Problems In Contract Law:

Problems in Contract Law Charles L. Knapp, Nathan M. Crystal, Harry G. Prince, 1999 PROBLEMS IN CONTRACT LAW Cases and Materials has always been a favorite of first time Contracts teachers. By combining contemporary theory and problems with more traditional cases and notes, this successful casebook has become the choice of a wide range of professors. This eagerly awaited revision introduces new co-author H. G. Prince and a host of new material while it retains the intellectual integrity of previous editions. This extremely teachable casebook draws praise for its exceptionally engaging problems that mesh with cases, notes, and questions to hold student interest; integration of contemporary contract theory such as feminist law and economics; and other viewpoints. Balanced structure and organization that allows the book to be comprehensive without overwhelming students. Companion Rules Supplement, outstanding Teacher's Manual with sample syllabi, teaching points keyed to specific pages, answers to many of the problems and questions keyed to case summaries. To keep the book fresh and current, this Fourth Edition features updated problems, cases, and references; expanded coverage of promissory estoppel; greater discussion of Alternative Dispute Resolution as it relates to contract law. For your next Contracts course, consider the book that is firmly positioned where scholarship meets practice. PROBLEMS IN CONTRACT LAW Cases and Materials Fourth Edition

Access also includes practice questions, an outline tool, and other helpful resources. Connected eBooks provide what you need most to be successful in your law school classes. Problems in Contract Law Cases and Materials Concise Edition is a comprehensive, modern, and accessible casebook specifically designed for use in three- and four-credit, one-semester Contracts courses. Following the same organization and scope of coverage of the authors' successful unabridged casebook, this Concise Edition streamlines coverage of the Uniform Commercial Code (UCC) and revises cases and notes to sharpen the focus on the core principles of contract law so that professors can cover all of the material in one semester. Well known for approaching contract law and theory from multiple perspectives and using a variety of contractual settings, the text includes cases with notes and explanatory text, additional commentary, essay and short answer problems, and multiple choice review questions for each chapter. The cases selected are a balance of traditional and contemporary that reflect the development and complexity of contract law. Explanatory notes and text place the classic and newer decisions in their larger legal context. Questions and problems provide opportunities to practice core legal skills and encourage students to explore the relationship of theory and practice. Adaptable for instructors with different pedagogical philosophies, Problems in Contract Law Concise Edition can easily be used in teaching by traditional case analysis, through problem-based instruction, or using theoretical inquiry. Professors and students will benefit from the authors' emphasis on making the material accessible for both students taking

and professors teaching the course rejecting a hide the ball approach The continued appeal to professors with various teaching methodologies traditional problem oriented theoretical and practical The comprehensive nature of the contents which allows professors the flexibility to teach their students the basics or conduct a more in depth analysis of a given topic The continued mixture of classic and contemporary cases Review questions at the end of each chapter that are primarily designed for students to perform self assessments of their grasp of the material Answers with explanations are included in an appendix within the book
