The History of Courts and Procedure in Medieval Canon Law Wilfried Hartmann, Kenneth Pennington, 2016-09-09 By the end of the thirteenth century court procedure in continental Europe in secular and ecclesiastical courts shared many characteristics As the academic jurists of the *Ius commune* began to excavate the norms of procedure from Justinian's great codification of law and then to expound them in the classroom and in their writings they shaped the structure of ecclesiastical courts and secular courts as well

These essays also illuminate striking differences in the sources that we find in different parts of Europe. In northern Europe the archives are rich but do not always provide the details we need to understand a particular case. In Italy and Southern France the documentation is more detailed than in other parts of Europe but here too the historical records do not answer every question we might pose to them. In Spain detailed documentation is strangely lacking if not altogether absent. Iberian conciliar canons and tracts on procedure tell us much about practice in Spanish courts. As these essays demonstrate, scholars who want to peer into the medieval courtroom must also read letters, papal decretals, chronicles, conciliar canons, and consilia to provide a nuanced and complete picture of what happened in medieval trials. This volume will give sophisticated guidance to all readers with an interest in European law and courts. *Sourcebook of Family Theories and Methods* Pauline

Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 2008-11-19. Origins. We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots, i.e., sources from which these orientations and strategies flow. Thus an appropriate way to preface this book is to talk first of its roots, its beginnings. In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself. A goal was thus set to write a book that like Janus would face both backward and forward: a book that would give readers both a perspective on the past and a map for the future. There were precedents for such a project. *The Handbook of Marriage and the Family* edited by Harold Christensen and published in 1964; the two *Contemporary Theories about the Family* volumes edited by Wesley Burr, Reuben Hill, F. Ivan Nye, and Ira Reiss published in 1979; and *The Handbook of Marriage and the Family* edited by Marvin Sussman and Suzanne Steinmetz then in production.

Family and Succession Law in the USA Lynn Dennis Wardle, William C. Duncan, Laurence C. Nolan, 2022-07-20

Derived from the renowned multi-volume *International Encyclopaedia of Laws*, this concise exposition and analysis of the essential elements of law with regard to family relations, marital property, and succession to estates in the USA covers the legal rules and customs pertaining to the intertwined civic status of persons, the family, and property. After an informative general introduction, the book proceeds to an in-depth discussion of the sources and instruments of family and succession law, the authorities that adjudicate and administer the laws, and issues surrounding the person as a legal entity and the legal disposition of property among family members. Such matters as nationality, domicile, and residence, marriage, divorce, and cohabitation, adoption, and guardianship, succession, and inter vivos arrangements, and the acquisition and administration of estates are all treated to a degree of depth that will prove useful in nearly any situation likely to arise in legal practice. The book is primarily designed to assist lawyers who find themselves having to apply rules of international private law or otherwise handling cases connected with the USA. It will also be of great value to students and practitioners as a quick guide and easy-to-use practical resource in the field, and especially to academicians and researchers engaged in comparative studies by providing the necessary basic material of family and succession law. **Normal Family Processes, Fourth**
