R. Ammerman, 1962 Living Issues in Philosophy Harold Hopper Titus, 1970 Analysis and Metaphysics Keith Lehrer, 2012-12-06 AND BIOGRAPHICAL SKETCH This collection of essays in honor of Roderick M Chisholm is the work of his former students The book was conceived and the original con tributors invited by Richard Taylor We restricted the contributors to former students of Chisholm as a special tribute to his acknowledged as a teacher of philosophy The profundity of his contributions to genius epistemology and metaphysics are acknowledged throughout the phil osophical world Those who have been present at his lectures and semi nars who have been incited to philosophical cerebration by the clarity and precision of his exposition know that his impact on contemporary philosophy far exceeds the influence of the written word It is we think appropriate that his students should reserve for themselves the privilege of honoring Chisholm in this way as his 60th birthday draws near The tribute paid to Chisholm in Taylor's essay conveys a personal impression I shall consequently refrain from personal reminiscence here and instead mention some of the highlights of an illustrious life Chisholm was born on November 27 1916 in North Attleboro Massachu setts He married Eleanor F Parker in 1943 and raised three children with her He received an A B from Brown in 1938 a Ph D from Harvard in 1942 and served in the U S Army from 1942 to 1946 God, Truth, and Reality Arvind Sharma, 2011-08-25 All arts and sciences in their own way ultimately try to come to grips with reality What sets philosophy theology and religion apart is that they grapple with ultimate reality Over the decades spanned by John Hick's life in the course of this grappling reminiscent of Jacob's nocturnal encounter with the angel philosophy became analytic theology dialogical and religion comparative along one line of development In these essays written in honour of Professor Hick leading world scholars in these fields share their most recent insights They are so to speak postcards from the cutting edge **Illocutionary Acts and Sentence Meaning** William P. Alston, 2015-08-01 What is it for a sentence to have a certain meaning This is the question that the distinguished analytic philosopher William P Alston addresses in this major contribution to the philosophy of language His answer focuses on the given sentence s potential to play the role that its speaker had in mind what he terms the usability of the sentence to perform the illocutionary act intended by its speaker Alston defines an illocutionary act as an act of saying something with a certain content He develops his account of what it is to perform such acts in terms of taking responsibility in uttering a sentence for the existence of certain conditions In requesting someone to open a window for example the speaker takes responsibility for its being the case that the window is closed and that the speaker has an interest in its being opened In Illocutionary Acts and Sentence Meaning Alston expands upon this concept creating a framework of five categories of illocutionary act and going on to argue that sentence meaning is fundamentally a matter of illocutionary act potential that is for a sentence to have a particular meaning is for it to be usable to perform illocutionary acts of a certain type In providing detailed and explicit patterns of analysis for the whole range of illocutionary acts Alston makes a unique contribution to the field of philosophy of language one that is likely to generate debate for years to come **Perceiving God** William P. Alston, 2014-01-24 In this

clear and provocative account of the epistemology of religious experience William P Alston argues that the perception of God his term for direct experiential awareness of God makes a major contribution to the grounds of religious belief Surveying the variety of reported direct experiences of God Alston demonstrates that a person can be justified in holding certain beliefs about God on the basis of mystical experience **The Problem of the Criterion** Robert Amico, 1995-03-28 Selected by CHOICE as an Outstanding Academic Book for 1995 The Reliability of Sense Perception William P. Alston, 2018-07-05 Why suppose that sense perception is an accurate source of information about the physical environment More generally is it possible to demonstrate that our basic ways of forming beliefs are reliable In this book a leading analytic philosopher confronts this classic problem through detailed investigation of sense perception the source of beliefs in which we place the most confidence Carefully assessing the available arguments William P Alston concludes that it is not possible to show in any noncircular way that sense perception is a reliable source of beliefs Alston thoroughly examines the main arguments that have been advanced for the reliability of sense perception including arguments from the various kinds of success we achieve by relying on the sense perception arguments that some features of our sense experience are best explained by supposing that it is an accurate guide and arguments that there is something conceptually incoherent about the idea that sense perception is not reliable He concludes that all of these arguments that are not disqualified in other ways are epistemically circular for they use premises based upon the very source in guestion Alston then suggest that the most appropriate response to the impossibility of showing that our basic sources of beliefs are reliable is an appeal to the practical rationality of engaging in certain socially established belief forming practices The Reliability of Sense Perception will be welcome by epistemologists cognitive scientists and philosophers of science **Divine Nature and Human Language** William P. Alston, 2020-08-28 Divine Nature and Human Language is a collection of twelve essays in philosophical theology by William P Alston one of the leading figures in the current renaissance in the philosophy of religion Using the equipment of contemporary analytical philosophy Alston explores partly refashions and defends a largely traditional conception of God and His work in the world a conception that finds its origins in medieval philosophical theology These essays fall into two groups those concerned with theological language Part 1 of the volume and those that deal with the nature status and activity of God Parts II and HI In Part 1 Alston develops a conceptual scheme for discussing the topic of theological language He also argues that there is a core of literal talk about God and even a core of predicates univocally applicable to God and creatures Furthermore he shows that God can be referred to directly as well as descriptively In Parts II and III the author sketches out a middle way between a classical conception of God exemplified by Aguinas and the more recent process or panentheist conception exemplified by Hartshorne Alston argues that such a God can act so as to have real effects in the world and can enter into genuine dialogue and otherwise interact with human beings In addition he defends the idea that God provides a foundation for morality The first collection of Alston's ground breaking work in the philosophy of religion Divine Nature and

Goldman, Jaegwon Kim, 2013-03-09 This Festschrift seeks to honor three highly distinguished scholars in the Department of Philosophy University of Michigan William K Frankena Charles L Stevenson and Richard B Brandt Each has made significant con tributions to the philosophic literature particularly in the field of ethics Michigan has been fortunate in having three such original and productive moral philosophers serving ob its faculty simultaneously Yet they stand in a long tradition of excellence both within the Department and in the University Let us trace that tradition briefly The University of Michigan opened in 1841 lts Department of Literature Science and the Arts at first resembled a typical American college ofthat period with religious and ethical indoctrination playing a central role in course offerings But when Henry Tappan a Presbyterian clergyman and Professor of philosophy became President in 1852 he succeeded in shifting the emphasis from indoctrination to inquiry and scholarship Though he was dismissed for his policies in 1863 Tappan's efforts to establish a broad and liberal curriculum prevailed Michigan was to take its place among the leading educational institutions in this country and to achieve an international reputation as a research center Several past philosophers are worthy of mention here George Sylvester Morris an absolute idealist joined the Department in 1881 having served from 1870 as Chairman of the Department of Modern Languages and Literature He assumed the Chairmanship of Philosophy in 1884 The Calendar University of Calcutta, 1916 Epistemic Justification William P. Alston, 1989 Epistemic Justification collects twelve distinguished and influential essays in epistemology by William P Alston taken from a body of work spanning almost two decades They represent the gradual development of Alston's thought in epistemology He concentrates on topics that are central to contemporary epistemology and provides a much needed and useful map to these issues be explicitly

distinguishing and interrelating concepts of justification used in epistemology More important he develops and defends his own distinctive epistemic view throughout the volume Notably he argues for an account of justification that combines both internalist and externalist features In addition he discusses various forms of foundationalism and supports a moderate form Finally Alston demonstrates that the epistemic circularity that often plagues our attempts to validate our basic sources of belief does not prevent our showing that they are reliable sources of knowledge
