Macro Micro Nancy Nazer,1997 **Macro/Micro** Lorne Tepperman,Michael Rosenberg,1995 Macro/Micro Kathryn Allen,Alan Wain,1995 *Macro/micro* Lorne Tepperman,M. Michael Rosenberg,1998 *Ebook: Sociology: A Brief Introduction* Schaefer,2014-10-16 *Ebook Sociology A Brief Introduction* Aboriginal Voices and the Politics of Representation in Canadian Introductory Sociology Textbooks John Steckley,2003 The philosophical underpinnings of this textbook make it a most interesting read for scholars of Aboriginal Studies the social sciences humanities and cultural studies and humanistic curriculum development John Steckley s familiarity with and respect for the epistemology of the Huron Mohawk and Ojibwa peoples enlightens and enables his research In this book he provides a critical framework for assessing Aboriginal content in introductory sociology textbooks He defines what is missing from the seventy seven texts included in his study of the manifestation of cultural hegemony in Canadian sociology textbooks This critique is suitable for students and professors of sociology as Dr Steckley addresses the impact of the ellipses from the textbooks they have traditionally used **Social Work Treatment** Francis J. Turner,2011-03-15 First published in 1974 Social Work Treatment remains the most popular and trusted compendium of theories available to social work students and practitioners It explores the full range of theoretical approaches that drive social work treatment and knowledge development from psychoanalysis to crisis intervention This treasure trove of practice knowledge equips professionals with a broad array of theoretical approaches each of which shine a spotlight on a different aspect of the human condition Emphasizing the importance of a broad based theoretical approach to practice it helps the reader avoid the pitfalls of becoming overly identified with a narrow focus that limits their understanding of clients and their contexts This sweeping overview of the field untangles the increasingly complex problems ideologies and value sets that define contemporary social work practice The result is an essential A to Z reference that charts the full range of theoretical approaches available to social workers regardless of their setting or specialty The Concise Encyclopedia of Sociology George Ritzer,J. Michael Ryan,2011-01-25 This concise encyclopedia is the most complete international survey of sociology ever created in one volume Contains over 800 entries from the whole breadth of the discipline Distilled from the highly regarded Blackwell Encyclopedia of Sociology with entries completely revised and updated to provide succinct and up to date coverage of the fundamental topics Global in scope both in terms of topics and contributors Each entry includes references and suggestions for further reading Cross referencing allows easy movement around the volume **Multi-Agent-Based Simulation** Scott Moss,Paul Davidsson,2003-07-31 This volume is based on papers accepted for the Second International Workshop on Multi agent based Simulation MABS 2000 federated with the Fourth International Conference on Multi Agent Systems ICMAS 2000 held in Boston in July 2000 The purpose of MABS 2000 was to investigate and develop the synergy tween software engineering for multi agent systems and agent based social simulation The papers included in the MABS 2000 workshop were selected either because they explore how agent

interaction can be used to build multi agent systems or they offer examples of problem oriented rather than technique oriented systems No paper was selected if it specified a model or an issue to make it a previously chosen technique All of the papers in the volume have been reviewed and in many cases revised since the workshop Two papers by Edmonds and by Hales as well as the editorial introduction have been added to those accepted for the workshop As editors and workshop organisers we are very grateful to the participants who engaged enthusiastically in the discussions about both individual papers and the issues facing the MABS community Issues raised and positions taken in those discussions are reported in the editorial introduction We are also grateful to the authors for their punctuality and the grace with which they received and responded to editorial comments and requests Klaus Fischer the ICMAS 2000 workshops chair was exceptionally patient and diplomatic in reconciling our demands with the resources available *Canadiana*, 1991

Keith Sawyer,2005-10-27 Can we understand important social issues by studying individual personalities and decisions Or are societies somehow more than the people in them Sociologists have long believed that psychology can t explain what happens when people work together in complex modern societies In contrast most psychologists and economists believe that if we have an accurate theory of how individuals make choices and act on them we can explain pretty much everything about social life Social Emergence takes a new approach to these longstanding questions Sawyer argues that societies are complex dynamical systems and that the best way to resolve these debates is by developing the concept of emergence focusing on multiple levels of analysis individuals interactions and groups and with a dynamic focus on how social group phenomena emerge from communication processes among individual members This book makes a unique contribution not only to complex systems research but also to social theory Doing Research in Fashion and Dress Yuniya Kawamura,2020-01-09 Whether you re investigating fashion as a material object an abstract idea a social phenomenon or a commercial system qualitative techniques can further your understanding of almost any research topic Doing Research in Fashion and Dress begins by guiding you through a brief history of fashion studies and the debates surrounding it before introducing key qualitative methodological approaches including ethnography semiology and object based research Detailed case studies demonstrate how each methodology is used in practice These case studies include Japanese subcultures fashion photography blogs and semiotic studies of fashion magazine shoots and advertisements This second edition also features a new chapter on internet sources and online ethnography reflecting the adoption of social media tools not only by industry
