**Interruptions in Early Modern English Drama** Michael M. Wagoner, 2022-09-22 To interrupt both on stage and off is to wrest power From the Ghost's appearance in Hamlet to Celia's frightful speech in Volpone interruptions are an overlooked linguistic and dramatic form that delineates the balance of power within a scene This book analyses interruptions as a specific form in dramatic literature arguing that these everyday occurrences when transformed into aesthetic phenomena reveal illuminating connections between characters between actor and audience and between text and reader Focusing on the works of William Shakespeare Ben Jonson and John Fletcher Michael M Wagoner examines interruptions that occur through the use of punctuation and stage directions as well as through larger forms such as conventions and dramaturgy He demonstrates how studying interruptions may indicate aspects of authorial style emphasizing a playwright's use and control of a text and how exploring relative power dynamics pushes readers and audiences to reconsider key plays and characters providing new considerations of the relationships between Othello and Iago or Macbeth and the Ghost of Banquo **The**

many speakers interrupted in Luke and in Acts For nearly a century scholars have noted the presence of interrupted speech in the Acts of the Apostles but explanations of its function have been limited and often contradictory A more effective approach involves grounding the analysis of Luke Acts within a larger understanding of how interruption functions in a wide variety of literary settings An extensive survey of ancient Greek narratives epics histories and novels reveals the forms frequency and functions of interruption in Greek authors who lived and wrote between the eighth century B C E and the second century C E This comparative study suggests that the frequent interruptions of Jesus and his followers in Luke 4 28 Acts 4 1 7 54 57 13 48 etc are designed both to highlight the pivotal closing words of the discourses and to draw attention to the ways in which the early Christian gospel was received In the end the interrupted discourses are best understood not as historical accidents but as rhetorical exclamation points intended to highlight key elements of the early Christian message and their varied reception by Jews and Gentiles *MetaNet* Miriam R.L. digression may appear random and superfluous yet this book argues that such devices assist in the construction of a distinct visual and narrative time space In the hands of imaginative directors the conventions of Indian cinema become opportunities for narrative play and personal expression in such films as Sholay 1975 Nayakan 1987 Parinda 1989 Hathiyar 1981 and Hey Ram 1999 Cinema of Interruptions places commercial Indian film within a global system of popular cinemas but also points out its engagement with the dominant genre principles implemented by Western film By focusing on the action genre work of leading contemporary directors J P Dutta Mani Ratnam and Vidhu Vinod Chopra brazen national style is shown to interact with international genre films to produce a hybrid form that reworks the gangster film the western and the avenging woman genre Central to this study is the relationship Indian cinema shares with its audience and an understanding of the pleasures it offers the cinephile In articulating this bond the book presents not only a fresh framework for understanding popular Indian cinema but also a contribution to film genre studies

**Scenes of Interruption** Rebecca Tassi, 2000 *The Painted Triptychs of Fifteenth-Century Germany* Lynn F. Jacobs, 2025-10-01 This book presents four case studies that interrogate how German fifteenth century painted triptychs engage with and ultimately blur various boundaries Some of the boundaries are internal to the triptych format for example transgressed frames between narrative scenes on triptych interiors or interconnections between imagery on triptych interiors and exteriors Other blurred boundaries are regional ones between the Netherlands and Cologne metaphysical ones between heaven and earth and artistic distinctions between the media of painting and sculpture The book's case studies which shed new light on Conrad von Soest Stefan Lochner and the Master of the St Bartholomew Altarpiece illuminate the importance of German fifteenth century painting while providing a fresh assessment of relations between German triptychs and their more famous Netherlandish counterparts The case studies also demonstrate the value of probing Mediality that is the implications of format and medium for generating meaning A coda assesses the triptych in the age of Digital
