Dwight Eisenhower, 1953 **Mandate for change, 1953-1956** Dwight David Eisenhower, Displacement, Development,
and Climate Change Nina Hall, 2016-03-22 This book focuses on one critical challenge climate change Climate change is
predicted to lead to an increased intensity and frequency of natural disasters An increase in extreme weather events global
temperatures and higher sea levels may lead to displacement and migration and will affect many dimensions of the economy
and society Although scholars are examining the complexity and fragmentation of the climate change regime they have not
examined how our existing international development migration and humanitarian organizations are dealing with climate
change Focusing on three institutions the United Nations High Commissioner for Refugees the International Organization for
Migration and the United Nations Development Programme the book asks how have these inter governmental organizations
responded to climate change And are they moving beyond their original mandates given none were established with a
mandate for climate change It traces their responses to climate change in their rhetoric policy structure operations and
overall mandate change Hall argues that international bureaucrats can play an important role in mandate expansion often
deciding whether and how to expand into a new issue area and then lobbying states to endorse this expansion They make
changes in rhetoric policy structure and operations on the ground and therefore forge frame and internalize new issue
linkages This book helps us to understand how institutions established in the 20th century are adapting to a 21st century
world It will be of great interest to scholars and students of International Relations Development Studies Environmental
Politics International Organizations and Global Governance as well as international officials Eisenhower's Heart Attack
Clarence G. Lasby, 1997 Previous Eisenhower biographers have touched on his heart condition but Clarence Lasby is the first
to examine the impact of the president's health on the nation He offers a dramatic revisionist account of the events
surrounding the president's 1955 heart attack and subsequent efforts by the president and his staff to minimize its political
impact Drawing on newly opened medical records and personal papers of Eisenhower's physicians Lasby challenges virtually
everything we have believed about the president's heart attack Most disturbingly he has discovered that the president's
personal physician Dr Howard Snyder misdiagnosed the attack as a gastrointestinal problem and waited ten hours before
sending Eisenhower to the hospital Lasby also sets the record straight on how the president and his aides managed the
public's understanding of events and he offers evidence that Eisenhower Dr Snyder and press secretary James Hagerty
withheld and recast information to serve the president's political priorities Equally important Lasby's book offers a touching
portrait of a proud man faced with a debilitating disease It examines Ike's private struggle to lead a full life despite his

condition and analyzes his decision to seek a second term even against the advice of cardiologist Paul Dudley White It also shows how a man who had always carefully joked after his health now became obsessed with it **International**

Organizations as Self-Directed Actors Joel Oestreich, 2012-05-23 This exciting new text illustrates and advances the argument that International Organizations IOs need to be taken seriously as actors in world affairs Bringing together an international line up of distinguished contributors the text examines recent theories that suggest how IOs are able to set their own policies and implement them in meaningful ways The chapters review these theoretical positions and then present a series of case studies which focus on how these theories play out when IOs are charged with solving global problems including development peacekeeping and environmental policy coordination Examining and analysing both positive and negative examples of this independence this text is a valuable resource on the topic of the internal workings of IOs providing the richest and most focused textbook so far dealing with the capacity of IOs for independent action in international politics It is essential reading for all students of international organizations **... Permanent Mandates Commission** League of Nations, 1924 **Eisenhower, Mandate for Change** Dwight D. Eisenhower, 1963 **Redesigning Healthcare Delivery** Peter Boland, 1996 One of the greatest challenges in health care is reorganizing its core processes These reorganization initiatives are most often pursued under pressure from employers consumers advances in medical technologies and changes in payer policy Redesigning Healthcare Delivery teaches practitioners managers and executives proven new ways to predict and manage the needs of patient populations improve customer service and refocus their organizations on administrative and clinical tasks to ensure future success
