocide through a fresh interpretation of Germany under Hitler Cambodia under the Khmer Rouge and China's Great Leap Forward famine under Mao James A Tyner's powerful analysis of these horrifying cases provides insight into the larger questions of sovereignty and state policies that determine who will live and who will die Specifically he explores the government practices that result in genocide and how they are informed by the calculation and valuation of life and death A geographical perspective on genocide highlights that mass violence in the minds of perpetrators is viewed as an effective and legitimate strategy of state building These three histories of mass violence demonstrate how specific states articulate and act upon particular geographical concepts that determine and devalue the moral worth of groups and individuals Clearly and compellingly written this book will bring fresh and valuable insights into state genocidal behavior The World Politics of Disco Elysium Vic Castro, Nicholas Kiersey, 2025-06-30 The World Politics of Disco Elysium analyzes the distinctive political claims and original arguments on a wide range of international political issues of the highly acclaimed Marxist video game Disco Elysium 2019 which takes place in a speculative fictional world anchored in a post Soviet Estonian perspective Disco Elysium 2019 has been repeatedly acclaimed as one of the best video games of all time This detective role playing game unfolds in a city ruined by a failed communist revolution and occupied by a foreign coalition Furthering recent work in International Relations and popular culture this book claims that the cognitive estrangement of speculative fiction can produce theoretical and political novelty beyond merely reflecting existing political dynamics By placing a metaphor for the Estonian capital Tallinn at the centre of a world Disco Elysium produces an estranged Estonian perspective on world politics that challenges dominant Anglo American views of International Relations while also undermining the opposition between a coherent West and a colonized Rest The contributors from International Relations and Cultural Studies discuss the game's claims on topics such as capitalism neo liberalism foreign intervention law enforcement fascism colonialism gender disability violence memory revolutionary politics the European Union political realism and international security The World Politics of Disco Elysium will be of great interest to students and scholars researching the politics of popular culture post Soviet politics non Western International Relations as well as game studies and cultural studies *Sovereignty in Post-Sovereign Society* Jiří Přibáň, 2016-03-09 Sovereignty marks the boundary between politics and law Highlighting the legal context of politics and the political context of law it thus contributes to the internal dynamics of both political and legal systems This book comprehends the persistence of sovereignty as a political and juridical concept in the post sovereign social condition The tension and paradoxical relationship between the semantics and structures of sovereignty and post sovereignty are

addressed by using the conceptual framework of the autopoietic social systems theory Using a number of contemporary European examples developments and paradoxes the author examines topics of immense interest and importance relating to the concept of sovereignty in a globalising world The study argues that the modern question of sovereignty permanently oscillating between de iure authority and de facto power cannot be discarded by theories of supranational and transnational globalized law and politics Criticising quasi theological conceptualizations of political sovereignty and its juridical form the study reformulates the concept of sovereignty and its persistence as part of the self referential communication of the systems of positive law and politics The book will be of considerable interest to academics and researchers in political legal and social theory and philosophy

Sovereign Defaults before International Courts and Tribunals Michael Waibel, 2011-05-26 International law on sovereign defaults is underdeveloped because States have largely refrained from adjudicating disputes arising out of public debt The looming new wave of sovereign defaults is likely to shift dispute resolution away from national courts to international tribunals and transform the current regime for restructuring sovereign debt Michael Waibel assesses how international tribunals balance creditor claims and sovereign capacity to pay across time The history of adjudicating sovereign defaults internationally over the last 150 years offers a rich repository of experience for future cases US state defaults quasi receiverships in the Dominican Republic and Ottoman Empire the Venezuela Preferential Case the Soviet repudiation in 1917 the League of Nations the World War Foreign Debt Commission Germany's 30 year restructuring after 1918 and ICSID arbitration on Argentina's default in 2001 The remarkable continuity in international practice and jurisprudence suggests avenues for building durable institutions capable of resolving future sovereign defaults

Sovereignty and the Denial of International Equality Xavier Mathieu, 2021-08-11 This book asks whether sovereignty can guarantee international equality by exploring the discourses of sovereignty and their reliance on the notions of civilisation and savagery in two historical colonial encounters the French explorations of Canada in the 16th century and the domestic troubles linked to the Wars of Religion Presenting the concept of civilised sovereignty Mathieu reveals the interplay between the domestic and external claims to sovereignty and offers a dynamic analysis of the theory and practice of the concept Based on extensive archival research this book provides an in depth intellectual picture of the theory and practice of sovereignty in early modern France by focusing on the discourses deployed by French political theorists Mathieu applies performativity in order to denaturalise these discourses of statehood and reveals how the domestic and international constructions of sovereignty feed into one another and equally rely on appeals to civilisation and savagery Overall the book questions the myth of sovereignty as equality and reflects on the persistence of this association despite the overwhelming empirical evidence that it institutes international hierarchies and inequalities Representing a major intervention in the existing IR debates about sovereignty this book will be a valuable resource for researchers working on issues of sovereignty and equality in IR

Unrecognized States in the International System Nina Caspersen, Gareth R. V. Stansfield, 2011

Unrecognized states are territories that have achieved de facto independence yet have failed to gain international recognition as independent states. These territories constitute anomalies in the international system of sovereign states and often present significant challenges to policy makers as evidenced by the war in Georgia and the continued debate over Kosovo's independence. This book draws on both theory and case studies to better understand the phenomenon of unrecognized states, demonstrating that the existence of such entities is less unusual than previously assumed. Moving away from an overt focus on case studies, the chapters present various themes that link the emergence, operations, and development of unrecognized states and assess how the established order of states responds to the challenges they present. How do unrecognized states interact with the international system of sovereign states? How does it shape their emergence, operations, and development? How do these entities develop in a context of non-recognition? Are we witnessing a new form of statehood, or are these entities better understood as states in waiting? What are the strategies available for dealing with unrecognized states? Could power sharing or autonomy provide a solution, or are more innovative strategies necessary? With contributions from leading scholars in a number of fields, this book will appeal not only to students and scholars of Political Science, International Relations, Geography, Area Studies, Sociology, and Conflict Resolution, but also to journalists, government bodies, and NGOs.

Designing Peace Neophytos Loizides, 2016-01-08 *Designing Peace* examines how institutional innovation impacts peace building in divided societies. Drawing on examples from Bosnia, South Africa, and Northern Ireland, the book demonstrates how institutional lessons from elsewhere could be applied to future negotiations in Cyprus and its broader region.

The Age of Revolutions in Global Context, c. 1760-1840 David Armitage, Sanjay Subrahmanyam, 2009-12-18 A distinguished international team of historians examines the dynamics of global and regional change in the late eighteenth and nineteenth centuries. Providing uniquely broad coverage encompassing North and South America, the Caribbean, Europe, Africa, the Middle East, South and Southeast Asia, and China, the chapters shed new light on this pivotal period of world history. Offering fresh perspectives on The American, French, and Haitian Revolutions, The break up of the Iberian empires, The Napoleonic Wars, The volume also presents ground-breaking treatments of world history from an African perspective, of South Asia's age of revolutions, and of stability and instability in China. The first truly global account of the causes and consequences of the transformative Age of Revolutions, this collection presents a strikingly novel and comprehensive view of the revolutionary era, as well as rich examples of global history in practice.

The New Global Law Rafael Domingo, 2010-02-26 The dislocations of the worldwide economic crisis, the necessity of a system of global justice to address crimes against humanity, and the notorious democratic deficit of international institutions highlight the need for an innovative and truly global legal system, one that permits humanity to re-order itself according to acknowledged global needs and evolving consciousness. A new global law will constitute by itself a genuine legal order and will not be limited to a handful of moral principles that attempt to guide the conduct of the world's peoples. If the law of nations served the hegemonic interests of Ancient Rome, and

international law served those of the European nation state then a new global law will contribute to the common good of all humanity and ideally to the development of durable world peace This volume offers a historical juridical foundation for the development of this new global law Whose Peace? Sarah Birgitta Kanafani von Billerbeck,2017 This book examines local ownership in UN peacekeeping and how national and international actors interact and share responsibility in fragile post conflict contexts

America, China, and the Struggle for World Order G. John Ikenberry,Zhu Feng,Wang Jisi,2015-07-22 This book brings together twelve scholars six Americans and six Chinese to explore the ways America and China think about international order The book shows how each country s traditions historical experiences and ideologies influence current global dialogues EU Security and Justice Law Diego Acosta Arcarazo,Cian C Murphy,2014-02-17 The coming into force of the Lisbon Treaty has provided the EU with new powers in the fields of criminal law and security law while reinforcing existing powers in immigration and asylum law The Stockholm Programme is the latest framework for EU action in the field of justice and home affairs It includes a range of new legislation in the fields of immigration and asylum substantive criminal law criminal procedure and co operation between national criminal justice systems The combination of the new treaty and programme have made security and justice key areas of legislative growth in the EU This volume brings together a range of leading scholars as well as some of the most interesting new voices in the debate to examine the state of EU security and justice law after the Lisbon Treaty and the Stockholm Programme It provides a critical examination of EU law in the fields of immigration asylum counter terrorism citizenship fundamental rights and external relations The book also examines the evolving roles of the EU institutions and criminal justice agencies It provides a critical account of EU law in this field under the developing constitutional and institutional settlement **Rethinking Global Governance** Justin Jennings,2023-05-09

This book argues that long ignored non western political systems from the distant and more recent past can provide critical insights into improving global governance These societies show how successful collective action can occur by dividing sovereignty consensus building power from below and other mechanisms For a better tomorrow we need to free ourselves of the colonial constraints on our political imagination A pandemic war in Europe and another year of climatic anomalies are among the many indications of the limits of global governance today To meet these challenges we must look far beyond the status quo to the thousands of successful mechanisms for collective action that have been cast aside a priori because they do not fit into Western traditions of how people should be organized Coming from long past or still enduring societies often dismissed as savages and primitives until well into the twentieth century the political systems in this book were often seen as too acephalous compartmentalized heterarchical or anarchic to be of use Yet as globalization makes international relations more chaotic long ignored governance alternatives may be better suited to today s changing realities Understanding how the Zulu Trypillian Alur and other collectives worked might be humanity s best hope for survival This book will be of interest both to those seeking to apply archaeological and ethnographic data to issues of broad contemporary concern and to academics

politicians policy makers students and the general public seeking possible alternatives to conventional thinking in global governance **Promoting Democracy and the Rule of Law** A. Magen,T. Risse,M. McFaul,2009-07-31 European and American experts systematically compare U S and EU strategies to promote democracy around the world from the Middle East and the Mediterranean to Latin America the former Soviet bloc and Southeast Asia In doing so the authors debunk the pernicious myth that there exists a transatlantic divide over democracy promotion **Offshore Finance and Small States** W. Vlcek,2008-07-11 One path towards development taken by a number of small jurisdictions is the establishment of an offshore financial centre This text analyses the actual economic contribution for several small Caribbean economies and the impact to continued operation arising from an international initiative for the exchange of taxpayer information

Independence Movements in Subnational Island Jurisdictions Eve Hepburn,Godfrey Baldacchino,2016-04-29 The dynamics for any moves for political independence in the 21st century are very different from those of the 20th The aspirations of former colonies to independence are grinding to a halt the rationale for selfdetermination is increasingly driven by strategic and pragmatic economic arguments and not so much by nationalist appeals Meanwhile creative governance fiscal vicissitudes and membership of supra national bodies have ushered in examples of sovereign states that approximate suzerain entities Are independence movements active today aspiring to a different kind of sovereignty from their 20th century predecessors one that secures autonomy at home but which maintains a special relationship with a larger richer country This collection critically reviews the origins policies and aspirations of independence movements from the world s subnational island jurisdictions where a distinct and separate geography tends to facilitate the emergence of an equally distinct political and cultural identity These island territories are the world s top candidates for achieving sovereign status And yet various factors are preventing them from making the final push towards independence This book was originally published as a special issue of Commonwealth and Comparative Politics *Humanitarian Intervention and the Responsibility to Protect* Cristina Badescu,2010-11-23 This book explores attempts to develop a more acceptable account of the principles and mechanisms associated with humanitarian intervention which has become known as the Responsibility to Protect R2P Cases of genocide and mass violence have raised endless debates about the theory and practice of humanitarian intervention to save innocent lives Since the humanitarian tragedies in Rwanda Burundi Bosnia Kosovo and elsewhere states have begun advocating a right to undertake interventions to stop mass violations of human rights from occurring Their central concern rests with whether the UN s current regulations on the use of force meet the challenges of the post Cold War world and in particular the demands of addressing humanitarian emergencies International actors tend to agree that killing civilians as a necessary part of state formation is no longer acceptable nor is standing by idly in the face of massive violations of human rights And yet respect for the sovereign rights of states remains central among the ordering principles of the international community How can populations affected by egregious human rights violations be protected How can the legal

constraints on the use of force and respect for state sovereignty be reconciled with the international community's willingness and readiness to take action in such instances And more importantly how can protection be offered when the Security Council which is responsible for authorizing the use of force when threats to international peace and security occur is paralyzed The author addresses these issues arguing that R2P is the best framework available at present to move the humanitarian intervention debate forward This book will be of interest to students of the responsibility to protect war and conflict studies human security international organisations security studies and IR in general

If you ally need such a referred **Problematic Sovereignty Contested Rules And Political Possibilities** ebook that will provide you worth, get the very best seller from us currently from several preferred authors. Problematic Sovereignty Contested Rules And Political Possibilities Introduction

In today's digital age, the availability of Problematic Sovereignty Contested Rules And Political Possibilities books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Problematic Sovereignty Contested Rules And Political Possibilities books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Problematic Sovereignty Contested Rules And Political Possibilities books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Problematic Sovereignty Contested Rules And Political Possibilities versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Problematic Sovereignty Contested Rules And Political Possibilities books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Problematic Sovereignty Contested Rules And Political Possibilities books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another

popular platform for Problematic Sovereignty Contested Rules And Political Possibilities books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Problematic Sovereignty Contested Rules And Political Possibilities books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Problematic Sovereignty Contested Rules And Political Possibilities books and manuals for download and embark on your journey of knowledge?

FAQs About Problematic Sovereignty Contested Rules And Political Possibilities Books

1. Where can I buy Problematic Sovereignty Contested Rules And Political Possibilities books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Problematic Sovereignty Contested Rules And Political Possibilities book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.

4. How do I take care of Problematic Sovereignty Contested Rules And Political Possibilities books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Problematic Sovereignty Contested Rules And Political Possibilities audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
