Exophilosophy Richard Playford, 2024-12-09 This volume addresses philosophical questions raised by the possibility of alien life and extraterrestrial intelligence The different philosophical perspectives and approaches presented across the chapters will provide a foundation for future work on exophilosophy Interest in space space exploration and alien life has never been greater In popular culture for example it has proven a persistent theme in science fiction films e g Star Trek Star Wars books e g H G Wells Arthur C Clarke Ray Bradbury and computer games e g Sid Meier s Alpha Centauri as well as bestselling non fiction books von Daniken s multimillion selling Chariots of the Gods and hit documentary shows e g Ancient Aliens There has also been persistent interest in these topics amongst scientists with organizations such as NASA and SETI having an enormous impact on both the scientific and popular imagination Yet curiously the topic has received relatively little philosophical attention Whilst certain aspects of these topics remain within the proper purview of the sciences a host of philosophical questions are raised by the possibility of alien life and extraterrestrial intelligences and the possibility of our coming into contact with them This collection of essays will examine some of these questions whilst laying the groundwork for future study in an as yet under researched area of philosophy Exophilosophy is essential reading for scholars and students with an interest in space and philosophy especially those working in philosophy of science metaphysics epistemology ethics philosophy of language and philosophy of religion

Aliens & Alien Societies Stanley Schmidt, 2011-05-30 There are more things in heaven and earth Horatio than are dreamt of in your philosophy Hamlet William Shakespeare Stanley Schmidt guides you toward a better understanding of our universe to create beings who will live in your science fiction Aliens and Alien Societies explains science to help you make your fiction plausible You ll avoid bringing characters from solar systems unlikely to support life Discover the galaxy s vastness and imagine the technology needed to cross it Put biochemistry on your side to put viable creatures on your pages Learn how engineering shapes life and why this suggests that intelligent inhabitants of other planets might have similarities to humans Develop well founded cultures and logical languages Introduce aliens to people or other aliens Portray them as individuals true to their species In this book possibilities abound and lines between knowledge and conjecture blur enthrallingly Aliens and Alien Societies is thoughtful clear and utterly fascinating It is filled with facts to help you write believable fictions about the things in heaven

and earth 1950s Science Fiction Films and 9/11 Melvin E. Matthews, 2007 1950s Cold War era monsters meet 21st century terrorists this exploration of sci fi movies examines the similarities and differences between the political environment and popular culture of two eras This examination and appreciation of 1950s science fiction films includes behind the scenes tales about their production and many quotes from those who produced and starred in the films The author draws parallels between the Cold War fears of the 1950s and 60s and the constant terrorism alerts of the September 11th era exploring how the politics and the psychological climate of the times influences and is reflected in this vehicle of popular culture This book is the first of its kind studying the pop culture genre in the wake of the September 11th tragedy It shows that whatever the era and whatever the challenges and crises confronting America many entertainment themes remain the same reflecting their respective times and the relevant issues For instance Godzilla the only Fifties era monster to remain a movie star beyond that era could be fashioned to reflect whatever issues dominate the times be they nuclear war in the Fifties when Godzilla originated to a Seventies Godzilla film about environmental pollution Conceivably a Godzilla for the age of terrorism is possible Then the 1954 atomic mutation classic is the spiritual ancestor of the 2002 film Eight Legged Freaks The alien invaders of the Fifties signified a Russian invasion of America while other films of the genre such as Invaders from Mars depicted aliens utilizing mind control to manipulate humans to commit acts of sabotage signifying Communist enslavement If such a film were made now such invaders could be seen as terrorist masterminds using human slaves to commit terrorist acts Finally several Fifties films depicted the end of the world at a time when Americans expected a nuclear war with Russia The immediate pre September 11th era witnessed films presenting galactic threats to mankind s existence Independence Day Deep Impact Armageddon while the early 2000s witnessed the popularity of the Left Behind Christian films dramatizing the Tribulation period in the Book of Revelation *Explaining Life through Evolution* Prosanta Chakrabarty, 2023-08-08

Mutants, Androids, and Aliens James A. Tyner, 2025-05-19 In both literature and film mutants androids and aliens have long functioned as humanity s Other nonhuman bodies serving as surrogates to explore humanity s prejudice bigotry and hatred Scholars working in fields of feminism ethnic studies queer studies and disability studies among others have

deconstructed representations of the Othered body and the ways these fictional depictions provide insight into the contested terrains of identity subjectivity and personhood In science fiction more broadly and the superhero genre in particular the fictional Other often a superhero or a villain is juxtaposed against the normal human and such Others have long been the subject of academic investigation Author James A Tyner shifts this scholarly focus to consider the ordinary humans who ally with or oppose Othered superheroes Law enforcement officers military officials politicians and the countless nameless civilians are all examples of humans who try to make sense of a rapidly changing more than human and other than human universe The resulting volume *Mutants Androids and Aliens On Being Human in the Marvel Cinematic Universe* provides a critical posthumanist reading of being human in the Marvel Cinematic Universe MCU Centering the MCU s secondary human characters including Matthew Ellis Ellen Nadeer Rosalind Price as well as Jimmy Woo Sadie Deever Holden Radcliffe and others Tyner considers how these characters attempt to monitor incarcerate or exterminate those beings considered unnatural and thus threatening Placing into conversation posthumanism environmental ethics and myriad philosophical and biological ontologies of life and death Tyner maintains that the superhero genre reflects the current complexities of meaningful life and of what happens in society when the human is no longer the unquestioned normative standard
