**Nominal Classification** Marcin Kilarski,2013-12-18 This book offers the first comprehensive survey of the study of gender and classifiers throughout the history of Western linguistics Based on an analysis of over 200 genetically and typologically diverse languages the author shows that these seemingly arbitrary and redundant categories play in fact a central role in the lexicon grammar and the organization of discourse As a result the often contradictory approaches to their functionality and semantic motivation encapsulate the evolving conceptions of such issues as cognitive and cultural correlates of linguistic structure the diverse functions of grammatical categories linguistic complexity agreement phenomena and the interplay between lexicon and grammar The combination of a typological and historiographic perspective adopted here allows the reader to appreciate the detail and insight of earlier supposedly prescientific accounts in light of the data now available and to examine contemporary discussions in the context of prevailing conceptions in the study of language at different points in its history since antiquity

Sebeok,2013-11-11 Thirteen of the chapters that comprise the contents of this first volume of Native Languages of the Americas were originally commissioned by the undersigned in his capacity as Editor of the fourteen volume series 1963 1976 Current Trends in Linguistics All appeared in 1973 under Part Three of the quadripartite Vol 10 subtitled Linguistics in North America Two additional chapters are being held over for the volume to follow shortly devoted to Central and South American languages and linguistics where they more appropriately belong A fourteenth chapter on the Historiography of native North American linguistics was written similarly by invitation for Vol 13 subtitled Historiography of Linguistics published in 1975

Both Volumes 10 and 13 were jointly financed by the United States National Science Foundation and National Endowment for the Humanities with an enhancing contribution to the former by the Canada Council The generosity of these funding agencies was of course previously acknowledged in my respective Editor s Introductions to the two books mentioned but cannot be repeated too often without their welcome and timely assistance the global project could scarcely have been realized on so comprehensive a scale The Current Trends in Linguistics series was a long term venture of Mouton Publishers of The Hague under the imaginative in house direction of Peter de Rid der Various spin offs were foreseen and some of them happily realized

**The Languages of Native North America** Marianne Mithun, 2001-06-07 This book provides an authoritative survey of the several hundred languages indigenous to North America These languages show tremendous genetic and typological diversity and offer numerous challenges to current linguistic theory Part I of the book provides an overview of structural features of particular interest concentrating on those that are cross linguistically unusual or unusually well developed These include syllable structure vowel and consonant harmony tone and sound symbolism polysynthesis the nature of roots and affixes incorporation and morpheme order case grammatical distinctions of number gender shape control location means manner time empathy and evidence and distinctions between nouns and verbs predicates and arguments and simple and complex sentences and special speech styles Part II catalogues the languages by family listing the location of each language its genetic affiliation number of speakers major published literature and structural highlights Finally there is a catalogue of languages that have evolved in contact situations
