Restructuring Eastern Europe Soumitra

Sharma,1997-01-01 Special attention is paid to the roles of corporate governance technological integration the role of environmental and regional policies and the reform of the banking system Experimenting With Democracy Tom Gallagher,Geoffrey Pridham,2012-10-12 The chronic instability in the Balkan States of South East Europe has prevented the end of the Cold War becoming an era of genuine peace in Europe Against a background of competing nationalisms economic decline the resilience of authoritarianism it is easy to forget that there have been experiments with democracy have taken place since 1990 with relative success Now for the first time the region is genuinely engaging with open politics its outcome will determine whether the Balkans can cease being a byword for instability and an area whose shock waves have disturbed the peace of Europe on many occasions Democratisation in the Balkans explores the obstacles impeding the consolidation of democracy and even preventing a state like Serbia from going very far down the democratic road Social scientists with expert knowledge of each of the Balkan states and their political and economic systems examine why progress in building free institutions has been slow compared to that of Central Europe the Iberian peninsula and Latin America *European Foreign Policy and the Challenges of Balkan Accession* Gergana Noutcheva,2012 European Foreign Policy and the Challenges of Balkan Accession analyses the EU s influence in the Balkans It studies the compliance responses of the Balkan countries to the EU s pre accession conditions and how these responses have been affected by domestic views of the overall purpose of the EU s policy in the region The book offers an explanation of how the statehood of a would be EU member affects the policy and politics of conditionality at the EU level and the politics of compliance at domestic level The book will be **Economies in Transition** Ian Jeffries,2013-05-13 This volume provides an in depth review of major economic developments in those economies which are in some stage of transition following the collapse of communism in the Eastern block The book is divided into four parts theoretical issues in the transition from command to market economies the events in the fifteen independent countries of the former Soviet Union Eastern Europe non European states In all the author chronicles events from 1993 to 1995 in thirty five countries Economic developments are set in their political context and presented chronologically as far as possible A Guide to the Economies in Transition carries on where Ian Jeffries previous book left off The work is entirely new and as such can be seen as a companion to the earlier title These books are becoming known as invaluable guides providing unique levels of reference in work of this type **Explaining Yugoslavia** John B. Allcock,2000 Traversing the politics economics demography and culture of the former Yugoslavia John B Allcock examines and makes sense of the region s troubled past and troubling present Though many think of the Balkans as a uniquely troubled region the author asserts that the continuities in Balkan history constitute the same processes of development that have occurred in other societies and are part of the ongoing process of global modernization *European Integration and Transformation in the Western Balkans* Arolda Elbasani,2013-09-02 The book investigates the scope and limitations of the transformative power of EU enlargement in the Western Balkans The extension of EU enlargement policy to the region has

generated high expectations that enlargement will regulate democratic institution building and foster reform much as it did in Central and Eastern Europe. However, there is very little research on whether and how unfavourable domestic conditions might mitigate the transformative power of the EU. This volume investigates the role of domestic factors identifying stateness as the missing link between the assumed transformative power of the EU and the actual capacity to adopt EU rules across the region. Including chapters on Croatia, Serbia, Macedonia, Albania, Kosovo, and Bosnia Herzegovina, leading scholars in the field offer up-to-date comparative analysis of key areas of institutional and policy reform, including state bureaucracy, rule of law, electoral management, environmental governance, cooperation with the International Court of Justice, economic liberalization, and foreign policy. Looking to the future and the implications for policy change, European Integration and Transformation in the Western Balkans provides a new theoretical and empirical focus on this little understood area. The book will be of interest to scholars and students of EU politics, comparative democratisation, post-communist transitions, and Balkan area studies.

Living in the Ottoman Lands: Identities, Administration and Warfare Burhan Çağlar, Ömer Faruk Can, Hacer Kılıçaslan, 2021-03-01. The long and elaborate past of the Ottoman Empire encompassing a wide geographical area presents a mosaic of knowledge and acquisition of experience. Upon this complicated and plural nature, Ottoman history looks like a puzzle that requires a wealth of skills and approaches to decipher. The foremost step to achieve this sophisticated task is to go beyond the borders of formalistic narratives and gain a multiplicity of perspectives through collaborative studies. This book is one of the outputs of such cooperation toward a more comprehensive Ottoman historiography. The first part, entitled Religious Identities, Intercommunal Relations, and Social Life, focuses on the communal structure of the Ottoman society. In this part, the transformation of the multilingual, multi-ethnic, and multi-religious empire and of the world around it is discussed on the basis of changes in social and administrative structures. The second part, Administration and Business in the Center or Periphery, consists of the studies on the administrative instruments of the political and economic reforms in the 19th-century Ottoman world and the way these instruments reshaped market mechanisms. The third part, entitled Personal Documents, Public Prints, and Medical Approaches, contains articles on personal narratives, diaries, travel notes, and the Ottoman press. The final part, which discusses the military and geopolitical strategies that the Ottoman Empire followed throughout its journey from a principality to an empire, is entitled Warfare and Intelligence. In the book, a panorama of the empire's lifestyle is manifested, and the course of history is outlined from various perspectives. It analyses the story of the Ottomans based on various personal, communal, social, economic, and military affairs.
