Strategic Operations Management Steve Brown, John Bessant, Fu Jia, 2018-07-17 Strategic Operations Management 4th Edition shows how vital it is to have world class operations management in any organisation In the past where organisations tended to be more hierarchical than today the words strategy and operations were almost mutually exclusive In today's highly competitive environment though strategic operations capabilities must be in place for organisations to provide goods and services that meet and exceed customer requirements Key issues such as cost speed quality flexibility and constant innovation are all part of strategic operations However achieving such capabilities does not come by chance instead a range of factors need to be put in place This new edition pays equal attention to manufacturing and service sectors It includes numerous references to and discusses major changes taking place in the business world including 3 D printing virtual organisations Cloud Big Data and the Internet of Things Servitization global markets ongoing innovation and managing within complex supply networks Cases are included from a range of settings across the globe Students taking MBA MSc and MBM classes on operations management advanced operations management and strategic operations management will find this textbook fulfills all their requirements whilst advanced undergraduate classes in these areas will also find the book an essential read

MANAGING THE INVESTIGATIVE UNIT Daniel S. McDevitt, 2012-08-01 Managing the investigative unit can be an extremely rewarding part of any law enforcement professional's career or it can be an absolute nightmare The goal

of this newly revised second edition is to continue to provide the investigative manager with the updated tools and techniques necessary to successfully manage the investigative unit. Many of these techniques and strategies were learned through trial and error. It begins with a look at the various elements of the investigative process. These elements include the basics of criminal investigations, the role of patrol in the investigative process, organizing the investigative unit, rank position, status of investigators, selecting and supervising investigative personnel, developing new investigators, case management, managing confidential source programs, supervision of undercover personnel, raid and arrest planning, the qualifications for the undercover officer, and evaluating performance of personnel. Administrative considerations such as managing confidential source programs and case management are examined in detail. The final sections of the book examine performance evaluation of investigative personnel, which differs greatly from the evaluation of patrol personnel. Investigative marginal performers are studied, and useful techniques for managing these individuals are provided. Methods of developing new investigators as well as mechanisms to train patrol personnel for potential assignment to investigations are also covered. In addition, the Appendices contains material and forms on responsibilities, time allocation, selection and application, case screenings, case reviews, referrals, fund and payment policy, operational plan, and evaluation design. The book will be useful for patrol officers or detectives who are interested in preparing themselves for supervisory or management positions.

The Ultimate Guide to Building & Managing the Perfect Team

Aiden Sisko, 2016-01-22 EXCERPT Successful team building will lead to a firm structure that is full of trust, maturity, and respect between employees, members, no matter the rank. Team building is like the basic family unit in which the father knows best and the children follow guidance from the parents. In this case, management of teams will greatly rely on your leadership and skills in team coaching, guidance, and motivation. As we all know, the family follows the leader, and as such, the leader must show great leadership skills as well as mentorship in order to build a conducive team spirit. This model can likewise be replaced with a more adult collaborative model that holds each team member responsible for their actions as well as respecting these actions.
