**The Rainforest Legacy: Flora and fauna of the rainforests**, 1987 **Australian Rainforests** D. M. J. S. Bowman, 2000-02-17 A critical evaluation of the ecological hypotheses proposed to explain the distribution of Australian rainforests *The Rainforest Legacy*, 1987 **Australian Rainforest Seeds** Michelle Chapman, Paul Nelson, Hugh Nicholson, Mark Dunphy, Steve McAlpin, 2020-02-03 Have you ever wondered how to grow your own rainforest trees Is there a beautiful tree that you have always wanted to collect and propagate the seed from Are you in the business of ecological restoration rainforest propagation or environmental education This long awaited guide to rainforest seed propagation unlocks the secrets to growing 300 rainforest species Providing specific information on how to sustainably collect process and germinate seeds this user friendly book aims to support a growing movement of rainforest restoration With invaluable information based on 30 years of research in northern New South Wales users will find even difficult rainforest species delightfully easy to grow Seeing a seed germinate caring for the seedling and eventually planting the tree is deeply satisfying And in this time of widespread deforestation millions of trees are needed for restoration and every tree counts Whether you are growing one or one hundred thousand why not start today **Tropical Rainforest Research in Australia** Nicola Goudberg, Michael Bonell, Dominique Benzaken, 1991 **Australian Rainforests** Paul Adam, 1992 Once the dominant vegetation type of the entire continent the Australian rainforests have shrunk over many millions of years to their present limited size However the forests and their history continue to hold valuable lessons for biogeographers and environmentalists This book gives a general account of the Australian rainforests their composition and location and how their present distribution has evolved The author's aim is to provide a broad biogeographical framework that will enable new information to be considered in a global perspective The book concludes with a historical account of human interaction with the rainforest from late Pleistocene times to the 1980s Biogeographers botanists and ecologists at all levels will find this to be a rich source of information and an inspiration for continuing efforts to conserve existing rainforests around the world **Tropical Rainforest Research — Current Issues** D.S. Edwards, W.E. Booth, S.C. Choy, 2012-12-06 Proceedings of the conference held in Bandar Seri Begawan April 1993 **The Flowering of Australia's Rainforests** Geoff Williams, 2021-05-03 The Flowering of Australia's Rainforests provides a comprehensive introduction to the pollination ecology evolution and conservation of Australian rainforest plants with particular emphasis on subtropical rainforests and their associated pollinators This significantly expanded second edition includes new information on the impact of climate change fire fragmentation and invasive species Rainforests continue to be a focus of global conservation concern not only from threats to biodiversity in general but to pollinators specifically Within Australia this has been emphasised by recent cataclysmic fire impacts ongoing extreme drought events and the wider consideration of climate change This second edition strengthens coverage of these issues beyond that of the first edition The Flowering of Australia's Rainforests makes timely

contributions to our understanding of the nature and function of the world's pollinator fauna plant reproduction dependencies and the evolutionary pathway that has brought them to their current state and function Illustrated with 150 colour plates of major species and rainforest formations this reference work will be of value to ecologists and field naturalists botanists conservation biologists ecosystem managers and community groups involved in habitat restoration Peopled Landscapes Simon Haberle, Bruno David, 2012-01-01 This volume brings together a collection of papers from a diverse field of international scholars exploring the multiple ways that East Timorese communities are making and remaking their connections to land and places of ancestral significance The work is explicitly comparative and highlights the different ways Timorese language communities negotiate access and transactions in land disputes and inheritance especially in areas subject to historical displacement and resettlement Consideration is extended to the role of ritual performance and social alliance for inscribing connection and entitlement Emerging through analysis is an appreciation of how relations to land articulated in origin discourses are implicated in the construction of national culture and differential contributions to the struggle for independence Publisher's description *The Rainforest Legacy: Rainforest history, dynamics and management* Garry L. Werren, Peter Kershaw, 1987 A Sherlock Holmes mystery **The Invertebrate World of Australia's Subtropical Rainforests** Geoff Williams, 2020-09-01 The Invertebrate World of Australia's Subtropical Rainforests is a comprehensive review of Australia's Gondwanan rainforest invertebrate fauna covering its taxonomy distribution biogeography fossil history plant community and insect plant relationships This is the first work to document the invertebrate diversity of this biologically important region as well as explain the uniqueness and importance of the organisms This book examines invertebrates within the context of the plant world that they are dependent on and offers an understanding of Australia's outstanding but still largely unknown subtropical rainforests All major and many minor invertebrate taxa are described and the book includes a section of colour photos of distinctive species There is also a strong emphasis on plant and habitat associations and fragmentation impacts as well as a focus on the regionally inclusive Gondwana Rainforests Central Eastern Rainforest Reserves of Australia World Heritage Area The Invertebrate World of Australia's Subtropical Rainforests will be of value to professional biologists and ecologists as well as amateur entomologists and naturalists in Australia and abroad *Journal of the Royal Society of New Zealand*, 1993-12 *Australian Vegetation* David A. Keith, 2017-06-15 Australian Vegetation has been an essential reference for students and researchers in botany ecology and natural resource management for over 35 years Now fully updated and with a new team of authors the third edition presents the latest insights on the patterns and processes that shaped the vegetation of Australia The first part of the book provides a synthesis of ecological processes that influence vegetation traits throughout the continent using a new classification of vegetation New chapters examine the influences of climate soils fire regimes herbivores and aboriginal people on vegetation in addition to completely revised chapters on evolutionary biogeography quaternary vegetation history and alien plants The book's second half

presents detailed ecological portraits for each major vegetation type and offers data rich perspectives and comparative analysis presented in tables graphs maps and colour illustrations This authoritative book will inspire readers to learn and explore first hand the vegetation of Australia      **Australian Palms** John L. Dowe,2010 An updated and thorough systematic and taxonomic treatment of the Australian palm flora covering 60 species in 21 genera Author from James Cook University Australia      Conservation Biology Peggy L. Fiedler,Peter M. Kareiva,2013-06-29 Reflecting a new generation of conservation biologists upper division and graduate level conservation biology courses as well as for individual reference this book incorporates a number of new authors and additional chapters covering all aspects of one of the most dynamic areas in the life sciences Containing ten additional chapters it includes such timely topics as ecosystem management and the economics of conservation      Flammable Australia Ross A. Bradstock,Jann E. Williams,Malcolm A. Gill,2002 Fire is pivotal to the functioning of ecosystems in Australia affecting the distribution and abundance of the continent s unique and highly diverse range of plants and animals Conservation of this natural biodiversity therefore requires a good understanding of scientific processes involved in the action of fire on the landscape This book provides an up to date synthesis of current knowledge in this area and its application in contemporary land management Central to the discussion is an exploration of the concept of the fire regime and its interactions with biodiversity      **Phytochemistry of Australia's Tropical Rainforest** Cheryll J. Williams,2021-12-01 Rare unique and irreplaceable precious native rainforests occupy a precariously small part of Australia while retaining a remarkable level of both biological and chemical diversity unrivalled by any other ecosystem Australia s ancient history and traditions are intimately intertwined with the rainforest plants that humans have utilised as both food and medicine Phytochemistry of Australia s Tropical Rainforest is a record of this history and details how our understanding of these plants has led to the discovery of anaesthetics analgesics steroids antimalarials and more It provides an insight into the habitat ecology and family associations of hundreds of species and explores their future therapeutic potential alongside phytochemical studies of the ancient plant lineages Toxicological evaluations of important poisonous plants are also included Rainforests provide shelter for unique flora and fauna that are counted among the rarest species on Earth many of which are illustrated in this book This comprehensive work is an essential reference for phytochemists ethnobotanists and those with an interest in rainforests and their medicinal and botanical potential

**Hidden Rainforests** Geoff Williams,Terry Evans,1993 Study first published in 1993 of the biotic diversity biogeography plant animal interactions and the impact of forest fragmentation in the subtropical rainforests of the Manning catchment area on the north coast of New South Wales The examination of rainforest ecology relates to all subtropical rainforest communities in Australia Vertebrates invertebrates and the major plant associations of the area are detailed Includes nearly 200 colour photographs a bibliography index and appendices and lists for the specialist The author is a field biologist who has spent many years investigating the Manning catchment area He is a research associate of the Australian Museum and

currently undertaking his doctoral research study on the pollination ecology of lowland rainforests      *Potential Impacts of Climate Change on Tropical Forest Ecosystems* Adam Markham, 2013-11-11 Climate change represents one of the most alarming long term threats to ecosystems the world over This new collection of papers provides for the first time an overview of the potentially serious impact that climate change may have on tropical forests The authors a multi disciplinary group of leading experts in climatology forestry ecology and conservation biology present a state of knowledge snapshot of how tropical forests are likely to react to the changes being wrought on our planet s atmosphere and climate Tropical forests represent extraordinary harbours for biological diversity and yet as deforestation and degradation continue apace they are under greater pressure from human impacts than ever before Climate change adds yet another threat to these valuable ecosystems and this volume demonstrates just how significant a problem this may really be The authors identify certain types of forest including tropical montane cloud forest that may be particularly vulnerable They also show the strong likelihood of global warming aggravating problems in already fragmented forest areas      *Flying Foxes* Leslie S. Hall, Gregory Richards, 2000 Sometimes kept as family pets flying foxes are much beloved in Australia This work covers issues such as descriptions of Australia s 13 species of flying foxes and blossom bats their physiology of flight ecology diet and behaviour and management of populations
