Targeting Mental Maths: Year 4 Robyn Hurley, 2009

Mental Maths Hilary Koll, Steve Mills, 2004 This is a brand new strand of our bestselling series Developing Numeracy There is one book of photocopiable Mental Maths activities for each year of primary school The books develop pupils mental calculation strategies through oral and mental maths activities as required by the National Numeracy Strategy OFSTED has reported that Mental Maths is still an area of weakness and many schools find their SATs scores are let down by pupils not achieving the required standard in the national Mental Maths test at the end of Key Stage 2 Developing Numeracy Mental Maths will be of great benefit to these teachers and pupils and will therefore be a popular addition to the series

New Mathematics Today Class 8 ANUBHUTI GANGAL, New Mathematics Today a thoroughly revised series for KG to Class 8 has been designed as per the requirements of the latest curriculum The content of this series is designed to reach all learners in the classroom irrespective of their skill levels or learning capabilities

Mental Maths Strategies Alan Parker, Jan Faulkner, 2004 More than just Mental Maths books this series will equip students with all the Mental Maths strategies they need to excel in Maths through out their lives All the books in this series have an 18 page e Help s ection at the front of the book with a list of strategies and explanat ions carefully cross referenced to relate directly to each appropriate q uestion in each unit Features of this series 32 do uble page units of Mentals with each unit divided into four sets of 20 questions each The questions are set out in a special order with each q uestion only covering selected topics in Mentals Maths a eFun Spot unit containing fun activities and a revision unit are included at the end of each 8 units extra practice sections which rei nforce particular strategies appear in the lower part of every page answers to all questions are in a lift out section in the centre of the books to be removed if required an index to the e Help section to help students find the help they need fast

Targeting Mathematics □ 3 Pearl Scott, Sheetal Chaudhery, Shanti Dhulia, Lata Thergaonkar, Targeting Mathematics series consists of nine textbooks one for Primer and eight textbooks for classes 1 8 These books have been formulated strictly in accordance with the Continuous and Comprehensive Evaluation CCE approach of Central Board of Secondary Education CBSE and are based on the latest syllabus The series also conforms to the guidelines of National Curriculum Framework 2005 The books have been written by experienced and renowned authors

Maths Ladder □ 4 Lata Thergaonkar, Maths Ladder comprises of eight practice books of Mental Maths for classes 1 to 8 This series will help the students acquire the requisite computational skills as well as retain these skills even in later years after passing out of school To achieve proficiency in a subject like Mathematics it is extremely important for a student to get sufficient practice so as to understand

and apply the various concepts he/she learns

Ganit Mathematics □ 6 Lata Wishram, GANIT MATHEMATICS series consists of ten textbooks two textbooks for Primer A and B eight textbooks for classes 1-8. This series is strictly based on the syllabus prescribed by the Council for the Indian School Certificate. The series has been developed to guide the young minds to observe and experience mathematics all around them. Each concept has been related to everyday life in order to develop a spirit of curiosity and discovery. Concepts are gradually built up with easy to follow steps and plenty of examples. *Excel Basic Skills Mental Maths Strategies Year 3* Alan Parker, Jan Faulkner, 2004. Mental Maths is the Maths we do in our heads without the use of calculators and without writing down the calculation. Mental Maths strategies are the tricks we use to do Maths in our heads. There are different ways of finding the answer to any Mental Maths problem and such strategies are the focus of this series. Even though calculators and computers play an enormous role in the modern world we still need to go back to the basics % we do need to know how to check that the sales assistant at the counter is giving us the right change. Mental Maths has become more important than ever and new primary Maths syllabuses in Australia are reflecting this. For example NSW has placed an emphasis on Mental Maths in its primary syllabus and even the Year 10 School Certificate examination has a compulsory non-calculator section. Features of this book include 32 double page units of Mentals are included % 8 units for each school term each unit is divided into four sets A, B, C and D of 15 questions each. Each numbered question covers particular Maths topics throughout the book for example Question 1 always covers addition while Question 15 always covers geometry. A special eHelp section at the front of the book gives different strategies and explanations to help students solve Mentals problems. These are also numbered so they link to the question numbers in each Mentals unit. A eFun Spot unit containing fun activities and a eRevision unit are included at the end of each 8 units. eExtra practice sections which reinforce particular strategies appear in the lower part of each page. Answers to all questions are in a lift out section in the centre of the book.

Mental Fatigue and Its Measurement by the Aesthesiometer Abraham R. Abelson, 1908

Ganit Mathematics □ 4 Madhubun, Ganit Mathematics series consists of seven textbooks two textbooks for Primer A, B and five textbooks for classes 1-5. The textbooks meet the requirements of the latest ICSE syllabus. The series has been developed to guide the young minds to observe and experience mathematics all around them. Each concept has been related to everyday life in order to develop a spirit of curiosity and discovery. Concepts are gradually built up with easy to follow steps and plenty of examples.

Understanding Mathematics □ 7 C. Sailaja, Smita Ratish, Lata Wishram, Understanding Mathematics is a carefully written series of mathematics to help students encourage the study of mathematics in the best interactive form. It contains ample practice material, attractive illustrations and real life examples for the students to relate the topics with their everyday life. Special care has been taken while teaching topics like geometry and probability to the students. Keeping in mind the development status and comprehension level of students the text has been presented in a well graded manner.

Supporting Mathematical Development In The Early Years Pound, Linda, 2006-05-01. Review of the first edition. All

the major areas of early childhood maths teaching and learning are covered in this powerful book The book is also full of delightful stories It would be eminently suitable for beginning and trainee teachers but would also be helpful to all those concerned in early years settings All the relevant information is here based on a wealth of knowledge and experience TES Supporting Mathematical Development in the Early Years provides practical guidance for parents teachers and other early years workers who want to give children a good start in mathematical development Showing how competent children are as mathematicians from an early age the book offers an overview of young children s mathematical behaviour at home and in early years settings The book defines the content and the learning curriculum required to promote mathematical thinking including an examination of the relationship between mathematics and language learning and the role of other cross curricular aspects such as information and communications technology ICT It explores the role of staff in observing planning for and supporting children s learning by using a variety of strategies and makes suggestions for promoting effective partnerships between the parents or principal carers and early years staff The book also considers the importance of play and imagination to the development of abstract thought The second edition is comprehensively updated throughout and includes new material on Special Educational Needs the very early years the role of play the role of ICT and examples of outdoor play It is essential reading for early years teachers and students as well as parents who want to understand and develop their children s early mathematical learning

Mathematics Today-5 S.K. Gupta & Anubhuti Gangal, The ebook version does not contain CD
