

Emotions Constitute Rationality: Philosophical Perspective

Topic: Philosophy | Words: 1122 | Pages: 4

Introduction

Since classical times, humans have tried to explore and describe the mechanisms that regulate life both for particular individuals and societies. Among the essential issues are the origin of feelings and their role in decision-making; specifically, philosophers of all epochs sought to answer the question of whether emotions interfere or are compatible with rational behavior. Research on the history of philosophical thought shows that the interpretations may differ not solely from period to period, but also from one belief system to another, as various worldviews involve dissimilar interpretations of emotions. Simply stated how a certain thinker sees the nature of feelings as a phenomenon plays the leading role in his or her view of their combinability with rationalism. The opinions are possible to group into three fundamental philosophical traditions that utilize different approaches but indicate a positive correlation between emotions and rationality.

Defining Emotions

It is hardly possible to provide a perspective on the probable influence of emotions on human behavior without specifying what those are. This is challenging, however, as individuals may react differently to similar situations, have different values and desires, and regard certain occasions through different lenses, and others. Therefore, several attempts have been made to explain the nature of the emotional response that is from three leading perspectives, notably, feeling, evaluation, and motivation (Emotion para. 14). They define emotions as
