Numbers,2021-10-17 Originally published in 1995 Early Creationist Journals is the ninth volume in the Creationism in Twentieth Century America series reissued in 2021 The book is a concise primary source collection containing a selection of journal articles from the early twentieth century outlining discoveries in biology geology physiology and archaeology and their relation to Christianity The aim of the journals was to provide a platform for creationists of the 1920s to voice their theories on new science and how more recent discoveries fit within creationist beliefs including flood theory These interesting and unique journals will be of interest to academics working in the field of religion and natural history and provide a unique snapshot into the debates between evolutionists and Christianity during a period of great scientific change **Creationism on Trial** Langdon Gilkey,1985 Creationism on Trial is Langdon Gilkey s fascinating blow by blow account of his experiences as a witness for the ACLU at the 1981 creationist trial in Little Rock Arkansas This courtroom drama

between state supported creation science fundamentalists and ACLU supported scientists theologians and liberal teachers was an engrossing spectacle at the time and has been much talked about since Gilkey a renowned theological writer brings to life principal characters and entertaining anecdotes from the trial and effortlessly translates the abstract religious concepts of the case into digestible language Highlighted by a new introduction that takes into account recent directions in the creationism debate this book will once again provoke discussion in classes of theology and religion The Creationists Ronald L. Numbers, 1993-01-01 Forty seven percent of the American people according to a 1991 Gallup poll believe that God made man as man is now in a single act of creation and within the last ten thousand years Ronald L Numbers chronicles the astonishing resurgence of this belief since the 1960s as well as the creationist movement's tangled roots in the theologies of late nineteenth and early twentieth century Baptists Presbyterians Lutherans Adventists and other religious groups Even more remarkable than Numbers's story of today's widespread rejection of the theory of evolution is the dramatic shift from acceptance of the earth's antiquity to the insistence of present day scientific creationists that most fossils date back to Noah's flood and its aftermath and that the earth itself is not more than ten thousand years old Numbers traces the evolution of scientific creationism and shows how the creationist movement challenges the very meaning of science **The Days of Creation** Reformed Church in the United States (1986-).
