The Art of Teaching Music Estelle R. Jorgensen, 2024-06-06 The Art of Teaching Music takes up important aspects of the art of music teaching ranging from organization to serving as conductor to dealing with the disconnect between the ideal of university teaching and the reality in the classroom. Writing for both established teachers and instructors on the rise, Estelle R. Jorgensen opens a conversation about the life and work of the music teacher. The author regards music teaching as interrelated with the rest of lived life and her themes encompass pedagogical skills as well as matters of character, disposition, value, personality, and musicality. She reflects on musicianship and practical aspects of teaching while drawing on a broad base of theory, research, and personal experience. Although grounded in the practical realities of music teaching, Jorgensen urges music teachers to think and act artfully, imaginatively, hopefully, and courageously toward creating a better world.

Envisioning Music Teacher Education Susan Wharton Conkling, 2015-05-27 This volume will contain selected proceedings from the 2013 Symposium on Music Teacher Education sponsored by NAFME's Society for Music Teacher Education and hosted at the University of North Carolina. After an introduction written by SMTE Chair Doug Orzolek, the initial chapter will represent the keynote address of the symposium by Karen Hammerness, Director of Program Research for the Bard Master of Arts in Teaching Program. Hammerness will bring her comparative work with music teacher educators in Finland and Norway to bear in her address. From Inspiring Visions to Everyday Practices: Exploring Vision and Practice in Music Teacher Education. Hammerness's research distills into three main themes: To mitigate against the fragmentation that characterizes so much of contemporary education, teacher education programs must 1) promote a clear vision of teachers and teaching; 2) be coherent, reflecting shared understanding of teaching and learning among faculty and students; 3) be built around a strong core curriculum that is deeply tied to the practices of teaching. These three themes will orient the remainder of chapters in the volume, which will come from invited primary presenters at the 2013 Symposium. Due to selectivity of blind peer review, twenty-one percent acceptance rate, these presentations represent the most rigorous research and best practices grounded in research that the music education profession has to offer.

An Integrated Play-based Curriculum for Young Children Olivia N. Saracho, 2013-03 Play provides young children with the opportunity to express

their ideas symbolize and test their knowledge of the world. It provides the basis for inquiry in literacy, science, social studies, mathematics, art, music, and movement. Through play, young children become active learners engaged in explorations about themselves, their community, and their personal social world. An Integrated Play Based Curriculum for Young Children offers the theoretical framework for understanding the origins of an early childhood play based curriculum and how young children learn and understand concepts in a social and physical environment. Distinguished author Olivia N. Saracho then explores how play fits into various curriculum areas in order to help teachers develop their early childhood curriculum using developmentally and culturally appropriate practice. Through this integrated approach, young children are able to actively engage in meaningful and functional experiences in their natural context. Special Features Include Vignettes of children's conversations and actions in the classroom, Suggestions for activities and classroom materials, Practical examples and guidelines, End of chapter summaries to enhance and extend the reader's understanding of young children. By presenting appropriate theoretical practices for designing and implementing a play based curriculum, An Integrated Play Based Curriculum for Young Children offers pre-service teachers the foundational knowledge about the field, about the work that practitioners do with young children, and how to best assume a teacher's role effectively.

Points of Disruption in the Music Education Curriculum, Volume 1 Marshall Haning, Jocelyn A. Stevens, Brian N. Weidner, 2024-05-15. For decades, scholars in the field of music education have recognized the need for growth and change in our approach to teaching music, yet despite these calls for change, the music education curriculum today remains remarkably similar to that of a century ago. *Points of Disruption in the Music Education Curriculum Volume 1: Systemic Changes* is one of two volumes that bring together applied suggestions, analyses, and best practices for disrupting cycles of replication in the curriculum of K-12 and collegiate music education programs in the United States and beyond, considering disruption as a force for positive change. Identifying specific strategies for interrupting or reimagining traditional practices, the contributors provide music teachers and music educators with a variety of potential practical approaches to creating changes that foster a better musical education at all levels of the curriculum. This first volume focuses on systemic changes, including topics like professional development, hiring practices, ableism, and universal design, rhizomatic learning, and how to implement disruption across the music education profession. Each chapter contains specific action steps and suggestions for implementation. Bringing together five thought-provoking chapters, this concise volume offers a diverse set of concrete strategies that will be useful to a wide range of music education stakeholders, including teachers, administrators, and curriculum designers.
