Brown, 2021-06-01 This open access book explores the historical cultural and philosophical contexts that have made anti poverty the core of Chinese society since Liberation in 1949 and why poverty alleviation measures evolved from the simplistic aid of the 1950s to Xi Jinping s precision poverty alleviation and its goal of eliminating absolute poverty by 2020 The book also addresses the implications of China s experience for other developing nations tackling not only poverty but such issues as pandemics rampant urbanization and desertification exacerbated by global warming The first of three parts draws upon interviews of rural and urban Chinese from diverse backgrounds and local and national leaders These interviews conducted in even the remotest areas of the country offer candid insights into the challenges that have forced China to continually evolve its programs to resolve even the most intractable cases of poverty The second part explores the historic cultural and philosophical roots of old China s meritocratic government and how its ancient Chinese ethics have led to modern Chinese socialism s stance that poverty amidst plenty is immoral Dr Huang Chengwei one of China s foremost anti poverty experts explains the challenges faced at each stage as China s anti poverty measures evolved over 70 years to emphasize enablement over aid and to foster bottom up initiative and

entrepreneurialism culminating in Xi Jinping's precision poverty alleviation. The book also addresses why national economic development alone cannot reduce poverty; poverty alleviation programs must be people-centered with measurable and accountable practices that reach even to household level, which China has done with its First Secretary program. The third part explores the potential for adopting China's practices in other nations, including the potential for replicating China's successes in developing countries through such measures as the Belt and Road Initiative. This book also addresses prevalent misperceptions about China's growing global presence and why other developing nations must address historic systemic causes of poverty and inequity before they can undertake sustainable poverty alleviation measures of their own.

The Urban Shepherd: Chasing the American Dream Ben Amor, 2024-03-20

He has come a long way both literally and figuratively from his days as a poor shepherd boy in Tunisia, North Africa, but Ben Amor is a symbol of what can happen when you don't give up and chase the American Dream until it comes true. The successful career man reinvented himself again after a dream in 1983 of children crying because they were dying of starvation. Unable to forget the sound of children crying, he founded Terra Genesis Inc., a nonprofit agency that began as a way to try to end world hunger through technology. The book tells how a young man's vision and passion lead him to chase the American Dream in spite of many challenges and people calling him crazy. Ben has his own experience with overcoming the odds; a journey he intimately describes in *The Urban Shepherd*. He shares his joys and his sorrows from humble beginnings working hard to survive in Tunisia, serving in the Tunisian Air Force, and moving to the United States to live. Through sharing his personal journey, adjusting to a new culture, toxic relationships, professional and personal setbacks, and balancing school work and family life, Ben aims to empower readers to chase and reach the American Dream.

Chasing the American Dream: The Story of a Shepherd Boy, *The Urban Shepherd* is a biographical self-help book that shows how a young poor shepherd boy followed his desire to find the American Dream. Staying perseverant in pursuit of a dream can be challenging, especially when one starts out with meager resources, lack of experience, and a continuous barrage of personal and professional setbacks. *The Urban Shepherd* takes you on an engaging journey through the souks of Tunisia, North Africa, to the bustle of San Antonio, Texas, with its Alamo and Riverwalk. While the book reads like a mosaic pieced by countless aspects of life, relationships, and professional growth, its purpose is clear: to empower readers to chase and actualize their dreams and find self-fulfillment. The book shows that what is important is not where you start but where you end up. The author was born in Tunisia as a boy of humble stature raised on farmland. As a Tunisian Muslim, he decided to join the air force and then moved to the United States to pursue the American Dream. The dream did not come easily, but eventually it did come. The author cites bits of advice from notable authors such as T. Harv Eker, Elizabeth Steger, and Don Miguel Ruiz, author of *The Four Agreements*. Ben's approach is both instructional and personal, as he mentions works that he gained inspiration from.

[ONE MAN'S DREAM](#) George O. Pabo, 2012-07-17

One Man's Dream talks about those dreams each of us have and throw away because of a lack of conviction. It also talks about the

differences between Europe and Africa and the contrasts between both continents' culture *Reforming Education and Challenging Inequalities in Southern Contexts* Pauline Rose, Madeleine Arnot, Roger Jeffery, Nidhi Singal, 2021-03-24 This book offers in-depth analyses of how education interacts with social inequality in Southern contexts. Drawing on a range of disciplinary frameworks, it presents new analyses of existing knowledge and new empirical data which define the challenges and possibilities of successful educational reform. It is a tribute to the work of the late Christopher Colclough, who as a leading figure in education and international development played a key role in the global fight for education for all children. The book critically engages with international evidence of educational access, retention and outcomes, offering new understandings of how social inequalities currently facilitate, mediate or restrict educational opportunities. It exposes the continuing influence of wealth and regional inequalities and caste and gendered social structures. Researchers in Ethiopia, Ghana, India, Pakistan and Uganda highlight how the aspirations of families living in poverty remain unfulfilled by poor quality education and low economic opportunities, and how schools and teachers currently address issues of gender, disability and diversity. The book highlights a range of new priorities for research and identifies some necessary strategies for education reform, policy approaches and school practice if educational equality for all children is to be achieved. The book will be of great interest to researchers, scholars, educational practitioners and policy makers in the fields of economics, politics and sociology of education, international education, poverty research and international development.
