Nicholas G. Schlegel, 2015-06-11 From 1968 to 1977 Spain experienced a boom in horror movie production under a restrictive economic system established by the country's dictator Francisco Franco. Despite hindrance from the Catholic Church and Spanish government which rigidly controlled motion picture content, hundreds of horror films were produced during this ten-year period. This statistic is even more remarkable when compared with the output of studios and production companies in the United States and elsewhere at the same time. What accounts for the staggering number of films and what does it say about Spain during this period? In *Sex Sadism Spain and Cinema: The Spanish Horror Film*, Nicholas G. Schlegel looks at movies produced, distributed, and exhibited under the crumbling dictatorship of General Franco. The production and content of these films, the author suggests, can lead to a better understanding of the political, social, and cultural conditions during a contentious period in Spain's history. The author addresses the complex factors that led to the official sanctioning of horror films which had previously been banned and how they differed from other popular genres that were approved and subsidized by the government. In addition to discussing the financing and exhibiting of these productions, the author examines the tropes, conventions, iconography, and thematic treatments of the films. Schlegel also analyzes how these movies were received by audiences and critics both in Spain and abroad. Finally, he looks at the circumstances that led to the rapid decline of such films in the late 1970s and early 1980s. By examining how horror movies thrived in Spain during this decade, this book addresses a sorely neglected gap in film scholarship and also complements existing literature on Spanish national cinema. *Sex Sadism Spain and Cinema* will appeal to fans of horror films as well as scholars of film history, European history, genre studies, and cultural studies. different from our own To present Dante s ideas about the cosmos or God or salvation or history or poetry within the context of post Enlightenment presuppositions as is usually done is thus to capture only imperfectly the essence of those ideas The recovery of Dante s metaphysics is essential argues Christian Moevs if we are to resolve what has been called the central problem in the interpretation of the Comedy That problem is what to make of the Comedy s claim to the status of revelation vision or experiential record as something more than imaginative literature In this book Moevs offers the first sustained treatment of the metaphysical picture that grounds and motivates the Comedy and of the relation between those metaphysics and Dante s poetics He carries this out through a detailed examination of three notoriously complex cantos of the Paradiso read against the background of the Neoplatonic and Aristotelian tradition from which they arise Moevs finds the key to the Comedy s metaphysics and poetics in the concept of creation which implies three fundamental insights into the nature of reality 1 The world finite being is radically contingent dependent at every instant on what gives it being 2 The relation between the world and the ground of its being is non dualistic God is not a thing and there is nothing the world is made of 3 Human beings are radically free unbound by the limits of nature and thus can find all of time and space within themselves These insights are the foundation of the pilgrim Dante s journey from the center of the world to the Empyrean which contains it For Dante in sum what we perceive as reality the spatio temporal world is a creation or projection of conscious being which can only be known as oneself Moevs argues that self knowledge is in fact the keystone of the Aristotelian and Neoplatonic philosophical tradition and the essence of the Christian revelation in which that tradition culminates Armed with this new understanding Moevs is able to shed light on a series of perennial issues in the interpretation of the Comedy In particular it becomes clear that poetry coincides with theology and philosophy in the poem Dante poeta cannot be distinguished from Dante theologus
