# Problems And Perspectives Of Fundamental Theology

**René Latourelle, Gerald O'Collins**

## **Problems And Perspectives Of Fundamental Theology:**

*Problems and Perspectives of Fundamental Theology* René Latourelle, Gerald O'Collins, 1982 Nineteen scholars assess contemporary fundamental theology To locate and define their field a team of international experts address four kinds of problems 1 problems of identity and method the nature of fundamental theology in historical and in systematic perspective 2 questions of hermeneutics 3 Christological approaches 4 problems of ecclesiology No other work in any language provides such an extensive in depth account of the tasks and future possibilities for fundamental theology It is an indispensable aid for understanding the revolutionary development which this discipline has undergone before during and after the Second

Vatican Council **A History of Apologetics** Avery Dulles, 2018-08-22 Making the case for the Christian faith apologetics has always been part of the Church's mission Yet Christians sometimes have had different approaches to defending the faith responding to the needs of their respective times and framing their arguments to address the particular issues of their day Cardinal Avery Dulles's *A History of Apologetics* provides a masterful overview of Christian apologetics from its beginning in the New Testament through the Middle Ages and on to the present resurgence of apologetics among Catholics and Protestants Dulles shows how Christian apologists have at times both criticized and drawn from their intellectual surroundings to present the reasonableness of Christian belief Written by one of Catholicism's leading American theologians *A History of Apologetics* also examines apologetics in the 20th and early 21st centuries including its decline among Catholics following Vatican II and its recent revival as well as the contributions of contemporary Evangelical Protestant apologists Dulles also considers the growing Catholic Protestant convergence in apologetics No student of apologetics and contemporary theology should be without this superb and masterful work **The Westminster Dictionary of Christian**

**Theology** Alan Richardson, John Bowden, 1983-01-01 The Westminster Dictionary of Christian Theology is an important reference for any pastor scholar or student of theology The articles are clearly written historically informative and conceptually clarifying The entries are arranged alphabetically for ease of use **On Divine Revelation: The Teaching of the Catholic Faith Vol. One** Fr. Reginald Garrigou-Lagrangé, 2022-05-27 In *On Divine Revelation* one of Garrigou-Lagrangé's most significant works here available in English for the very first time he offers a classic treatment of this foundational topic It is an organized and thorough defense of both the rationality and supernaturality of divine revelation He presents a careful yet stimulating account of the scientific character of theology the nature of revelation itself mystery dogma the grace of faith the powers of human reason false interpretations thereof rationalism naturalism agnosticism and pantheism the motives of credibility and much more Though written a century ago *On Divine Revelation* will restore confidence in theology as a distinct and unified science and return focus to the fundamental questions of the doctrine of revelation It also serves as a salutary corrective to contemporary theology's anthropocentrism and concern with what is relative in revelation and religious experience by reorienting our theological attention to what is most certain central and sure in our knowledge of

divine revelation the Triune God who has revealed his inner life and salvific will Readers will see the great splendor of the gift of divine revelation radiant with credibility before the gaze of reason and drawing our supernatural assent to the mysteries through the gift of faith As Fr Cajetan Cuddy O P observes On Divine Revelation is a stunning work of inestimable value No other subsequent work on this topic has come close to meeting it much less surpassing it

**Reconstructing Theology** Terence Bateman, 2014 Francis Schussler Fiorenza is one of the pivotal contemporary Roman Catholics working in the field of systematic theology and has made vital contributions to the discipline This book the first of its kind provides an overview of Fiorenza's theological biography from early influences and original insights to a comprehensively systematic project to reconstruct the foundations of theology and explicates the major contours of Fiorenza's vital contributions to theological method foundational systematic and constructive theology and the practical function of religion in society and politics As the author argues Fiorenza's vision is one of unrivaled clarity and coherence even more it follows a path of the shifting patterns in theology over the past half century thus shedding light upon the internal constitution of recent Catholic and Protestant theology

**American Theological Inquiry, Volume Two, Issue One** Gannon Murphy, 2009-01-15 American Theological Inquiry ATI was formed in 2007 by Drs S Gannon Murphy PhD St David's College Univ Wales Theology Presbyterian Reformed and Stephen Patrick PhD Univ Illinois Philosophy Eastern Orthodox to open up space for diverse Christian academicians who affirm the Ecumenical Creeds to share research throughout the broader Christian scholarly community in America ATI reaches thousands of Christian scholars throughout the United States particularly specialists in theology Though ATI is a new journal scholars who publish with ATI benefit from exposure to a vast non insular network of one of the broadest Christian academic communities possible

*Theology in Search of Foundations* Randal Rauser, 2009-08-20 A pithy account of theological rationality justification and knowledge that avoids the twin pitfalls of modern rationalism and postmodern irrationalism This lively and accessible survey debates with the ideas of key theological and philosophical thinkers past and present providing a fresh understanding of theology as a discipline

**Liturgy as Revelation** Philip Caldwell, 2014 This volume argues that in the twentieth century Catholic theology increasingly recognized the centrality of Christology particularly the person of Christ as the locus of revelation and drew out the crucial implications for that which occurs within the space of liturgy and the sacraments Examining the specific contributions of Ren Latourelle Avery Dulles Salvatore Marsilli and Gustave Martelet against a background of pre conciliar ressourcement theology this volume provides a comprehensive account of why a Trinitarian and Christological construal of liturgy and sacraments as revelation is key to the vision that informed Vatican II and offers constructive theological and ecclesial possibilities for the future

*Retrieving Apologetics* Glenn B. Siniscalchi, 2016-01-07 Given the pope's recent statements of their desires to implement the New Evangelization it is imperative that Catholic theologians and other intellectually engaged laypersons retrieve the vital discipline of apologetics For the New Evangelization places particular emphasis on repropounding the Gospel

to those who have experienced a crisis of faith due to secularization One salient method of Catholic apologetics used to be characterized by three demonstrations each of which assumes the conclusions established in the previous step s Some might think that this classical method of apologetics has been abandoned in the postconciliar Church but Siniscalchi s book updates it Unlike the classical apologetics of the preconciliar era Siniscalchi engages contemporary scholarship in a variety of academic disciplines such as philosophy history biblical studies sociology and theology to develop the steps that are necessary for showing the reasonableness of faith *The Cambridge Encyclopedia of the Jesuits* Armstrong, Megan and Corkery, James , SJ, and Fleming, Alison and Worcester, Thomas SJ Prieto, Andrés Ignacio Shea, Henry , SJ, **The Primacy of God: The Virtue of Religion in Catholic Theology** R. Jared Staudt, 2022-02-08 To contemporary minds the notion of justice toward God is seldom considered and often foreign Far more discussed is how God might either undermine or motivate social justice The Primacy of God by R Jared Staudt offers an important intervention With the aid of St Thomas Aquinas Staudt argues that it is vital for both contemporary society and contemporary Catholic theology to return to the traditional view of God as the one to whom all human and social action must be ordered and to recover the virtue of religion as the virtue which orders all other virtues to God Not only does Staudt helpfully remind readers of the ancient philosophical and biblical notion of worship as a dictate of the natural law he also illuminates the way in which Christian liturgy as an enactment of Christ s high priesthood is the great fulfillment of natural and biblical worship Accordingly Staudt secures religion as essential for the virtue of love This brings Staudt to criticize modern theologians like Karl Barth who claimed that religion is inherently idolatrous as well as Karl Rahner who claimed that love of neighbor is the highest moral act Staudt also considers the question of religious truth in light of the plurality of religions soliciting the assistance of Hans Urs von Balthasar and Joseph Ratzinger as well as the way in which religion relates to the development of culture engaging the great Catholic social historian Christopher Dawson The Primacy of God is a much needed work that ought to set the agenda for Catholic theology in the twenty first century *The Church We Believe in* Francis A. Sullivan, Francis Aloysius Sullivan, 1988 An ecclesiology textbook establishing theological grounds for ecumenism **The Encyclopedia of Christianity** Erwin Fahlbusch, Geoffrey William Bromiley, 1999 The Encyclopedia of Christianity is the first of a five volume English translation of the third revised edition of Evangelisches Kirchenlexikon Its German articles have been tailored to suit an English readership and articles of special interest to English readers have been added The encyclopedia describes Christianity through its 2000 year history within a global context taking into account other religions and philosophies A special feature is the statistical information dispersed throughout the articles on the continents and over 170 countries Social and cultural coverage is given to such issues as racism genocide and armaments while historical content shows the development of biblical and apostolic traditions This comprehensive work while scholarly is intended for a wide audience and will set the standard for reference works on Christianity Outstanding reference sources 2000 American Libraries May 2000 Comp by the Reference Sources

Committee RUSA ALA      *Catholic Thought Since the Enlightenment* Aidan Nichols, 1998      *The Three Dynamisms of Faith* Louis Roy, 2017-12-15 Fr Roy shows how The Three Dynamisms of Faith are lived in today's culture and how they are systematically related sometimes in alliance and sometimes in apparent opposition Having led the reader to a plausible answer to the human condition in Catholicism in his final chapter he discusses some classic issues that result possible tensions between meaning and truth between feelings and insight and about the role of religious experience in becoming attuned to Christian revelation      **Francis A. Sullivan, S.J. and Ecclesiological Hermeneutics** Michael M. Canaris, 2016-09-27 In Francis A Sullivan S J and Ecclesiological Hermeneutics Canaris traces the significant contributions that Francis A Sullivan S J has made to Catholic ecclesiology paying particular attention to the method and application of his hermeneutical approach to the writings of the magisterium Though highly esteemed by professional theologians in both Catholic and ecumenical circles Sullivan is less well known among general audiences than many of his peers The author addresses this lacuna by arguing that Sullivan's work when viewed through an interpretive lens can aid the faithful to engage seriously with magisterial texts of various genres and levels of authority find meaning within them and encourage an active reception process whereby contemporary understanding of the teaching and learning role of the entire church becomes possible      **The Christology of John Macquarrie** Vernon L. Purdy, 2009 The Christology of John Macquarrie comprehensively scrutinizes the life and writings of Scottish born systematic theologian and philosopher John Macquarrie 1919-2007 in an attempt to comprehend and evaluate his Christology The author examines the people e.g. Heidegger Schleiermacher the philosophical and theological positions and the writings that formed Macquarrie's thinking One major influence was his commitment to modern critical theology including the premise that in the modern world the only acceptable Christological tenets are those that can stand up to the scrutiny of modern critical reasoning The work concludes that this commitment profoundly shaped Macquarrie's theology especially his Christology The book also discusses Macquarrie's evaluation and criticisms of the Christology of other theologians e.g. Kierkegaard Moltmann Pannenberg and others concluding that Macquarrie's understanding of the Christian faith and the person of Jesus Christ is consonant with modern liberal Anglo Catholicism This idea furthers the argument that Macquarrie's reluctance to accept traditional incarnational categories suggests that his Christology is a modern form of Adoptionism      **New Dictionary of Theology: Historical and Systematic (Second Edition)**, 2016-04-21 Since its first publication in 1988 the New Dictionary of Theology has been widely appreciated by students and readers as a trustworthy and informative guide After almost thirty years however there are many new writers issues and themes on the agenda for theology does not stand still Hence this completely revised second edition includes over 400 new articles in the full set of over 800 Many of the original articles have been expanded and updated and almost all have additional bibliographical references Since material on biblical theology is now covered at length in IVP's New Dictionary of Biblical Theology this volume is therefore more specifically a dictionary of

historical and systematic theology The New Dictionary of Theology Historical and Systematic has an international team of contributors and many are acknowledged experts in their fields The Dictionary combines excellence in scholarship with a high standard of clarity and insight into current theological issues yet it avoids being unduly technical Students teachers and ministers as well as scholars and everyone seeking a better understanding of theology will value it as an indispensable reference work The volume is enhanced by a spacious and clear design an extensive and easy to use cross reference system and bibliographies which feature the best and most readily available works in English     Foundations of Contemporary Interpretation V. Philips Long, Richard A. Muller, Vern S. Poythress, 1996 This one volume edition of the Foundations of Contemporary Interpretation series explores current issues in the interpretation of the Bible from the perspective of specific academic disciplines history literary criticism science and theology     The Study of Theology Richard A. Muller, 1991 The Study of Theology address two major concerns the place of biblical hermeneutics and practical theology The author discusses the hermeneutical implications of biblical historical systematic and practical theology and presents a case for the relationship between exegesis and the other theological disciplines However the relationship between hermeneutics and practical theology is also essential According to the author the traditional forms of theology and preaching frequently fail the tests of exegesis and contemporary theologizing while at the same time most contemporary theology and exegesis fails to address directly the needs of the church Muller presents a case for the structure of hermeneutics and argues that it is essential to the church because theological training as a whole ought to reflect the life of the church and be of value to the life of the church

Eventually, you will very discover a other experience and talent by spending more cash. yet when? complete you take that you require to acquire those all needs later having significantly cash? Why dont you attempt to get something basic in the beginning? Thats something that will lead you to understand even more approaching the globe, experience, some places, past history, amusement, and a lot more?

It is your certainly own mature to work reviewing habit. in the middle of guides you could enjoy now is **Problems And Perspectives Of Fundamental Theology** below.
