Problems of Religious Pluralism John Harwood Hick, 1985-10-07 **Problems of Religious Pluralism** John PROBLEMS OF RELIGIOUS PLURALISM. J. HICK, Problems of Religious Pluralism John Hick, 1985-10-07 Hick, 1985 Whose Religion is it Anyway? Hyun-Jong Kim, 2000 The Political Problem of Religious Pluralism Thaddeus J. Kozinski, 2012-07-10 In contemporary political philosophy there is much debate over how to maintain a public order in pluralistic democracies in which citizens hold radically different religious views The Political Problem of Religious Pluralism deals with this theoretically and practically difficult issue by examining three of the most influential figures of religious pluralism theory John Rawls Jacques Maritain and Alasdair MacIntyre Drawing on a diverse number of sources Kozinski addresses the flaws in each philosopher's views and shows that the only philosophically defensible end of any overlapping consensus political order must be the eradication of the ideological pluralism that makes it necessary In other words a pluralistic society should have as its primary political aim to create the political conditions for the communal discovery and political establishment of that unifying tradition within which political justice can most effectively be obtained Kozinski s analysis though exhaustive and rigorous still remains accessible and engaging even for a reader unversed in the works of Rawls Maritain and MacIntyre Interdisciplinary and multi thematic in nature it will appeal to anyone interested in Deep Religious Pluralism David Ray Griffin, 2005-01-01 A groundbreaking the intersection of religion politics and culture scholarly work Deep Religious Pluralism is based on the conviction that the philosophy articulated by Alfred North Whitehead encourages not only religious diversity but deep religious pluralism Arising from a 2003 Center for Process Studies conference at Claremont Graduate University this book offers an alternative to the version of religious pluralism that has dominated the recent discussion especially among Christian thinkers in the West which has evoked a growing call to reject pluralism as such Renowned contributors of a diversity of faiths include Steve Odin John Shunji Yakota Sandra B Lubarsky Jeffery D Long Mustafa Ruzgar Christopher Ives Michael Lodahl Chung ying Cheng Wang Shik Jang and John B Cobb Jr

engaging even for a reader unversed in the works of Rawls Maritain and MacIntyre Interdisciplinary and multi thematic in nature it will appeal to anyone interested in the intersection of religion politics and culture John Hick's Pluralist Philosophy of World Religions Paul R. Eddy, 2015-06-22 According to John Hick's model of religious pluralism all the world's great religions present equally valid ways of understanding and responding to the same ultimate Reality This book offers an exposition of and critical response to Hick's model Following an introductory chapter that surveys dominant approaches to religious diversity the rise and development of Hick's pluralist interpretation of religions is traced Finally a critical assessment of Hick's mature pluralist model is offered The conclusion Hick's model is ultimately unsuccessful in overcoming the pluralist s most difficult conceptual problem namely providing an adequate account of the fact that the world s religions understand the divine Reality in often contradictory ways Ultimately Hick's own solution threatens two of his long cherished goals a robust religious realism and a tradition neutral religious pluralism **Problems of Religious Diversity** Paul J. Griffiths, 2015-02-23 Exploring Religious Diversity analyzes the philosophical questions raised by the fact that many religions in the world often appear to contradict each other in doctrine and practice Analyzes the philosophical questions raised by the fact that many religions in the world often appear to contradict each other in doctrine and practice Evaluates the fundamental philosophical underpinnings of the debates between religious and non religious approaches to religious diversity Contains a glossary that defines the book s key technical terms and how they are related to one another **Pluralism** Giuseppe Giordan, Enzo Pace, 2014-07-08 This volume illustrates both theoretically and empirically the differences between religious diversity and religious pluralism It highlights how the factual situation of cultural and religious diversity may lead to individual social and political choices of organized and recognized pluralism In the process both individual and collective identities are redefined incessantly moving along the continuum that ranges from exclusion to inclusion The book starts by first detailing general issues related to religious pluralism It makes the case for keeping the empirical the normative the regulatory and the interactive dimensions of religious pluralism analytically distinct while recognizing that in practice they often overlap It also underlines the importance of seeking connections between religious pluralism and other pluralisms Next the book explores how religious diversity can operate to contribute to legal pluralism and examines the different types of church state relations eradication monopoly oligopoly and pluralism The second half of the book features case studies that provide a more specific look at the general issues from ways to map and assess the religious diversity of a whole country to a comparison between Belgian French views of religious and philosophical diversity from religious pluralism in Italy to the shifting approach to ethnic and religious diversity in America and from a sociological and historical perspective of religious plurality in Japan to an exploration of Brazilian religions old and new The transition from religious diversity to religious pluralism is one of the most important challenges that will reshape the role of religion in contemporary society This book provides readers with insights that will help them better understand and interpret this unprecedented transition

God-Relationships With and Without God J Kellenberger, 2016-01-01 **Kierkegaardian Reflections on the Problem** of Pluralism Aaron Fehir, 2015-09-17 S ren Kierkegaard's Christian existentialism provides a unique framework for thinking about the problem of religious pluralism This problem arises from the fact that there are lots of different religions in the world and each of them teaches different things Accordingly it is difficult to know which one if any ought to be believed in as actually being true Fehir defends his view of Kierkegaard's understanding of faith and uses it to deal with common philosophical problems related to pluralism In the course of advancing this argument Kierkegaardian Reflections of the Problem of Pluralism also engages in interreligious dialogue by comparing Kierkegaard's views with representatives from **Problems in the Philosophy of Religion** Harold Hewitt Jr, 2016-07-27 In 1989 John Buddhism Judaism and Taoism Hick published his Gifford Lectures under the title An Interpretation of Religion a work which provided important new insights about the nature of the world's religions Soon after a group of scholars from around the world gathered in Claremont California to discuss analyze and criticize An Interpretation of Religion This book is a written record of those proceedings including Hick's responses that serves to clarify both Hick's position as well as the issues which concern his The Centrality of Christ in Contemporary Missions Mike Barnett, Michael Pocock, 2005 critics Christians and Religious Pluralism in Christian and Islamic Philosophy Adnan **Religious Pluralism** Alan Race, 1983 Aslan, 2013-01-11 The philosophy of religion and theology are related to the culture in which they have developed These disciplines provide a source of values and vision to the cultures of which they are part while at the same time they are delimited and defined by their cultures This book compares the ideas of two contemporary philosophers John Hick and Seyyed Hossein Nasr on the issues of religion religions the concept of the ultimate reality and the notion of sacred knowledge On a broader level it compares two world views the one formed by Western Christian culture which is religious in intention but secular in essence the other Islamic formed through the assimilation of traditional wisdom which is turned against the norms of secular culture and is thus religious both in intention and essence **Kierkegaard and Issues in Contemporary** Ethics Mélissa Fox-Muraton, 2020-10-26 While Kierkegaard's philosophy focuses on concrete human existence his thought has rarely been challenged regarding concrete and contemporary moral issues This volume offers an overview of contemporary ethical issues from a Kierkegaardian perspective deliberately taking him out of the sphere of Theology and Christian Ethics and examining the ways in which his works can provide fruitful insight into questions which Kierkegaard certainly never himself envisaged such as accepting refugees into our communities understanding how we relate to social media issues of identity with regard to bioengineering or transgender identity or problems of interreligious dialogue The contributions in this volume by international scholars seek to address both the challenges and insights of Kierkegaard s existential ethics for our contemporary societies and its relation to topics of current interest in the field of moral philosophy The volume is organized into three major sections the first focusing on the relation between ethics and religion a topic of

primary importance with regard to the development of religious foundationalism and the challenges of dealing with diverse belief systems within our communities the second on our understandings of ourselves and our relations to others with regard to issues of media and community and the third targeting more specifically questions of identity and the ways in which the developments of modern science impact identity construction This work offers new paths for critically engaging with the moral issues of our times from an existential perspective Creation and Religious Pluralism David Cheetham, 2020 In the well worn debates about religious pluralism and the theology of religions there have been many different rubrics used to account for comprehend or engage with the religious other This book is chiefly a work of Christian theology and seeks to bring the doctrine of creation and the theology of religions into dialogue and in so doing it comes at things from a different direction than other works It contains an extensive exploration of the doctrine of creation and asks how it might intervene distinctively in these discourses to produce a new conceptual and practical topography It will consider inter religious engagement from the perspective of the doctrine of I creatio ex nihilo I that forms the dominant view in the Jewish Christian and Islamic traditions The book pays close consideration to anthropology i e creaturehood the quotidian and wisdom the idea of sabbath human action and work and vivifying the immanent through a consideration of some representative phenomenologists The book will develop these ideas in a more practical direction by considering sacraments and rituals in the public sphere as well as attempting to describe the kind of creational politics that might bring traditions into dialogue Whilst these themes challenge more conventional ways of considering relations between religions such themes because they are different from concerns commonly found in the literature can also be profitably engaged with across the spectrum of opinion i e exclusivist or pluralist etc Thus whilst the position adopted in this work is I creatio ex nihilo I part of the motivation is to review the ways in which this focus helps to broaden rather than limit the discussion Religious Disagreement and Pluralism Matthew A. Benton, Jonathan L. Kvanvig, 2021 This volume presents renewed efforts at how best to think about truths concerning religion It explores many issues at the intersection of the epistemology of disagreement and religious epistemology engaging in careful reflection on religious diversity and disagreement and offering ways to balance epistemic humility with personal conviction
