Damaged Identities, Narrative Repair Hilde Lindemann, 2001 The nature of identity especially of groups such as Gypsies mothers nurses and transsexuals is explored by comparing the stories these groups express of themselves against the narratives written about them Feminist Academic Press Hilde Lindemann Nelson focuses on the stories of groups of people including Gypsies mothers nurses and transsexuals whose identities have been defined by those with the power to speak for them and to constrain the scope of their actions By placing their stories side by side with narratives about the groups in question Nelson arrives at some important insights regarding the nature of identity She regards personal identity as consisting not only of how people view themselves but also of how others view them These perceptions combine to shape the person's field of action If a dominant group constructs the identities of certain people through socially shared narratives that mark them as morally subnormal those who bear the damaged identity cannot exercise their moral agency freely Nelson identifies two kinds of damage inflicted on identities by abusive group relations one kind deprives individuals of important social goods and the other deprives them of self respect To intervene in the production of either kind of damage Nelson develops the counterstory a strategy of resistance that allows the identity to be narratively repaired and so restores the person to full membership in the social and moral community By attending to the power dynamics that constrict agency Damaged Identities Narrative Repair augments the narrative approaches of ethicists such as Alasdair MacIntyre Martha Nussbaum Richard Rorty and Charles Taylor

Emerson, Adam Cox, 2024-07-09 The God Story is a compelling and creative retelling of the biblical story Alain Emerson and Adam Cox two leaders of the 24 7 Prayer movement help you find personal meaning and purpose in light of God s unfailing love and awe inspiring plans for humanity as laid out in Scripture Why is it that every time we hear the phrase once upon a time we are captivated curious to know what these inviting words will give life to It seems something fundamental to our existence is exercised when we are drawn into a story As human beings we are meaning making creatures and yet so often we struggle to make sense of the world and our place in it Each one of our lives is a unique and unrepeatable creation Each one of our stories is precious and worthy of being told shared and experienced Yet none of our stories make sense in isolation disconnected from a wider plot Our stories only truly find meaning when they are linked to the very source of our lives and the unfolding drama into which we were born The God Story is a compelling and creative retelling of the biblical story from 24 7 Prayer which will help you find personal meaning and purpose in light of God s overarching and awe inspiring plans for humanity as laid out in Scripture It is the story we re all waiting to hear It is time to be enchanted afresh by the God Story and in doing so discover beloved identity and be inspired to make a difference in today s world **Modern Virtue** Emily Dumler-Winckler, 2022 Modern Virtue is the first book length treatment of Mary Wollstonecraft s theology and religion the first to show the centrality of each for her account of the virtues and revolution and the first by a scholar in these fields While Wollstonecraft is canonical in many other fields she is mostly unknown or ignored in virtue ethics theology and religion This book remedies this omission and the prevalent narratives sustained by it in the latter as well as predominant views of her religion and virtue in the former **The Narrative Study of Lives** Ruthellen Josselson, Amia Lieblich, 1993-03-31 This volume is especially appealing in that it celebrates diversity and embraces disagreement The narrative scholar regardless of her his research tradition or field will most certainly benefit from the diversity and depth provided in The Narrative Study of Lives Editors Ruthellen Josselson and Amia Lieblich have admirably fulfilled their criteria of breadth coherence and aesthetic appeal for works included in this volume Moreover they have provided the necessary forum for the study of lives and life histories We can only hope to continue the conversation in future volumes Journal of Contemporary Ethnography Few questions have a longer deeper and livelier intellectual history than how we construct our lives and indeed how we create ourselves in the process But it is a question newly alive today for modern scholarship has brought challenging new perspectives to the study of life writing Literary theorists linguists legal scholars and even political activists are bringing new and powerful insights to bear The Narrative Study of Lives provides a needed forum for the debates now in progress and should attract a loyal and numerous band of readers Jerome Bruner New York University For those psychologists searching for new approaches to the study of lives this volume takes an important step toward the editors promise of filling this gaping hole in psychology The Journal of Nervous and Mental Disease How do we derive concepts from stories and then use these concepts to understand people What would have to be added to transform story material from the journalistic or literary to

the academic and theoretically enriching Addressing these and other such issues as the interface between life as lived and the social times this group of distinguished contributors from six different countries and four different disciplines explores this emerging new field Beginning with the philosophical framework that underlies the study of narrative the book covers such questions as What makes people want to preserve the stories of their past What methods can be used to deconstruct a narrative text Can what we learn from people s narratives of their past be used to account for their current psychological functioning What happens if people lose their ability to narrate their story Can people s narrative accounts tell us something about identity and its development Useful to researchers and students of human development and behavior The Narrative Study of Lives provides rich stories and analysis of narrative approaches to life history

Old Testament Story and Christian Ethics Robin A. Parry,2005-06-02 Christian use of the Old Testament has tended to focus on law and wisdom literature and to marginalize narrative materials This book restores story to its rightful place in Old Testament ethics and aims to set out parameters within which Christian ethical reappropriations of Old Testament narratives can take place The argument begins by examining recent philosophical studies of the role of story in the ethical life Special attention is paid to the work of Paul Ricoer Martha Nussbaum and Robert C Roberts Then the theological foundations are laid by demonstrating the importance of narrative for Old Testament ethics and of the biblical metanarrative for Christian interpretation Genesis 34 is examined as a detailed case study to exemplify the fruits of the method for Christian readers The study considers reception history feminist interpretation discourse analysis and canonical context to shed new light on the terrible story of the rape of Dinah

The Dramatic Year Book for ... 1891 Charles Smith Cheltnam,1892 The Character of the Manager G. Beabout,2013-08-01 Explores Alasdair MacIntyre s criticisms of the manager and retrieves an interdisciplinary approach to character transforming arguments The manager as wise steward is proposed as a model for virtuous management The Army Lawyer ,2011-03 Trolling Ourselves to Death Jason Hannan,2023 Almost forty years ago Neil Postman argued that television had brought about a fundamental transformation to democracy By turning entertainment into our supreme ideology television had recreated public discourse in its image and converted democracy into show business In Trolling Ourselves to Death Jason Hannan builds on Postman s classic thesis arguing that we are now not so much amusing as trolling ourselves to death Yet how do we explain this profound change What are the primary drivers behind the deterioration of civic culture and the toxification of public discourse Trolling Ourselves to Death moves beyond the familiar picture of trolling by recasting it in a broader historical light Contrary to the popular view of the troll as an exclusively anonymous online prankster who hides behind a clever avatar and screen name Hannan asserts that trolls have emerged from the cave so to speak and now walk in the clear light of day Trolls now include politicians performers patriots and protesters What was once a mysterious phenomenon limited to the darker corners of the Internet has since gone mainstream eroding our public culture and changing the rules of democratic politics Hannan shows how trolling is the logical outcome of a culture of possessive

individualism widespread alienation mass distrust and rampant paranoia Synthesizing media ecology with historical materialism he explores the disturbing rise of political unreason in the form of mass trolling and sheds light on the proliferation of disinformation conspiracy theory cancel culture and digital violence Taking inspiration from Robert Brandom's innovative reading of Georg Wilhelm Friedrich Hegel Trolling Ourselves to Death makes a case for building a spirit of trust to curb the epidemic of mass distrust that feeds the plague of political trolling

Story Re-Visions Alan Parry, Robert E. Doan, 1994-09-09 Once upon a time everything was understood through stories The philosopher Friedrich Nietzsche once said that if we possess our why of life we can put up with almost any how Stories always dealt with the why questions The answers they gave did not have to be literally true they only had to satisfy people's curiosity by providing an answer less for the mind than for the soul From Chapter 1 Each of us has a story to tell that is uniquely personal and profoundly meaningful The goal of the modern therapist is to help clients probe deeply enough to find their own voice describe their experiences and create a narrative in which a life story takes shape and makes sense Emphasizing the vital connections among personal experience family and community the authors of this provocative new book explore the role of narrative therapy within the context of a postmodern culture They employ the interactional dynamics of family therapy to demonstrate how to help people deconstruct oppressive and debilitating perspectives replace them with liberating and legitimizing stories and develop a framework of meaning and direction for more intentional more fulfilling lives Blending scientific theory with literary aesthetics Story Re Visions presents a comprehensive collection of specific narrative therapy techniques inventions interviewing guidelines and therapeutic questions The book examines the development of the postmodern phenomenon tracing its evolution across time and disciplines It discusses paradigmatic traditions the meaning of modernism and the ways in which the ancient binding narratives have lost their power to inspire uncritical assent Methods for doing narrative therapy in a destoried world are presented with suggestions for meeting the challenges of postmodern value systems and ethical dilemmas Numerous case examples and dialogues illustrate ways to help people become authors of their own stories and each of the last four chapters concludes with an appendix that provides additional information for the practicing clinician Detailing ways in which a narrative framework enhances family therapy the authors describe how the therapist and client may act together as revisionary editors and present techniques for keeping the story re vision alive well and in charge Finally the book examines re vision techniques for clinical training and supervision settings with discussion of how therapists may help one another create stories about their clients as well as themselves Accessibly written and profoundly enlightening Story Re Visions is ideal for family therapists psychologists psychiatrists and anyone else interested in doing therapy from a narrative stance It is also valuable as supplemental reading for courses in family therapy and other psychotherapeutic
